E-waste statistics framework

54 UNU-KEYS
Product categorization
of electronic and
electrical products

Status of E-waste Management Globally in 2022

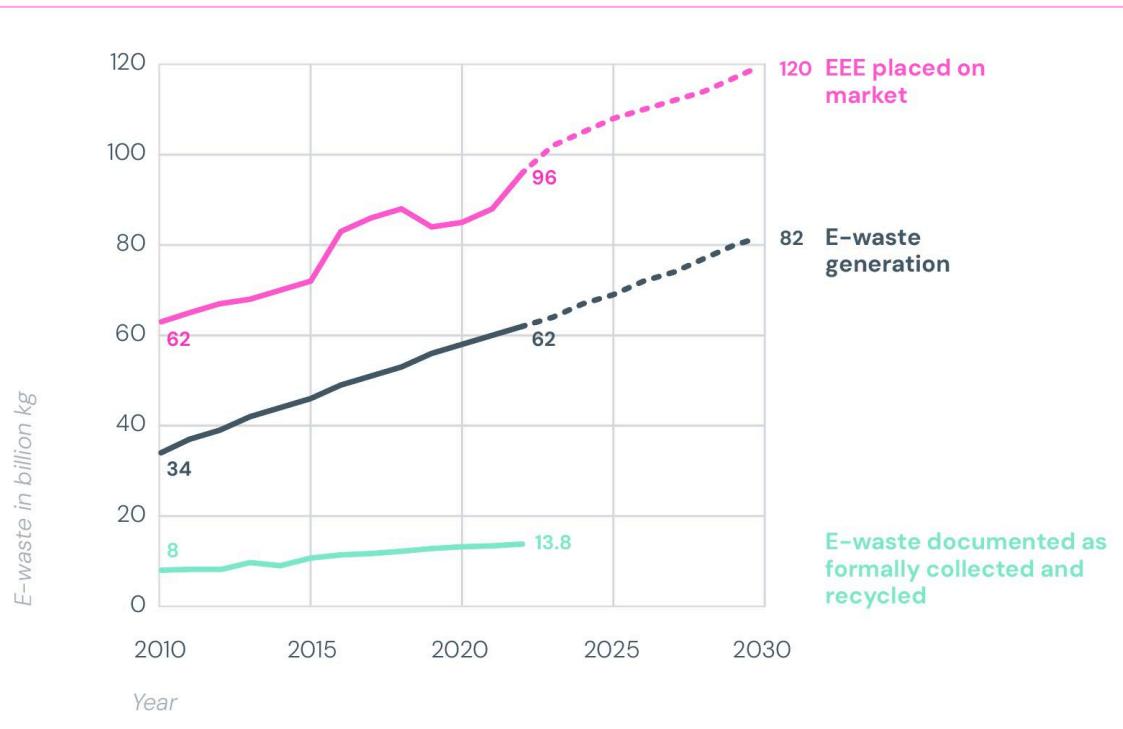

62 billion kg of e-waste generated globally in 2022.

7.8 kg per capita.

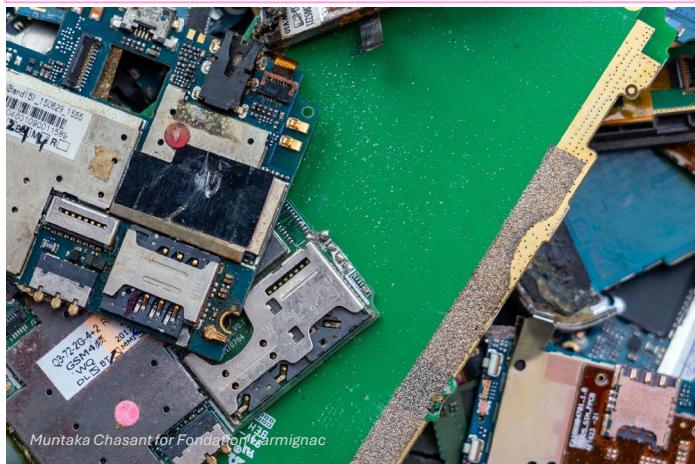

22.3% of this e-waste was documented as formally collected and recycled in an environmentally sound manner.

