International Workshop on Energy Statistics
Baku, Azerbaijan, 27-30 September 2011

Provisional agenda

Provisional agenda

Tuesday, 27 September 2011

09:00 Registration of participants

Opening

09:30 Opening of the Workshop
Mr. Arif Valiyev, Chairman of the State Statistical Committee of the Republic of Azerbaijan
Mr. Ralf Becker, Chief Industry and Energy Statistics Section, UNSD

09:45 Introduction of participants and organization of the workshop

Session 1: Importance of energy statistics

10:15 Role and importance of energy statistics

This session will discuss the role of energy statistics and review recent developments to improve harmonization and usefulness of energy statistics, including the *International Recommendations for Energy Statistics* (IRES) and the *Energy Statistics Compilers Manual* (ESCM).

Mr. Ralf Becker UNSD
Mr. Pierre Boileau, IEA

11:15 Coffee break

Session 2: Institutional arrangements and legal framework for energy statistics

11:30 Review of recommendations and current country practices in institutional arrangements for energy statistics

This session will review country practices for institutional arrangements and setting legal frameworks for energy statistics and compare them with recent international recommendations on this topic.

Ms. Ilaria DiMatteo, UNSD

Country presentations
Mr. Iain MacLeay, DECC, UK
Mr. Yusif Yusifov, State Statistical Committee, Azerbaijan

12:30 Lunch

14:00 Review of recommendations and current country practices in institutional arrangements for energy statistics (cont.)

Country presentations
Ms. Valentina Comarnitchi, National Bureau of Statistics, Moldova
Ms. Gogita Todradze, National Statistics Office, Georgia
Mr. Asvat Asoev, Agency on Statistics, Tajikistan

Open discussion

15:00 **Coffee break**

Session 3: Classifications in energy statistics

15:20 **International classifications relevant for energy statistics**

This session will provide an overview of existing classifications used in (and recommended for) energy statistics. This includes in particular a discussion of the new Standard International Energy Product Classification (SIEC) and its relationship to other product classifications, like the Central Product Classification (CPC) and the Harmonized Commodity Description and Coding System (HS), as well as the use of the International Standard Industrial Classification of All Economic Activities (ISIC) in the production of energy statistics.

Mr. Ralf Becker, UNSD

Country presentations

Mr. Rauf Gurbanov, State Statistical Committee, Azerbaijan

Ms. Marianna Bazheva, Rosstat, Russia

Open discussion

17:30 **Close**

Wednesday, 28 September 2011

Session 4: Data collection and compilation issues

This session will focus on issues related to data collection and compilation, covering discussions on data sources, data items and reporting requirements. Since sources and methods differ among energy products, separate agenda items will be used to discuss specific methods for each relevant group of energy products separately.

09:30 **Coal Statistics**

Review of international recommendations

Ms. Ilaria DiMatteo, Industry and Energy Statistics Section, UNSD

Country presentations

Ms. Marianna Bazheva, Rosstat, Russia

Mr. Anatoliy Fryzorenko, State Statistics Committee, Ukraine

Ms. Chinara Abdrakhmanova, National Statistical Committee, Kyrgyzstan

Open discussion

11:00 **Coffee break**

11:20 **Oil Statistics**

Review of international recommendations

Ms. Ilaria DiMatteo, UNSD

Country presentations

Mr. Hajibala Dadashov, State Statistical Committee, Azerbaijan
Ms. Aigerim Yerzhanova, Agency on Statistics, Kazakhstan
Ms. Valentina Comarnitchi, National Bureau of Statistics, Moldova

Open discussion

12:30 **Lunch**

14:00 **Photo Session**

14:30 **Social Event organized by The State Statistical Committee of Azerbaijan**

19:00 **Dinner**

Thursday, 29 September 2011

Session 4: Data collection and compilation issues (cont.)

09:30 **Gas Statistics**

Review of international recommendations
Ms. Ilaria DiMatteo, UNSD

Country presentations
Mr. Iain MacLeay, Prices and Publications DECC, UK
Mr. Anatoliy Fryzorenko, State Statistics Committee, Ukraine

Open discussion

11:00 **Coffee break**

11:20 **Electricity and heat statistics**

Review of international recommendations
Ms. Ilaria DiMatteo, UNSD

Country presentations
Ms. Olga Dovnar, National Statistical Committee, Belarus
Ms. Aigerim Yerzhanova, Agency on Statistics, Kazakhstan
Tajikistan, Mr. Asvat Asoev, (To be confirmed)

Open discussion

12:30 **Lunch**

14:00 **Renewable energy sources statistics**

Review of international recommendations
Mr. Pierre Boileau, IEA

Country presentations
State Agency on Alternative and Renewable Energy Sources, Azerbaijan

Open discussion

15:00 Coffee break

Session 5: Commodity and energy balances

15:20 Compilation of Commodity and Energy Balances

This session will review current international recommendations for the compilation of commodity and energy balances. The structure and data requirements, as well as international coherence and validation of the balances will be discussed. Current country practices will be considered to discuss specific problems in the compilation of the balances.
Mr. Pierre Boileau, IEA

Country presentations

Ms. Olga Dovnar, National Statistical Committee, Belarus

Ms. Chinara Abdrakhmanova, National Statistical Committee, Kyrgyzstan

Mr. Rauf Gurbanov, Deputy Head of division, State Statistical Committee, Azerbaijan

Open discussion

17:30 Close

Friday, 30 September 2011

Session 6: Data quality assurance and data dissemination

9:30 Data quality assurance

This session will review current international frameworks for data quality assurance and their specific application to energy statistics-producing processes.

Mr. Ralf Becker, UNSD

Data dissemination

This session will review current recommendations for data dissemination and data dissemination standards and their specific application to the dissemination of energy statistics.

Mr. Iain MacLeay, DECC, UK

Country presentations

Mr. Shukhrat Adilov, State Committee on Statistics, Uzbekistan

Open discussion

Session 7: Applications of energy statistics

10:30 Energy statistics for energy accounts, air emission, energy efficiency indicators

This session will discuss the use of energy statistics (as discussed in previous sessions) in a number of applications, such as the compilation of energy accounts (including an overview of current work on the System of Environmental-Economic Accounting for Energy (SEEA)), the calculation of greenhouse gas emissions, and the compilation of energy efficiency indicators.

Ms. Ilaria DiMatteo, UNSD

Mr. Pierre Boileau, IEA
Ms. Zinovia Munteanu, Ministry of Economy, Moldova

11:00 **Coffee break**

11:20 **Energy statistics for energy accounts, air emission, energy efficiency indicators (cont.)**

12:30 **Lunch**

Session 8: Energy statistics in CIS countries

14:00 **Energy statistics in CIS countries**

This session will summarize issues of special importance for CIS countries, based on discussions held in earlier sessions. Issues raised will be discussed in light of the new international recommendations and the work on the Energy Statistics Compilers Manual (ESCM). Practical guidance to address these issues will be considered for future inclusion in the ESCM.

Roundtable discussion

15:30 **Coffee break**

Session 9: Conclusions

15:50 **Conclusions of the workshop**

This session will summarize the conclusions of the workshop, identifying key areas for future work and needs for further assistance and cooperation.

16:30 **Close**
