GENERAL NOTES - NOTES GENERALES

For certain countries, there is a discrepancy between the total number of live births shown in this table and those shown in subsequent tables for the same year. Usually this discrepancy arises because the total number of births occurring in a given year is revised, although the remaining

tabulations are not. Rates are the number of live births per 1 000 mid-year population. For method of evaluation and limitations of data, see Technical Notes for this table. — Pour quelques pays il y a une discordance entre le nombre total des naissances vivantes présenté dans ce tableau et ceux présentés pour la même année. Habituellement ces différences apparaissent lorsque le nombre total des naissances pour

une certaine année a été révisé; alors que les autres tabulations ne l'ont pas été. Les taux représentent le nombre de naissances vivantes pour 1 000 personnes au milieu de l'année. Pour la méthode d'évaluation et les insuffisances des données, voir Notes techniques pour ce tableau.

Italics: data from civil registers which are incomplete or of unknown completeness. — Italiques: données incomplètes ou dont le degré d'exactitude n'est pas connu provenant des registres de l'état civil.