Global E-waste Trends

Since 2010, the growth of e-waste generation is outpacing the formal collection and recycling

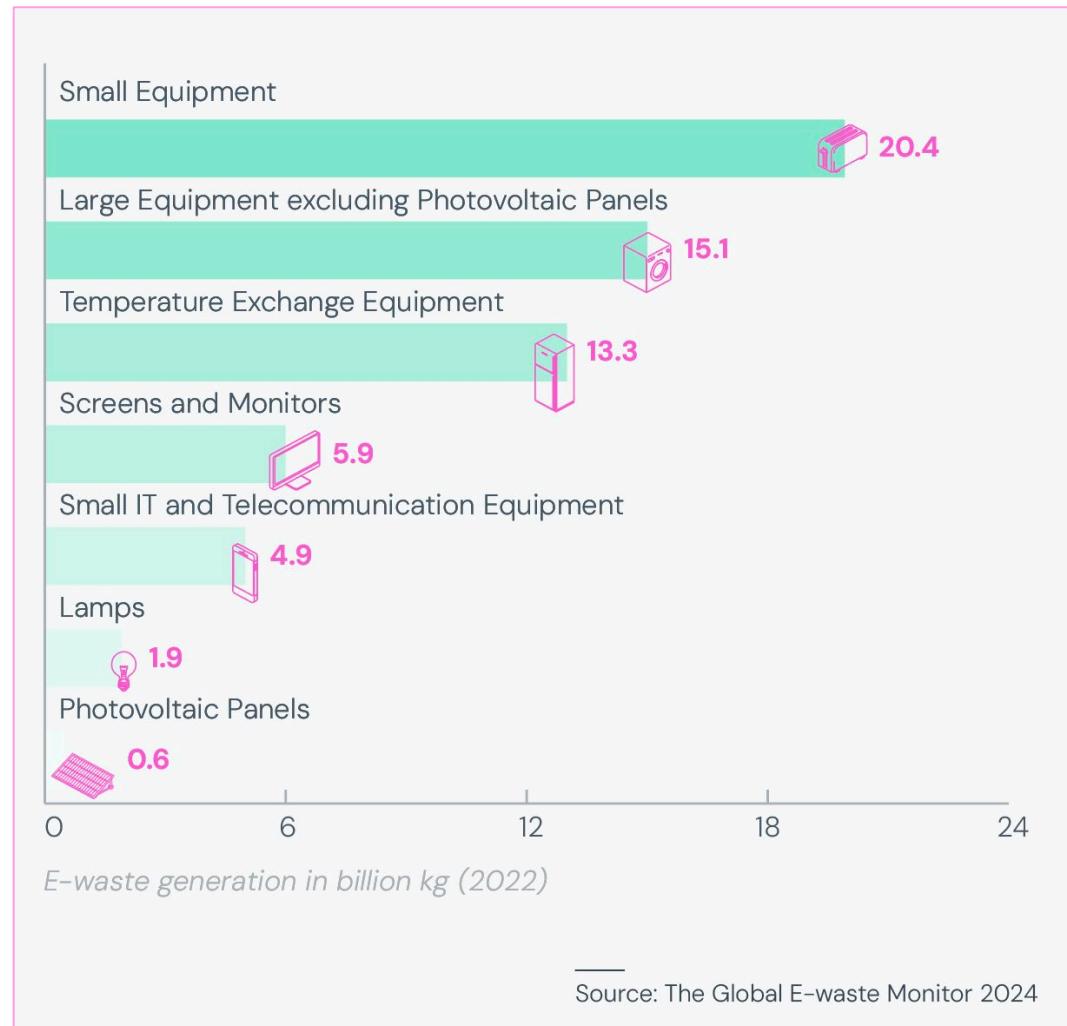

by almost a factor of 5.

