Questionnaire D

NATIONAL POPULATION AND HOUSING CENSUS 2002
MAY 20th

FEMALE FERTILITY

(Survey concerns women at the age of 16 and over present in the sample dwelling)

Positions 1-6 are completed by an interviewer on the base of the questionnaire A

1. Voivodship*	5. Number of questionnaire A*
2. Powiat*	6. Number of person on questionnaire A
3. Community (gmina)*	7. Number of questionnaire D in enumerated dwelling
4. Town*	7a. Number of additional questionnaires D

Do not fill in marked by () questions (positions)

Answering on questions from 8 to 14 is voluntary. Your participation in this survey is very important, mainly due to small information on determinants of a decline of woman fertility in Poland. Every woman represents ca. 50 women and for this reason a refusal of answer can cause, that survey results could not be representative for all women in Poland.

Only women living in the sample dwelling can give personally answers for questions 8-14. In many cases a sign (X) should be written into boxes beside numbers, other boxes should be filled in Arabic numbers, e.g. November-11. One box should be filled by one number.

8. Date of birth	day	month	year	9. Place of birth	• urban area	1
					• rural area	2
10. Are you or have you ever been married or common-law partner?	• yes	1	→	question 11
