Item 7 of the provisional agenda*

TERMINOLOGY IN THE STANDARDIZATION OF GEOGRAPHICAL NAMES

Proposed German translation of the technical terminology
employed in the standardization of geographical names**

Paper submitted by Austria***

Since German has acquired the status of a language of documentation within the United Nations, a German translation of the technical terminology employed in the standardization of geographical names of 1986 had become necessary. The alphabetical sequence is fixed in accordance with the German headwords, which are followed by the English terms in order to safeguard authenticity as well as comparability with the original.
