
Sixth Session
New York, 5-26 March 1975

Item 6 c) of the
provisional agenda

Extraterrestrial topographic features

Submitted by Hungary

At the 1975 meeting of the East Central and South East Europe - Soviet Union Divisions, the Chairman of the Working Group for extraterrestrial features, Prof. Koskov gave information on this matter. The participants agreed to prepare suggestions for a common system of naming extraterrestrial topographic features. It was also agreed that each participant should compile a list of prominent persons on the field of science and culture, for the use in naming extraterrestrial features.
