  - xxii Includes travelling people and homeless persons living rough on Census night.
  - xxiii Including 15,566 private households/livings quarters with no information on densely/sparsely populated areas (33,400 persons).
  - xxiv Data refer to population living in private households.
  - xxv The 1991 population and Housing Census of Spain defined "rural areas" as entities up to 2,000 inhabitants, "intermediate areas" as entities from 2,001-10,000 inhabitants and "urban areas" as entities over 10,001 inhabitants. Here, "Rural" covers both rural and intermediate areas.
  - xxvi Urban area refers to non-administrative centres which are regarded as urban in character and have a population of 1,000 or greater.
  - xxvii Rural area refers to area not specifically designated as "Urban" - includes rural centres (population 300-999), administrative county or district territory not included in an urban area and inland waters, coastal inlets and harbours, oceanic waters and islands, which are outside urban areas.
