Paper submitted by the Government of the
Czechoslovak Socialist Republic

LON.72-131

Czechoslovak Socialist Republic

**Compilation of a List of Geographical Names
from the Zone along the Danube**

**(The viewpoint of the Czechoslovak delegation
to the suggest of the Bulgarian delegation)**

Praha - London 1972

Compilation of a List of Geographical Names from the Zone
along the Danube

(To the suggest of the Bulgarian delegation)

At the Conference of the 7th and 8th Regional Groups (held on October, 4th to 6th, 1971 in Prague), attended also by the representatives of the German Democratic Republic, the People's Republic of Bulgaria suggested to collect geographical names from the zone along the Danube.

All countries from this area will participate in this work. On behalf of Czechoslovakia it will be the Slovak Commission on Terminology of the Slovak Board of Geodesy and Cartography that will cooperate.

The list will be made within the contents of the map at the scale of 1:50,000, and will cover the zone of adequate width along the river.

Having collected all basic materials, Bulgaria will make a multilingual list of geographical names for navigational charts as well as other maps.

Viewpoint:

The Czechoslovak delegation giving full support to the suggestion as submitted by the Bulgarian delegation considering this another proof of the efforts for extensive international cooperation in the sphere of the standardization of geographical terminology, and is in full favour of recommending the said suggestion for implementation.
