

Uses of the Energy Statistics.

How are Energy Statistics used in Cuba?

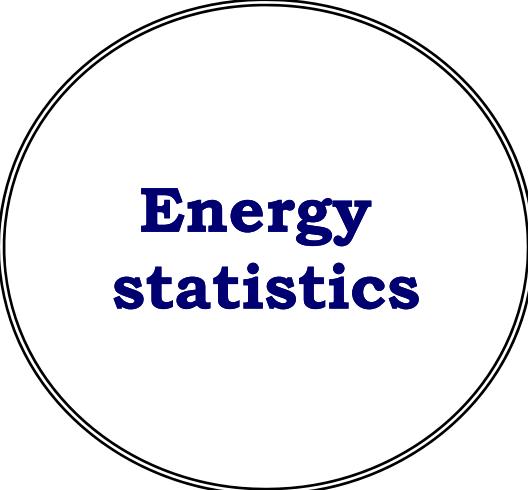

Decision making for the country's economic development

Linkage to National Energy Accounts

National Accounts in Cuba are kept by the National Statistics Office and not by the Central Bank, therefore creating a very close relationship between these accounts and national statistics

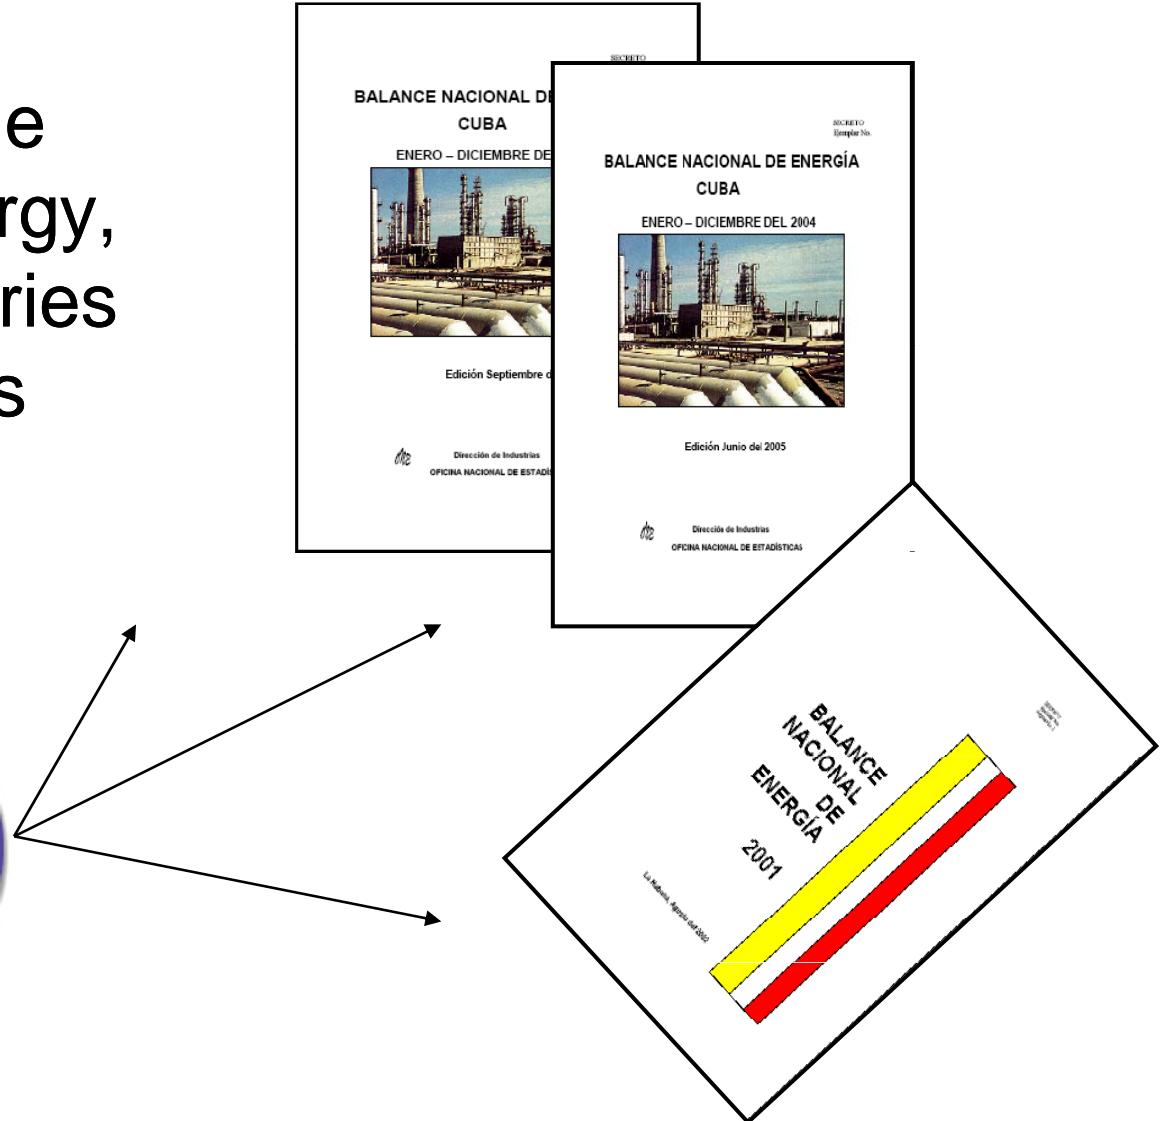

**Energy
statistics**

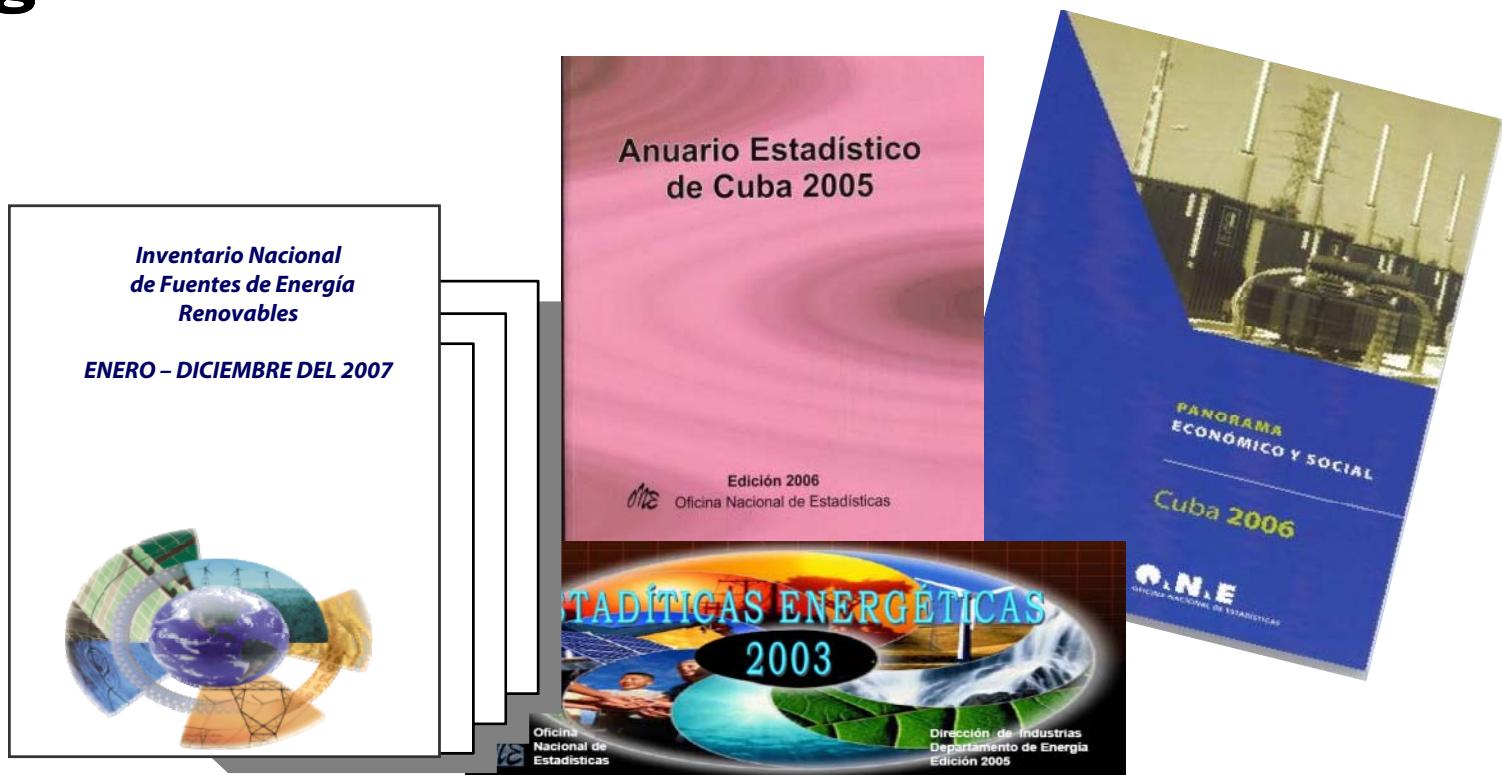

**Energy
accounts**

Elaboration of the Balances of Energy, with historical series since the eighties

Dissemination of information to the public sector, specialists, academic centers and the entities who provide the original information
