The screenshot shows a software interface for creating a questionnaire. On the left, a tree view lists variables under 'lab2 questionnaire'. The 'Person record' folder is expanded, showing variables like 'Person Number', 'Relationship to Head', 'Sex', 'Age', 'Day of Birth', etc. The 'Relationship to Head' variable is highlighted. A red arrow points from this variable to the 'Parent' row in a table on the right. The table is titled 'Table 2. Relationship to Head' and has two columns: 'Relationship to Head' and 'Total'.
