#### **Relevant documents**

Before submitting responses you are encouraged to read the accompanying papers available on the website.

*Reading guide for the SEEA Revision Second Round of Global Consultation*

*Supporting material for selected classifications and lists in the revised SEEA*

**Part I: General comments**

This is the first global consultation based on the complete set of chapters for the SEEA Central Framework. In this section please provide general comments on the drafts chapters. You may like to consider providing comments on the style and tone, the content and coverage, and the general accessibility of the material.

The general feeling among stakeholders in Botswana is that the language and tone of the chapters is complicated and therefore it is an impediment for them to delve more into the contents of the chapters. It could have been made simpler and easy to comprehend by everyone who is going to be involved in the construction of environmental-economic accounts in their countries. However the concepts and the objective of SEEA are quite clear.

**Part II: Technical and other comments**

In the box below please supply any additional comments including those of a more technical nature. As this is the first consultation where the complete 6 chapters have been released, comments on the consistency of the technical content across the chapters would be appreciated.

Please reference your responses with the relevant paragraph number or section number.
