\* E/CONF.79/1.

\*\* Prepared by Gabriel Ramírez Núñez, Specialist, State Committee on  
Statistics.

SUMMARY

A synthesis is given of the methods used in drawing up the list of standardized geographical names of populated places in Cuba having post offices. This task was entrusted to the National Committee on Geographical Names by the National Assembly of People's Power of the Republic of Cuba, as part of the preparations being made for the introduction of postal coding. Annexed to the paper is the list made of standardized geographical names, which also includes those standardized by Act 1304 on politico-administrative division.