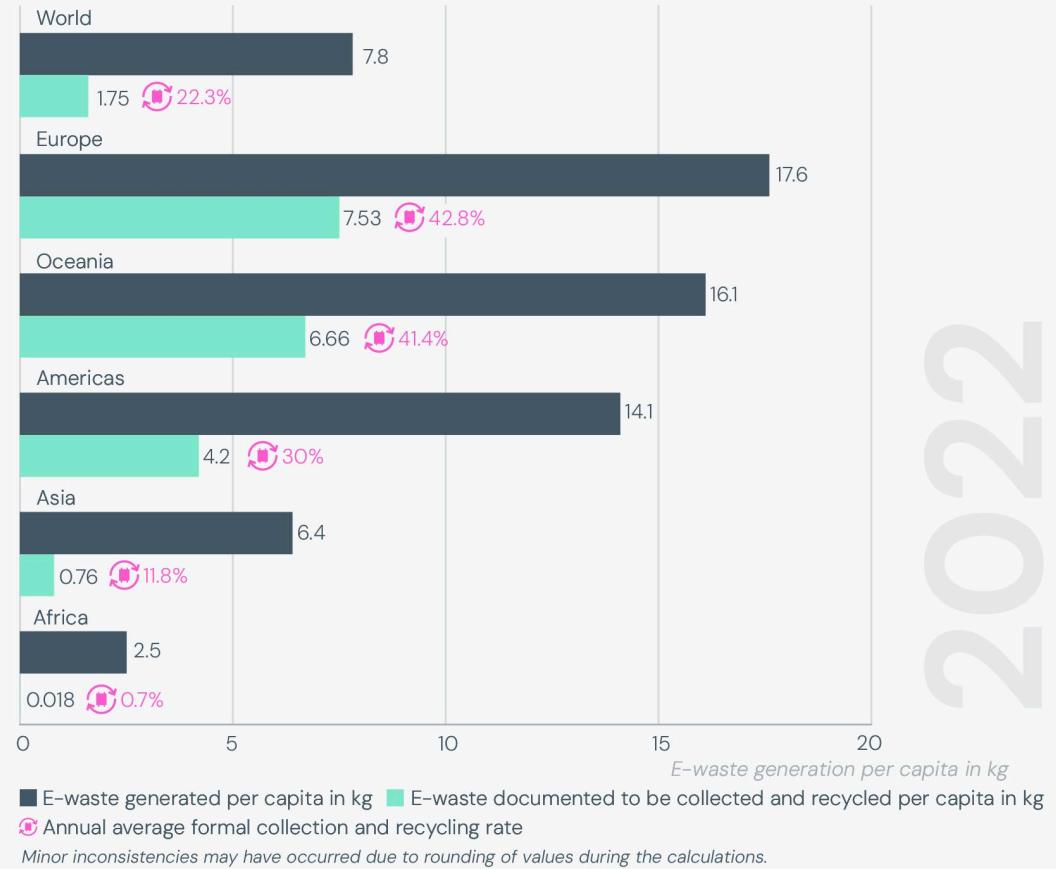

E-waste Generated Per Type

Bénédicte Kurzen / NOOR for Fondation Carmignac

E-waste Generated and Documented as Formally Collected and Recycled by Region

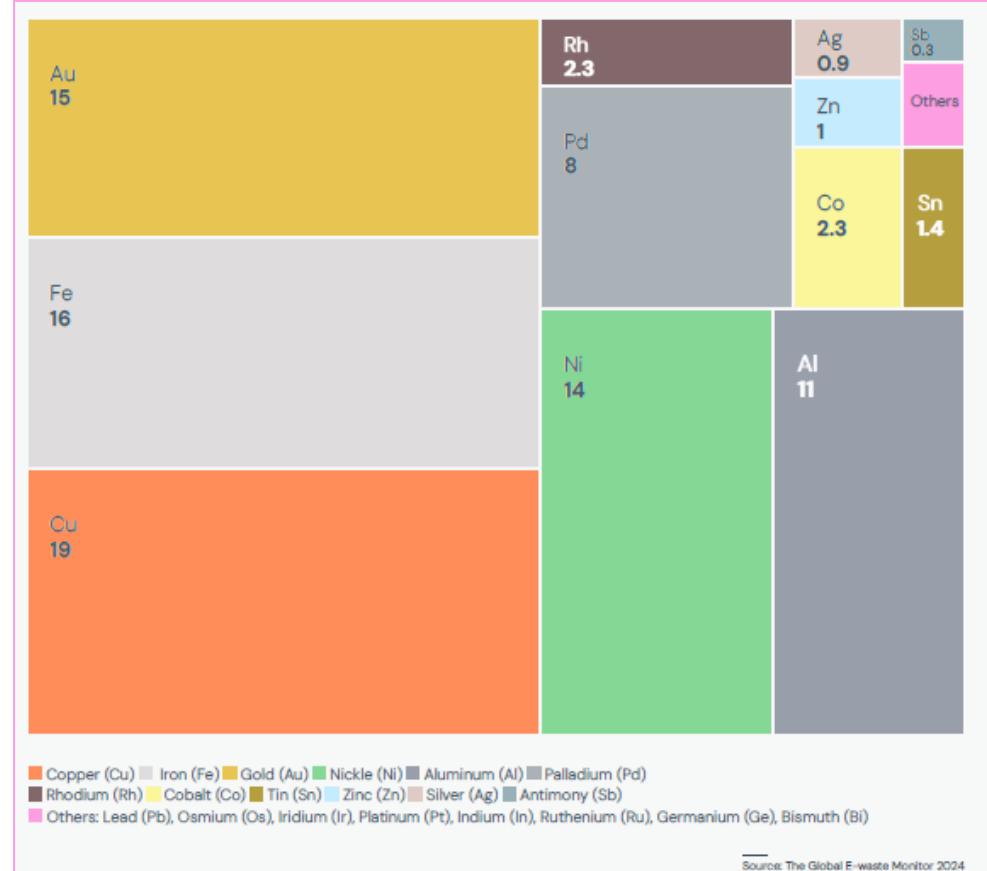

2022

USD 91 billion of value of metals in e-waste (before management)

