**Ninth United Nations Conference on the
Standardization of Geographical Names**

New York, 21 to 30 August 2007

Item 14 of the provisional agenda*

Terminology in the standardization of geographical names

**Common use of generic terms and their abbreviations
in topographic maps**

Submitted by Indonesia**

* E/CONF.98/1

** Prepared by the Secretariat of National Team for Standardization of Geographical Names, Indonesia

Common use of generic terms and their abbreviations in topographic maps

Some features as listed below will be spoken in different languages. Generic terms in common use nationally, among others hill, lake, mount, village, city, kuala, island, swamp, river, cape and bay. Those are originally from local languages and used in topographic maps (see table below). Unfortunately, there are some institution using un-uniformity those generic terms.

Local generic terms are identified for defining the same features. This condition depend on regional ethnic language and culture.

Strategic Issues

a. Short term:

The use of generic terms which have been identified will be standardized and it is expected that user to adhere in using standardized local generic terms.

b. Long term :

Identification of local terms which have not been identified yet will be registered. Local generic terms have been noted in more than 700 local languages.

Generic Terms in national and local languages, and it abbreviations

(Based on document No.23/1994, ISSN.0126-4982, Working Group on Compiling of Guidelines in Implementing Standardization of Geographical Names and Exonyms)
