

## 3. GRAPHIC VARIABLES OF TEXT - 3C) PLASTICITY

&lt;previous - next&gt;

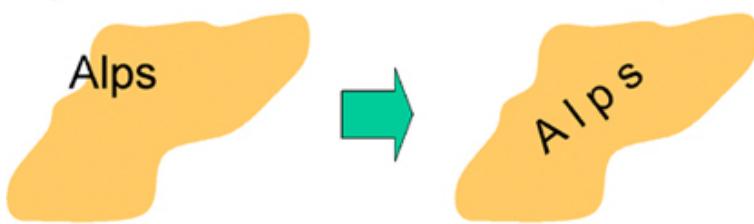

Use plasticity (let the text curve along the geographical object):

- to support the association between name and object
- to avoid confusion with other names
- for efficient use of space

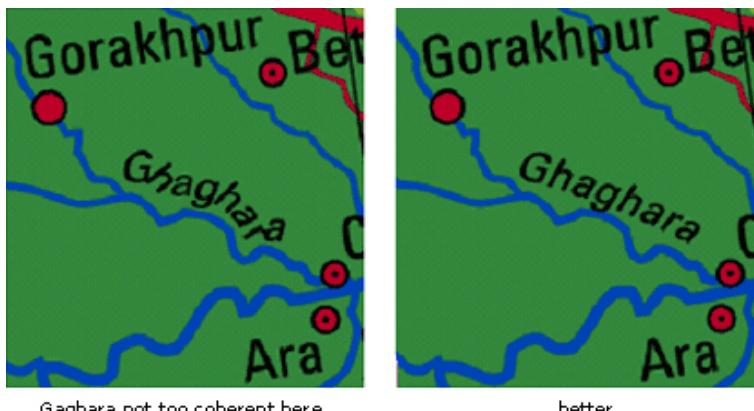

and:

- take care of unwanted associations - e.g. border-crossing areas, take care that the complete geographical object is named

[3.Graphic variables \(a/b/c/d/e\)](#)  
 |  
[4.Esthetics and legibility \(a/b/c/d/e\)](#)

- guard coherence (the dispersed letters should still form one name)
- maintain esthetic appearance (smoothen curved names following rivers)
