

Kunming-Montreal
GLOBAL BIODIVERSITY FRAMEWORK

COP16
COLOMBIA
Paz con la Naturaleza

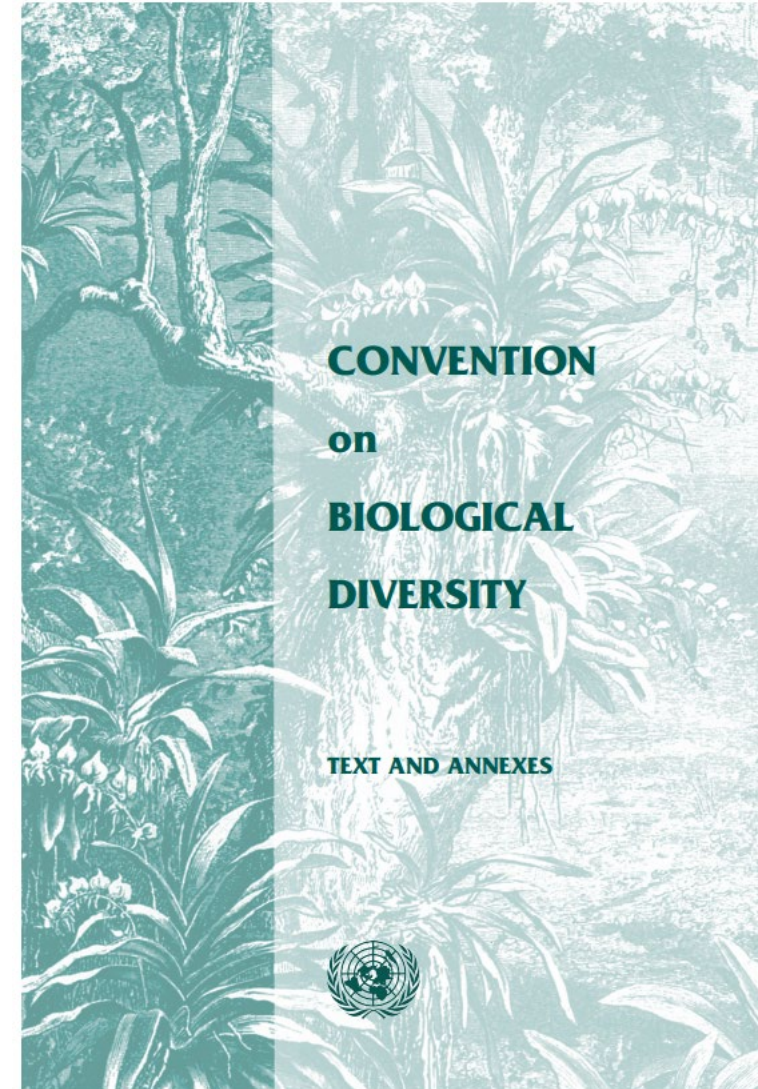

Twelfth Meeting of the Expert Group on Environment and Climate Change Statistics

Secretariat of the Convention on Biological Diversity
23-25 September 2025

Mandate

Article 26 of the Convention:

Each Contracting Party shall, at intervals to be determined by the Conference of the Parties, present to the Conference of the Parties, reports on measures which it has taken for the implementation of the provisions of this Convention and their effectiveness in meeting the objectives of this Convention.

Kunming - Montreal

GLOBAL BIODIVERSITY FRAMEWORK

Background

Decision 15/6:

- To submit 7NR on 28 Feb 2026 and 8NR on 30 June 2029

Decision 16/31:

- Endorses technical updates of headline and binary indicators in the monitoring framework.

