Economically Active Population in Agriculture

Original data source: [FAO](#)

Source: UNEP (2015): The UNEP Environmental Data Explorer, as compiled from Food and Agriculture Organization of the United Nations (FAO) - FAOstat . United Nations Environment Programme. <http://ede.grid.unep.ch>.

Economically active population in agriculture (agricultural labour force) is that part of the economically active population engaged in or seeking work in agriculture, hunting, fishing or forestry.

[development agenda](#) at the global level, and to support its implementation.

Meeting objectives

- Review the list of possible global indicators
- Discuss the global indicator framework, interlinkages across targets and critical issues including data disaggregation
- Discuss the work plan and next steps

 Information Note

Announcements

Visit this webpage regularly for updates and further announcements related to the meeting.

Registration to the meeting is closed. Due to an exceptionally large number of registration requests received by the Secretariat we have reached full capacity for this meeting. In view of space constraints at the meeting venue, we are not able to accept any additional requests for registration to the Second Meeting of the IAEG-SDGs. *We thank you for your understanding!*
