

## GENDER MAINSTREAMING - TEMPLATE FOR NATIONAL EXAMPLES

The objective of this template is to facilitate the compilation of national and regional examples of relevant cases of mainstreaming a gender perspective into business/trade statistics and environment/climate change statistics to support the implementation of Statistical Commission decision 51/115 (b) regarding a gender perspective being adopted and integrated into all the agenda items of the Commission. This collected examples will help to illustrate the relevance of gender mainstreaming into these two thematic areas and the applicability to countries.

1. Does your country have experience mainstreaming/integrating a gender perspective in the production<sup>1</sup> of environment and climate change statistics in order to highlight the effects of the environment and climate change on gender equality and women's empowerment?

Yes  No

2. Does your country have experience mainstreaming/integrating a gender perspective in the production<sup>1</sup> of business and trade statistics in order to highlight the effects of business and trade on gender equality and women's empowerment?

Yes  (Go to question 3) No

3. Provide a short description of the activity/activities undertaken and provide information on (a) who is involved in the activity (e.g., gender statistics experts, environment/climate change experts, business/trade statistics experts); (b) whether the experts represent the NSO or other agency); and (c) whether there is an established mechanism for collaboration;

Topic	Stages of statistical production				Please attach copy/copies of relevant documents, and/or provide link(s) to relevant website
	Specification of user needs for data	Data collection and data linkage	Analyses	Dissemination and communication	
a. Environment statistics	Policies & research & planning & SDGs	Surveys & administrative records <u>(through Official letters there is no sharing information system</u>	Not available	Not available	According to the methodology of the environment survey in the economic sectors (industrial / hotels / education / hospitals / government municipalities) there is a question about sex in the section <b>Fifthly: Number and Compensation of Employees Working in Environment Protection</b> (questionnaire is

<sup>1</sup> "Production", in this case refers to the different phases of the statistical production process as presented in the table.

		<u>between stockholders)</u>			attached in English), but data is not published by sex due to the lack of an international classification for green job
b. Climate change statistics	Policies & research & planning & SDGs	Surveys& administrative records	Report	Gender Environment statistics in Jordan	The report is attached
c. Business statistics	Policies & research & planning & SDGs	Surveys& censuses administrative records	Analytical paper	-It was posted on the website UNWOMEN -Hard copy printing in both Arabic and English	<a href="https://jordan.unwomen.org/en/digital-library/publications/2021/wc-the-reality-of-economic-establishments-from-a-gender-perspective">https://jordan.unwomen.org/en/digital-library/publications/2021/wc-the-reality-of-economic-establishments-from-a-gender-perspective</a>
d. Trade statistics	Policies & research & planning & SDGs	Surveys& censuses administrative records	Not available	Not available	According to the trade establishments survey methodology, there is only one question about the sex of employes in the third section of the questionnaire (the questionnaire is attached in Arabic), but the data for this question is not analyzed except upon request by the data users.

4. Indicate the source(s) of data for analysis(es) for mainstreaming gender into environment/climate change and into business/trade statistics in your country (provide copy/copies of relevant documents or website(s))

Topic	Source(s) of data				
	Census	Survey	Administrative	Other (specify)	Indicate if, for analysis(es) (a) data from multiple sources is linked; (b) data modeling or other techniques are used
a. Environment statistics		Department of statistics/Environment	Administrative Records -		

		statistics Division	Department of Lands and Survey