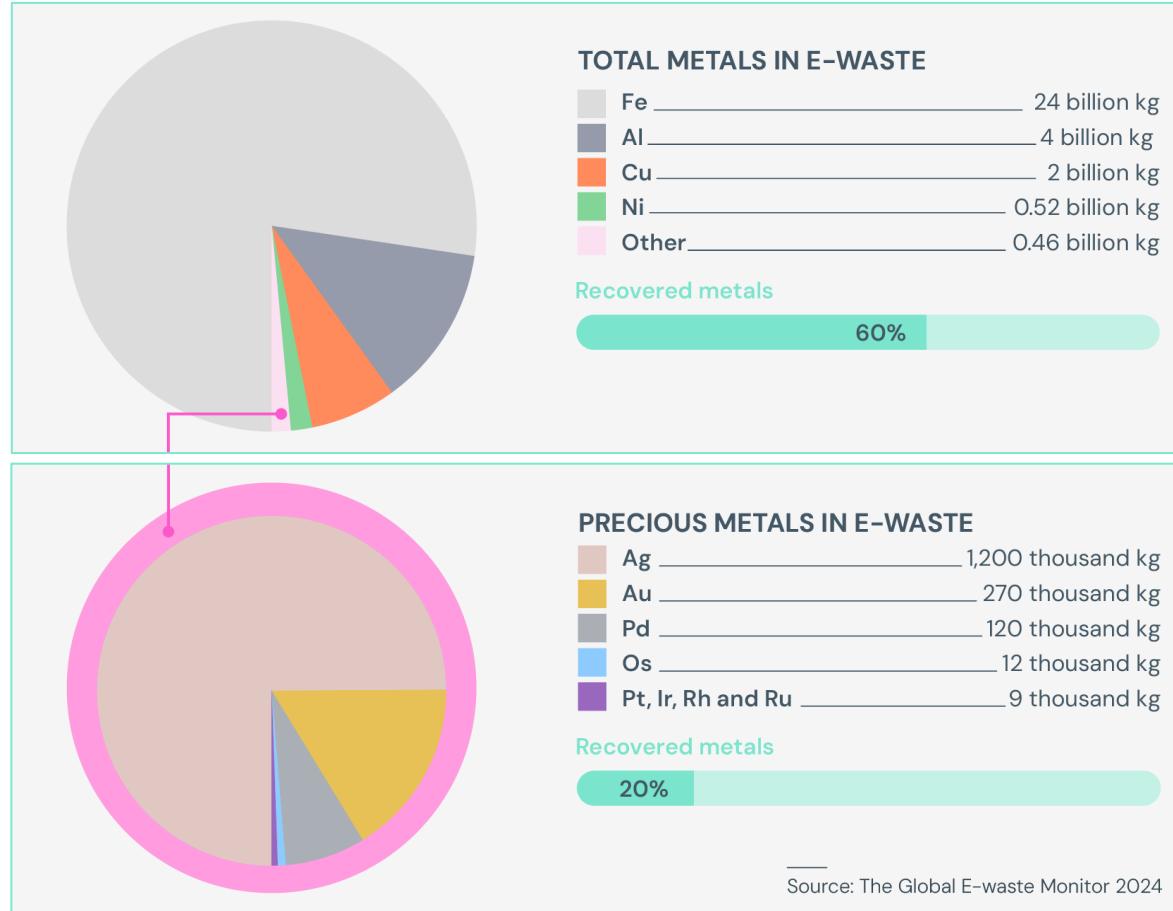

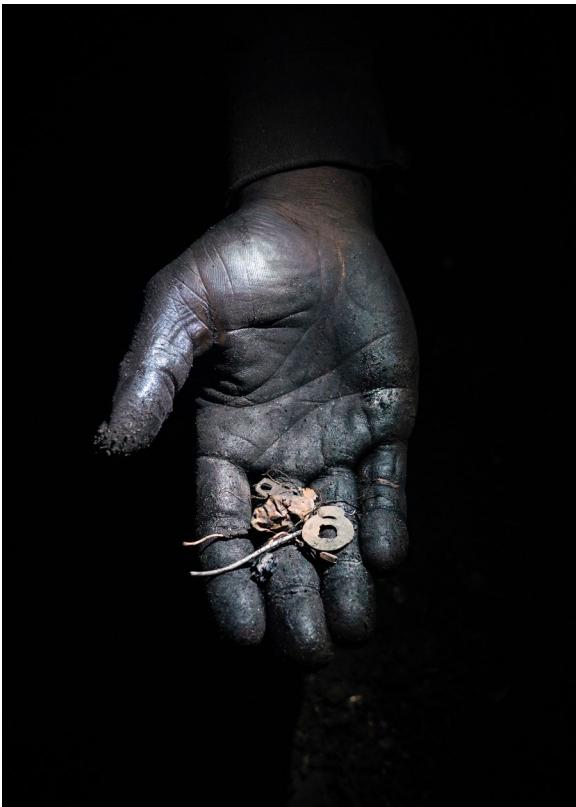

Mundaka Chasant for Fondation Carmignac
