Evidence Based Protection for Women and Girls

Division of International Protection
UNHCR
Geneva, Switzerland
March 2012

Luisa Cremonese

Background

- **UNHCR and Protection:** engaging with refugees and displaced persons for a life free of violence, for earning a living in dignity, for the right to education, health, adequate shelter, etc.
- **Age, Gender and Diversity Mainstreaming:** promoting the respect and the right to be different

Evidence Based Protection for Women and Girls

- Transition to Results Based Management
 - ❖ results oriented,
 - ❖ evidence based.
- Changes in indicators and reporting methodologies.

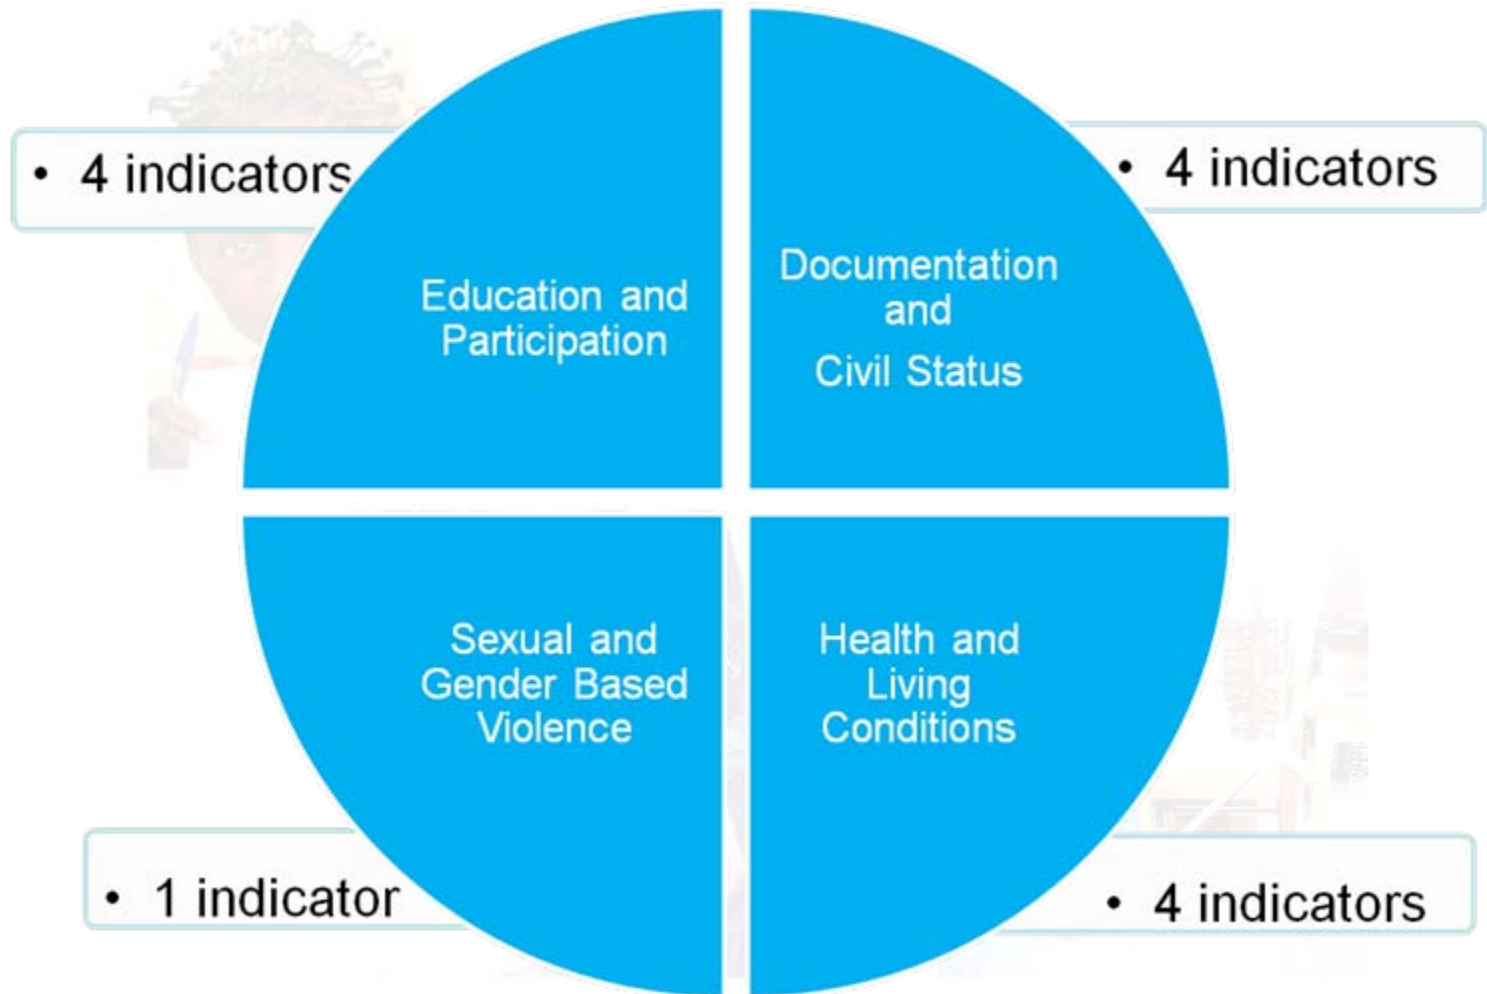

The Regional Dialogues

- 5 regions,
- Over 1,000 women and girls,
- Problems, solutions, hopes and dreams.

