

Self-assessment by Statistics Netherlands on EU Green Deal statistics (2022-2023)

and a Pilot Review on Climate Change
Statistics coordinated by Eurostat (2021)

Arthur Denneman, Statistics Netherlands, Environment Statistics, a.denneman@cbs.nl
October 3, 2023; UNSD 10th meeting of the Expert Group on Environment Statistics

EU Green Deal

lots of data (gaps) (too) many stakeholders (vague) policy goals (by law) ²

Self-assessment

- lots of data (gaps) → Green Deal Workshop (annual, March)
Green Deal Dashboard (end of 2023)
- (too) many stakeholders → Interviews with 20 national organizations:
223 data needs were identified
- (vague) policy goals (by law) → Google search on Green Deal initiatives
by European Commission (EU law):
372 policy goals were identified
(by Green Deal theme and by SDG)

DOs and DON'Ts

- DO Assign a **high level Program Manager** to arrange high level support for funding and enhancement of capacity/resources in Green Deal domain.
- DO Develop a **multi-annual Action Plan** containing all project activities, investments and communication.
- DO Include specific **conversation topics** in invitations to the stakeholders to be interviewed.
- DON'T Long interview reports should be avoided. It is better to formulate directly the **agreed recommendations** (with MS Teams recordings as an Annex).