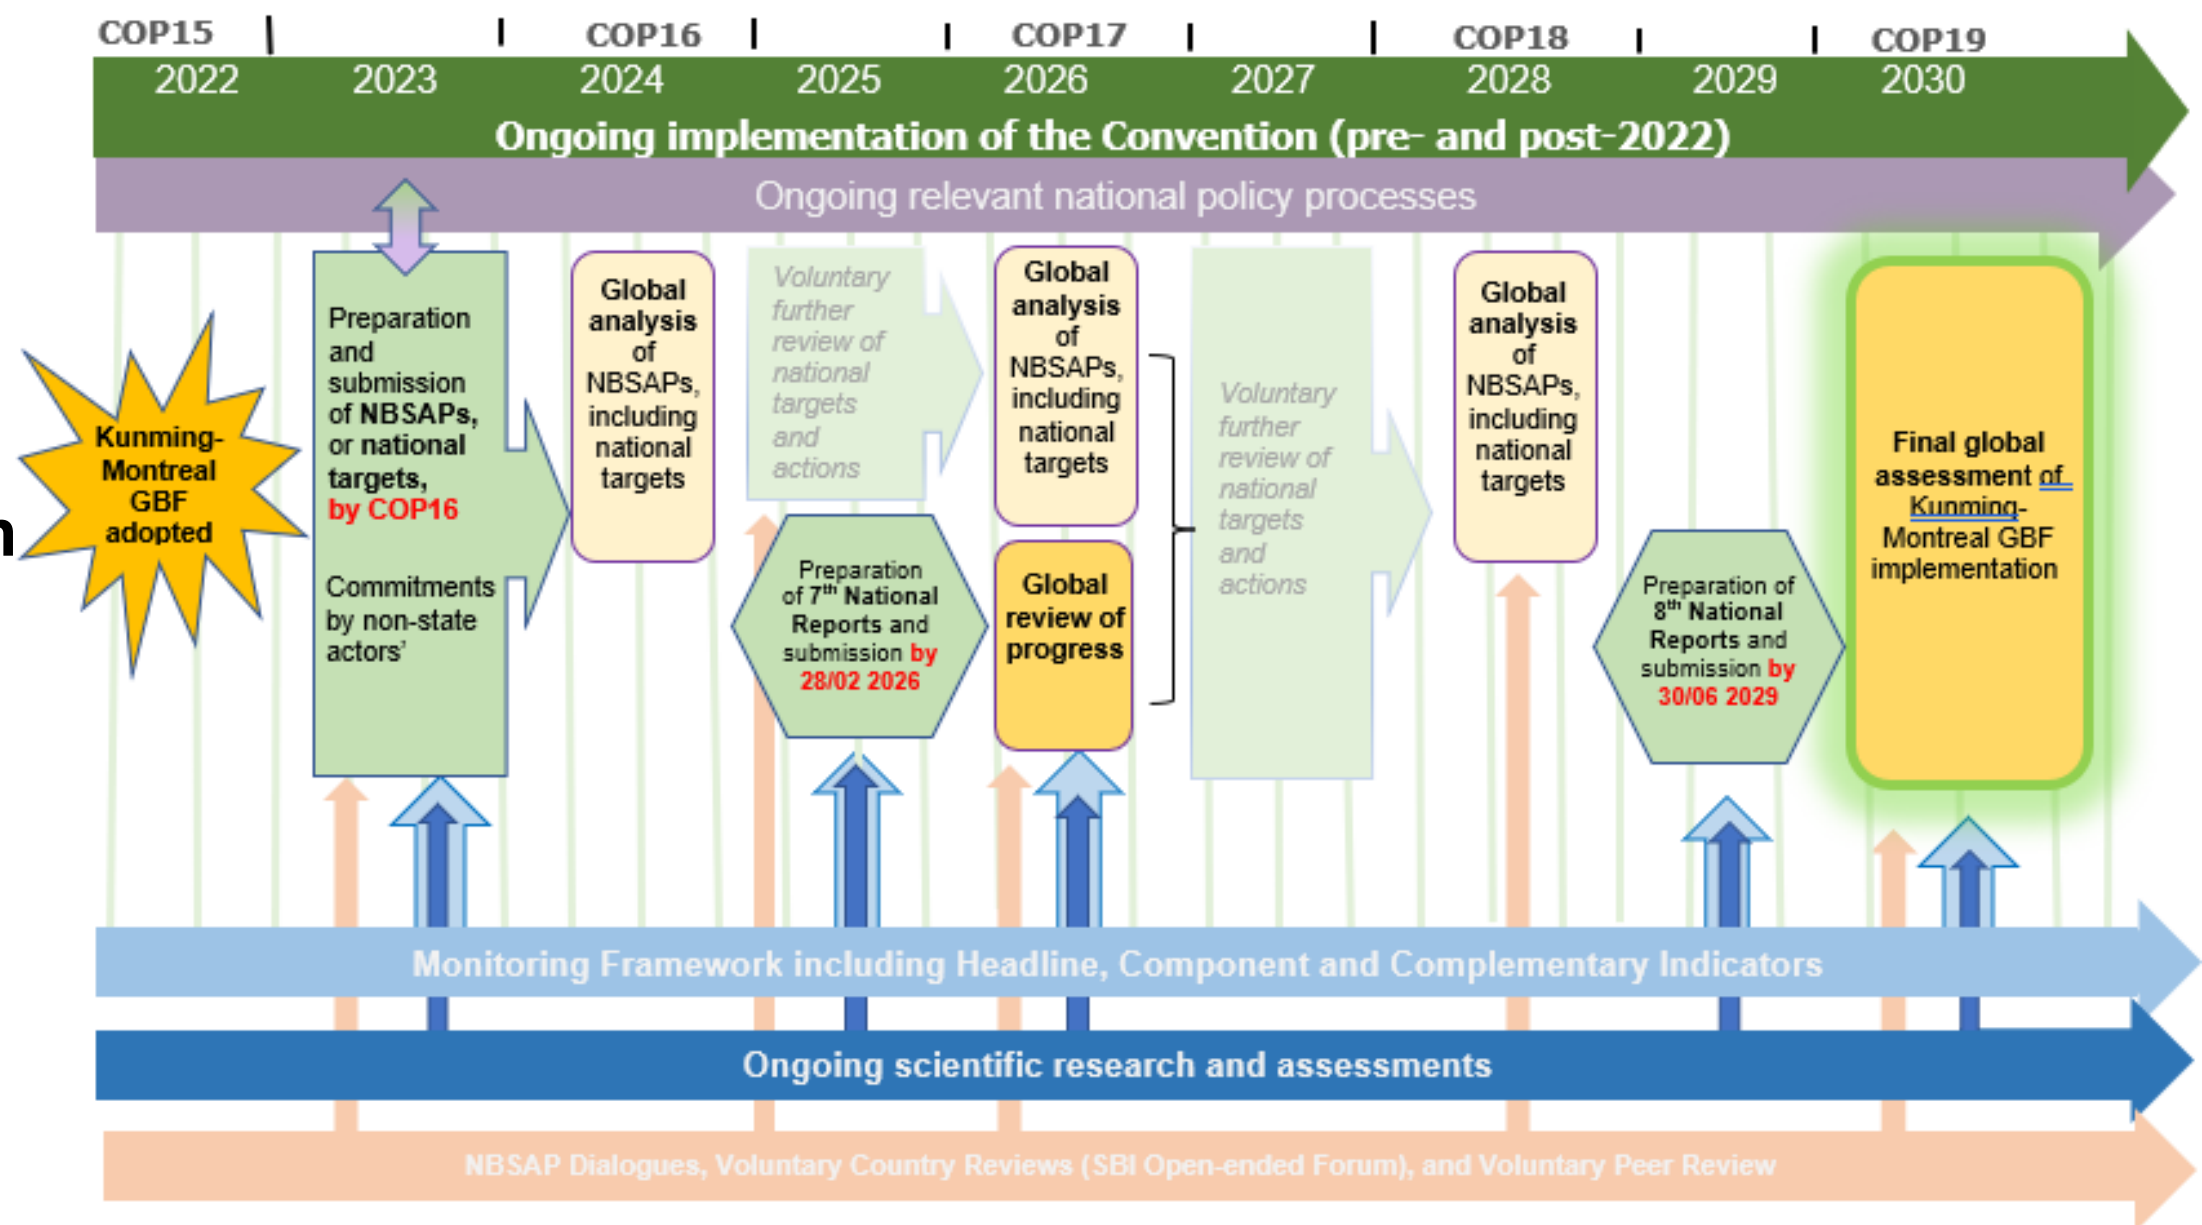

Decision 16/32:

- Endorses the revisions to the reporting template for the 7NR and 8NR as contained in annex I.
- Adopts procedures for the global review at COP 17 and COP 19, with NR identified as a primary source of information for the global report and the global review

Background

**Decision
16/32**

Background

What will the national reports be used for:

