

Sixth Session

New York, 5-26 March, 1975

Item 6 a/ of the
provisional agenda

Definitions of terms used in
geographical names' standardi-
zation

Submitted by Hungary

The 1975 meeting of the East Central and South East Europe Soviet Union Divisions, discussed the definitions of terms used in geographical names' standardization. All delegations received the list of English, French, and Spanish terms with definitions. Neither the quantity of terms, nor the definitions received any comments. The participants of the meeting asked the Soviet delegate to submit the terms and definitions in Russian language as soon as possible.

The Brno Geographic Institute of the Czechoslovak Academy of Sciences has prepared a combined list of the English, French and Spanish terms with their definition, as a basis for giving the equivalents in Czech and Slovak language. A few copies of this combined list are distributed at the present session.
