DESCRIPTION OF POPULATION ESTIMATES FOR LATEST YEAR

GIVEN IN THIS QUESTIONNAIRE

In order that the description of national population estimates on file in the Statistics Division of
the United Nations is accurate and complete, it is desirable to provide for confirmation or revision of the method
of their construction. The questions below relate to coverage of data, and method of estimation. It is required
that a check mark (X) be made in the box following the words which best describe the estimates in terms
of these questions.

1. COVERAGE OF DATA

In conformity with definition given on page 2, estimates should relate to de facto population.
In order to clarify the exact composition of the population, please indicate in the following check box
the exact disposition of each group listed, using “IN” for included; “EX” for excluded. Specify years
to which description refers.
