

Burkina Faso National Seminar on Census Data Analysis, Ouagadougou, Burkina Faso, 14-16 November 2011

The United Nations Statistics Division has organized the Burkina Faso National Seminar on Census Data Analysis, from 14 to 16 November in Ouagadougou, Burkina Faso. The main objective of the national seminar was to provide an opportunity for the of Burkina Faso, to further analyze data from the 2006 population and housing census of Burkina Faso on selected topics. The ultimate objective is to promote greater analysis and dissemination of the data collected from the 2006 census. The national seminar was attended by 20 participants representing the Institut National de la Statistique et de la Démographie (INSD), the Direction générale des information sur la santé et Statistique (DGISS), the Conseil National de Population (CONAPO), the Institut Supérieur des Sciences de la Population (ISSP), and UNSD. The national seminar covered the following topics: (i) analysis of data on educational characteristics, (ii) analysis of data on migration, and (iii) population projections at sub-national level. After the seminar, participants are expected to produce thematic analytical reports, based on analyses generated during the seminar. For more information:
