

**Group of Experts on  
Geographical Names**

**Eleventh Session  
Geneva, 15-23 October 1984**

**WORKING PAPER**

**No. 52.**

---

Item No. 6(f) of the agenda

DEFINITIONS

Report by the Chairman

(submitted by Mr. H.A.G. Lewis)

The consolidation of the three separate language versions (English, French and Spanish) of the list of definitions of terms used in the standardization of geographical names led to the inclusion of Russian, Chinese and Arabic versions of those same terms.

The accomplishment of the publication of this most useful document in its present multi-lingual form is a considerable achievement. On behalf of all the Group of Experts thanks are expressed to the Director of the Translation Division at United Nations Headquarters, Mrs. Cestac, and to the Secretary of the Group, Mr. de Henseler, for the final issue of this document.

Of course, there will be revision and additions from time to time which will add to the usefulness of the present work.
