And ????????

Proposal for topic selection and organisation of work

- **November 2015:** First discussion of topics and organisation of work during the London group meeting in the Hague
- **November 2015:** Discussion in the SEEA CF technical committee based on the input provided by the London group
- **November-December:** London group members can send comments / suggestions for additional topics.
- **January 2016:** new version of this note with a complemented list of topics
- **Beginning of 2016:** Discussion of this note by the board of the UNCEEA and/or during annual UNCEEA meeting
- **Next London group:** presentation and discussion of work done members of the LG on topics of the research agenda

Questions for the London group:

1. Should we (i.e. the London Group) start working on the research agenda (or wait a couple of years) ?
2. Are all topics on the list still relevant, are there additional topics that should be added ?
3. Do you agree with the proposal for topic selection and organisation of work?
4. How can we organise the work on the research topics ?