Defined areas of protection
Identified a set of relevant indicators

Areas of Protection

Indicators

I. Education and participation:

1. % of active female participants in leadership/management structures – **female specific**
2. % of out of school adolescents who participate in targeted programs – **sex disaggregation**
3. % of persons of concern aged 6-13 enrolled in primary education – **sex disaggregation**
4. % of persons of concern aged 14-17 enrolled in secondary education – **sex disaggregation**

II. Documentation and civil status:

5. % of children under 12 months old who have been issued birth certificates by the authorities - **sex disaggregation**
6. % of PoC registered on an individual basis – **sex disaggregation**
7. % of UASC for whom a best interest process has been initiated or completed – **sex disaggregation**
8. # of known cases of refoulement – **sex disaggregation**

III. Health and living conditions:

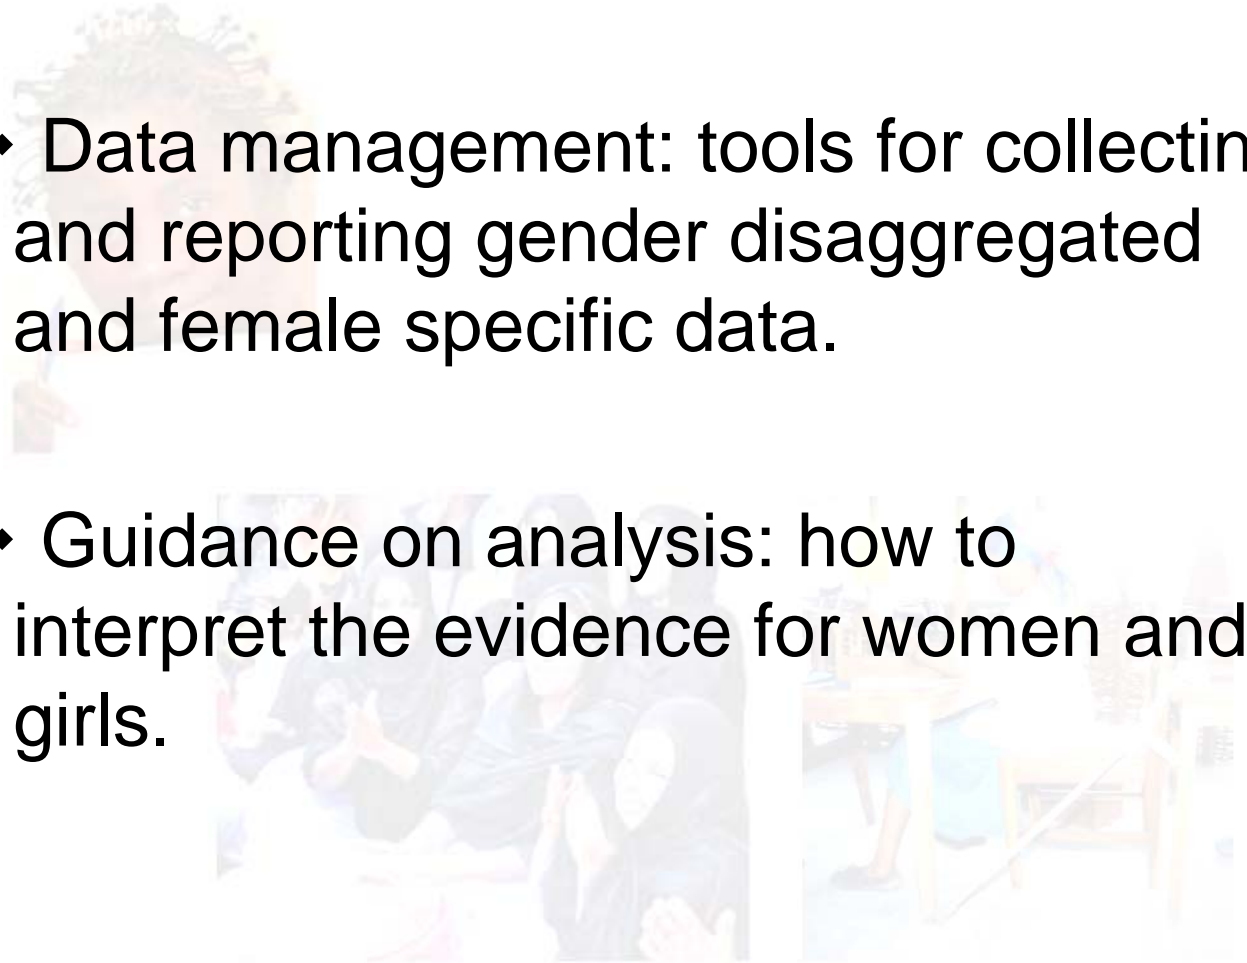

9. Maternal mortality ratio – **female specific**
- 10.% of women with sanitary supplies – **female specific**
11. Under-5 mortality rate – **sex disaggregation**
- 12.% of female-headed households living in adequate dwellings – **female specific**

IV. Sexual and gender based violence:

- 13.# of reported incidents of SGBV per year – **sex disaggregation**

Deliverables

- ❖ Data management: tools for collecting and reporting gender disaggregated and female specific data.
- ❖ Guidance on analysis: how to interpret the evidence for women and girls.

Thank You
