- (c) To study and propose principles, policies and methods suitable for resolving problems of national and international standardization;

* GEGN/30/1.

¹ Previously adopted by the Group of Experts at its sixteenth session, endorsed by the Sixth United Nations Conference on the Standardization of Geographical Names (E/1993/21) and approved by the Economic and Social Council in its decision 1993/36. The list of linguistic/geographical divisions provided in the annex to the statute was amended by the Group of Experts at its twenty-fourth session, in 2007 and at its twenty-seventh session, in 2012.

(e) To play an active role by facilitating the supply of scientific and technical help, in particular to developing countries, in creating mechanisms for the national and international standardization of geographical names;

(f) To provide a vehicle for liaison and coordination among Member States and between Member States and international organizations on work associated with the standardization of geographical names;

(g) To implement the tasks assigned as a result of the resolutions adopted at United Nations Conferences on the Standardization of Geographical Names.

II. Principles

1. The Group of Experts shall act as a collegiate, consultative body; accordingly, agreement on non-procedural matters shall be reached by consensus and not by voting.

2. The decisions of the Group of Experts shall be submitted as recommendations to the United Nations Conferences on the Standardization of Geographical Names, and, if approved, shall be submitted to the Economic and Social Council for final endorsement, with the request that Member States give them the broadest possible publicity and exposure through appropriate means and channels, such as professional organizations, research and scientific institutions and institutions of higher learning. The decisions of the Group shall be of a recommendatory character.

3. Questions involving national sovereignty shall not be discussed by the Group of Experts.

4. The Group of Experts in its activities shall adhere to the principles of the Charter of the United Nations and to the following provisions:

(a) The standardization of geographical names must be based on the achievements of science in relation to both language treatment and the technical means of processing and generating toponymic data;

(b) International standardization of geographical names must be carried out on the basis of national standardization;

(c) In the standardization of geographical names, attention must be paid to the inherited geographical names and their significance in the preservation of local, regional and national heritage and identity.

III. Functions

The functions of the Group of Experts are:

(a) To develop procedures and establish mechanisms for standardization in response to national requirements and particular requests;

(b) To undertake preparatory work for the periodic United Nations Conferences on the Standardization of Geographical Names, to provide continuity for activities between Conferences and to provide leadership in the implementation of resolutions adopted at the Conferences;

(c) To encourage the discussion and study of practical and theoretical steps directed towards standardization;

(d) To coordinate the activities of linguistic/geographical divisions formed to further the work at the national level, to encourage the active participation of countries and divisions and to promote a degree of uniformity in the work undertaken;

(e) To create any necessary structure, to supplement the work of divisions and to deal with issues beyond the scope of a division;

(f) To develop appropriate programmes to assist with training in individual countries and groups of countries so as to achieve standardization where it is lacking;

(g) To make mapping organizations aware of the importance of using standardized geographical names;

(h) To increase the awareness of and respect for different languages, nations and cultures in an equal manner by promoting the use of geographical names that have been standardized on a national basis and that therefore respect local, regional and national heritage and identity;

(i) To maintain liaison with international organizations dealing with related subjects and to encourage divisions within the Group of Experts to participate in the United Nations regional or other cartographic conferences;

(j) To work at the highest possible national, international and United Nations levels to interrelate toponymy and cartography;

5. Each division, if composed of more than one sovereign State, shall select, by methods of its own choosing, an expert to represent the division (Division Chair) as a whole at the meetings of the Group of Experts.

8. The divisional representative shall be responsible for ensuring that the work of the Group of Experts and its potential for technical assistance are brought to the attention of the individual countries in his or her division and for reporting to the United Nations any special problems in the division.

9. To discuss technical and procedural matters, a division may organize regional meetings during United Nations Conferences on the Standardization of Geographical Names and meetings of the Group of Experts, or at any other appropriate time.

Rule 18

During the discussion of any matter, a member may move the adjournment of the debate on the item under discussion. Any such motion shall have priority. Rule 28

Those parts of the proposals that have been approved shall then be put to the vote as a whole; if all the operative parts of the proposals have been rejected, the proposal shall be considered rejected as a whole.

Order of voting on amendments

Rule 29

When an amendment to a proposal is moved, the amendment shall be voted on first. When two or more amendments to a proposal are moved, the Group of Experts shall vote first on the amendment furthest removed in substance from the original proposal and then on the amendment next furthest removed therefrom, and so on, until all the amendments have been put to the vote. When however, the adoption of one amendment necessarily implies the rejection of another amendment, the latter amendment shall not be put to the vote. If one or more amendments are adopted, the amended proposal shall then be voted upon. A proposal is considered an amendment to another proposal if it merely adds to, deletes from or revises part of that proposal.

1. If two or more proposals relate to the same question, they shall, unless the Group of Experts decides otherwise, be voted on in the order in which they are submitted. The Group may, after each vote on a proposal, decide whether to vote on the next proposal.
2. Revised proposals shall be voted on in the order in which the original proposals were submitted, unless the revision substantially departs from the original

proposal. In that case, the original proposal shall be considered as withdrawn and the revised proposal shall be treated as a new proposal.

3. A motion requiring that no decision be taken on a proposal shall have priority over that proposal.

1. When one or more elective places are to be filled at one time under the same conditions, each member may cast a vote for as many candidates as there are places to be filled, and those candidates, in a number not exceeding the number of such places, obtaining in the first ballot a majority of the votes cast and the largest number of votes, shall be elected.

2. If the number of candidates so elected is less than the number of places to be filled, additional ballots shall be held to fill the remaining places. From such ballots the candidates obtaining the least number of votes in the previous ballot may be eliminated on the proposal of the Chair.
