

TABLE OF CONTENTS

[<previous - next>](#)

This chapter is mainly based on the paper "Script Transformation Systems" by Päll (2003). See also the "[documents](#)" section.

Structure of this chapter:

- [Introduction](#)
- [Chapter 1: A **solution**](#)
- [Chapter 2: Terminology](#)
- [Chapter 3: UN-approved systems](#)
- [Chapter 4: Typology of conversion types and examples](#)

When reading through the following pages, you will come across some unusual terms. These terms are hyperlinked to the UNGEGN [Glossary of Terminology \(pdf\)](#). Behind each term a number (#) is given that corresponds to the numbering applied in this glossary, e.g. [toponymy](#) (#344).

For exercises and documents (and literature) on this topic see respectively the "[Exercises](#)" and/or the "[Documents](#)" section of this module.

The complete module can be downloaded [here](#).
