INTRODUCTION

Better Statistics are needed for Better Development Outcomes

Specifically, Better Evidence and Data for Gender Equality.

In the Philippines,

The Philippine Statistical System (PSS) has institutionalized many initiatives towards improving the generation, dissemination and utilization of gender statistics in support of gender-responsive development.

ON MAKING GENDER STATISTICS MEANINGFUL ON THE GROUND

1. Using gender/MDG statistics to raise public awareness of governance issues

2. Using/citing gender statistics in enacted laws/proposed bills
II. Challengers and Opportunities

- Lack of resources allocated for gender statistics!
- There is very strong culture of collaboration/cooperation between the statistical agencies and the Philippine Commission on Women
- Stakeholders of gender and development have become more appreciative of statistics
- Continued engagement with/of the international community
Thank you!
