<td></td>
<td></td>
</tr>
</tbody>
</table>

*Please specify:*

- Year(s) to which completeness estimate refers: 2015 2015 2015 2015 2015 2015

- Basis of completeness estimate:
  - Demographic analysis
  - Dual record check
  - Questions in population census
  - Questions in sample surveys
  - Other (specify) | x | x | x | x | x | x |

*Please include any reports describing completeness of registration and methods used in arriving at estimated completeness:*

### Quality of vital statistics obtained from other sources

#### Basis of vital statistics estimates is

- Population censuses (date)
- Sample surveys
- Dual record registers
- Other (specify)

*Please include any reports describing the methods used for estimates of vital statistics based on other sources than civil registration:*

---

Актовые записи о рождении, смерти, браках и разводах, составляемые органами ЗАГС/Registration of births, deaths, marriages and divorces, compiled by Civil Registry Office
### Table 1.1 - Urban / rural definitions

Please state the definition used for urban area and the period of time it has been in use:

Please state the definition used for rural area and the period of time it has been in use:

### Table 1.6 - Grounds for legally induced abortion

Please mark with an “X” the applicable options:

- a) Continuance of pregnancy would involve risk to the life of the pregnant woman greater than if the pregnancy were terminated.
- b) Continuance of pregnancy would involve risk of injury to the physical health of the pregnant woman greater than if pregnancy were terminated.
- c) Continuance of pregnancy would involve risk of injury to the mental health of the pregnant woman greater than if pregnancy were terminated.
- d) Continuance of pregnancy would involve risk of injury to the mental or physical health of the pregnant woman greater than if pregnancy were terminated.
- e) There is a substantial risk that if the child were born it would suffer from such physical or mental abnormalities as to be seriously handicapped.
- f) Other, please specify:

### Tables 14a, 14b, 15a and 15b - Life tables

Do the life tables refer to de Facto population or de Jure population?

- The average annual number of de jure population is used

Was any method used to smoothen the life table? Which one?

- It isn't used.

Was any specific method used to close the life table at older ages (e.g., Gompertz, Makeham, etc.)? Which one?

- It isn't used.

If any model life table or relational model was used to derive the life table (e.g., Coale-Demeny West, UN South Asian pattern), what model was used?

- It isn't used.

Please mark with an “X” the applicable options:

- a) Unadjusted vital registration deaths
- b) Adjusted vital registration deaths
- c) Information on deaths from census
- d) Life expectancy at birth
- e) Under-five mortality
- f) Infant mortality
- g) Other, please specify:

### Table 22 Minimum legal marriage age

Please specify the minimum legal age at which marriage can take place:

<table>
<thead>
<tr>
