

# **Gender Pay Gap (GPG) measures and the political debate in Switzerland**

**Katja Branger**

**Swiss Federal Statistical Office FSO**

## **Abstract:**

The Federal Statistical Office of Switzerland started measuring the GPG two decades ago. The presentation will show the results of unadjusted and adjusted gender pay gap illustrating a slowly decreasing GPG over time. Furthermore it will highlight the political debate in the last few years pointing out the measures undertaken and the discussion about the methods to calculate the adjusted GPG.
