

Quality of vital statistics obtained from civil registration

I. Basis of tabulation	Live births	Deaths	Infant deaths	Late foetal deaths	Marriages	Divorces
Present basis of tabulation:						
- date of occurrence		√				
- date of registration			√	√	√	
How long has the present basis of tabulation been used?	Since 1989	Since 1989	Since 1989	Since 1989		

II. Estimated completeness of registration	Live births	Deaths	Infant deaths	Late foetal deaths	Marriages	Divorces
90 per cent or more						
75-89 per cent						
50-74 per cent						
Under 50 per cent						
Please specify:						
(a) Year(s) to which completeness estimate refers						
(b) Basis of completeness estimate						
-Demographic analysis						
-Dual record check						
-Questions in population census						
-Questions in sample surveys						
-Other (specify)						
-No evaluation						

Please include any reports describing completeness of registration and methods used in arriving at estimated completeness:

--

Quality of vital statistics obtained from other sources

Basis of vital statistics estimates is						
- Population censuses (date)						
- Sample surveys						

- Population registers						
- Dual record systems						
- Other (specify)						

Please include any reports describing the methods used for estimates of vital statistics based on other sources than civil registration:

Additional metadata for selected tables

Table 1.1 - Urban / rural definitions

Please state the definition used for urban area and the period of time it has been in use:	'Urban/rural location' is not applicable as Singapore is a city-state
Please state the definition used for rural area and the period of time it has been in use:	'Urban/rural location' is not applicable as Singapore is a city-state

Table 1.6 - Grounds for legally induced abortion

<i>Please mark with an "X" the applicable options</i>	X	
a) Continuance of pregnancy would involve risk to the life of the pregnant woman greater than if the pregnancy were terminated.		
b) Continuance of pregnancy would involve risk of injury to the physical health of the pregnant woman greater than if pregnancy were terminated.		
c) Continuance of pregnancy would involve risk of injury to the mental health of the pregnant woman greater than if pregnancy were terminated.		
d) Continuance of pregnancy would involve risk of injury to the mental or physical health of the pregnant woman greater than if pregnancy were terminated.		
e) There is a substantial risk that if the child were born it would suffer from such physical or mental abnormalities as to be seriously handicapped.		
f) Other, please specify.	All healthcare institutions (Hospitals & Clinics) that perform termination of pregnancies have to comply with the requirements stipulated in Singapore's Termination of Pregnancy (TOP) Act & Regulations	

Tables 14a, 14b, 15a and 15b - Life tables

Do the life tables refer to de Facto population or de Jure population?	De Jure Population
Was any method used to smoothen the life table? Which one?	Whittaker-Henderson Method of Graduation of Mortality Rates

Was any specific method used to close the life table at older ages (e.g., Gompertz, Makeham, etc.)? Which one?	Coale-Kisker Method	
If any model life table or relational model was used to derive the life table (e.g., Coale-Demeny West, UN South Asian pattern), what model was used?	No	
<i>Please mark with an "X" the applicable options</i>	X	
What source of data was used to compute the life tables?		
a) Unadjusted vital registration deaths		
b) Adjusted vital registration deaths	X	
c) Information on deaths from census		
d) Life expectancy at birth		
e) Under-five mortality		
f) Infant mortality		

Resident deaths are averaged over two years for preliminary life tables, and averaged over three years for final life tables.

Table 22 Minimum legal marriage age

Please specify the minimum legal age at which marriage can take place:	Men	Women
a) With parental consent	Below 21	Below 21
b) Without parental consent	21 and above	21 and above

Minimum legal marriage age above refers to marriages contracted under the Women's Charter. For Muslim marriages under the Administration of Muslim Law Act, no marriage shall be solemnised when either party is below the age of 18 years. Notwithstanding that, Muslim women below the age of 18 years and have attained the age of puberty may be married under the Administration of Muslim Law Act.
