Eighth Session of the United Nations

Group of Experts on Geographical Names

New York, 5 - 16 March 1979

Concerning item 11 of the provisional agenda

Names of the capitals of states

Prepared by the Surveying and Mapping Administration of the
Ministry of the Interior of the German Democratic Republic

Introduction

In the framework of the activities for the national standardization of geographical names in the German Democratic Republic, regulations were adopted concerning the short form in common use in German (including abbreviation), the official complete form of the spelling of names of independent states and the spelling of the names of their capitals or seats of administration. These names are included in the following list. The diagonal between two names separates similar forms of names of different languages, e. g. Helsinki/Helsingfors. Due to the lack of space, the second name may be omitted in cartographic products.

Another possible form of name is indicated in parenthesis which may be given in case of sufficient space, e.g. Beograd (Belgrad), or may be used, however, as the only form in special products.
