

**10th Meeting of the IAEG-GS
(23 October 2016, in Helsinki, Finland)
Outcome**

Pietiläinen Marjut
Chair of the Inter-agency and Expert Group on Gender Statistics
(IAEG-GS)

Inter-agency and Expert Group on Gender Statistics (IAEG-GS)

- Established in 2006 with the purpose of providing guidance and ensuring the coordination at the global level for the advancement of the Global Gender Statistics Programme (GGSP).

Main tasks include:

- Taking stock, reviewing progress, challenges and emerging needs, and proposing actions to advance gender statistics at the international, regional and national levels.

The key task:

- Coordination of activities/programmes to reduce overburdening statistical offices, maximize synergies and resources for the advancement of gender statistics.

Inter-agency and Expert Group on Gender Statistics (IAEG-GS)

- was mandated by the UN Statistical Commission to (key tasks):
 - Serve as the coordination mechanism for the Global Programme on Gender Statistics
 - Provide guidance for the development of manuals and methodological guidelines for the production and use of gender statistics
 - Review gender statistics with the aim of establishing a minimum set of gender indicators.

2017 – Agreed Activities

- **Standards and Guidelines**
 - Finalization of ICATUS (UNSD)
 - Power and decision-making in the household (UNECE)
 - Measuring and monitoring the nexus between gender and the environment (UNEP, UNSD, Reg. Com.)
 - Provide inputs to the methodology of indicators 5.6.1 and 5.6.2

2017 – Agreed Activities

- **Minimum Set of Gender Indicators and SDGs**
 - Establishment of the Advisory Group on Gender Indicators (identify gender-relevant SDG indicators; propose modifications in the Minimum Set of Gender Indicators to align the Set with the SDG framework)
 - Report on country challenges to compile SDGs

Thank you!