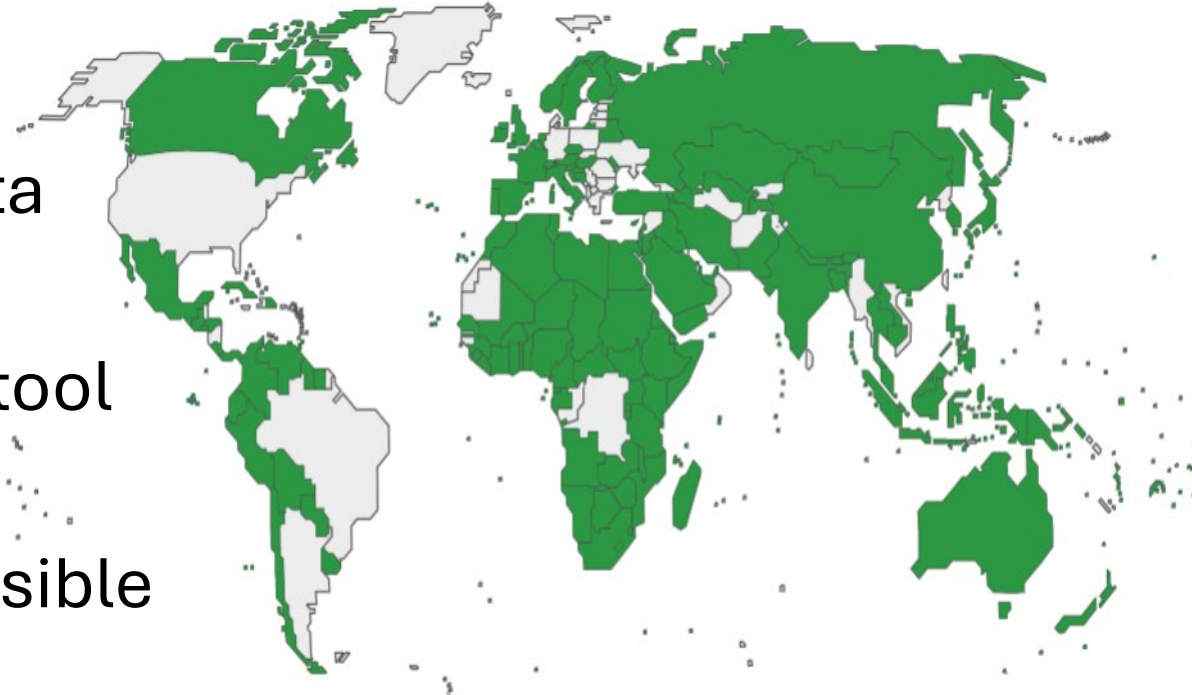

- Assess progress in the implementation of the Kunming-Montreal Global Biodiversity Framework
- Primary source for the global report to support the global review
- Primary source of information for the global review to be undertaken at COP 17 and COP 19

National report structure

- Reporting is based around national targets
- Submission of indicator data
- Use of the online reporting tool
- A mix of questions with possible answers and free text

National report structure

Indicators:

28 Headline indicators

16 Binary indicators

Required for national reporting

National indicators

54 Component indicators

120 Complementary indicators

Optional for national reporting

Monitoring framework

Online reporting tool:

Headline indicator: A.2 Extent of natural ecosystems (GBF-INDICATOR-A.2)

⚠️ Your country has not submitted any data for this Indicator.

Add data

Headline indicator: A.3 Red List Index (GBF-INDICATOR-A.3)

⚠️ Your country has not submitted any data for this Indicator.

Add data

Data

Source of Data *

- Use national data set
- Use the available data (pre-populated data)
- No data available
- Not relevant

Monitoring framework

For each headline indicator:

Monitoring framework

For each binary indicator:

Binary indicator questions

Target 6: Eliminate, minimize, reduce and/or mitigate the impacts of invasive alien species on biodiversity and ecosystem services by identifying and managing pathways of the introduction of alien species, preventing the introduction and establishment of priority invasive alien species, reducing the rates of introduction and establishment of other known or potential invasive alien species by at least 50 per cent by 2030, and eradicating or controlling invasive alien species, especially in priority sites, such as islands.

Indicator: Number of countries adopting relevant regulations, processes and measures to reduce the impact of invasive alien species.

6.1 Does your country have regulations and processes empowering relevant institutions to implement the measures necessary for a reduction in the introduction and impact of invasive alien species?	(a) No (b) Under development (c) Partially (d) Fully
6.2 Does your country have measures in place for preventing the introduction and establishment of invasive alien species?	(a) No (b) Under development (c) Partially (d) Fully
6.3 Does your country have measures in place for eradicating or controlling invasive alien species?	(a) No (b) Under development (c) Partially (d) Fully

Thank You
