# Measuring the impact of the Covid-19 pandemic on women and men

Created by support.stat, last modified by Andres Vikat on 26 Jan, 2022

The Conference of European Statisticians (CES) Steering Group on Gender Statistics has developed practical guidance for data producers towards measuring the ongoing and longer-term gender impacts of the Covid-19 pandemic.

The Guidance proposes indicators and survey questions and offers advice on the key methodological considerations for data collection, dissemination in four areas: paid and unpaid work, health, violence against women, and the digital gender divide.

## UNECE Repository and Networking Platform on Gender Identity Home

Created by support.stat, last modified by Kristen Jeffers on 12 Oct, 2021

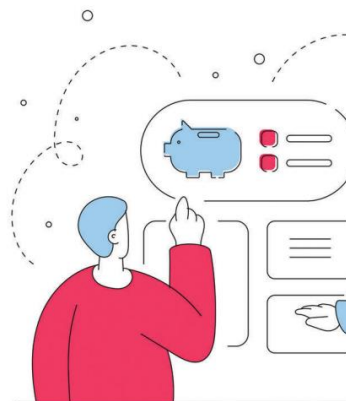

### UNECE Repository on the Measurement of Gender Identity

The repository was prepared by UNECE with support by the UNECE Task Team on Measuring Gender Identity. Information in the repository was collected by the Task Team and/or provided by National Statistical Offices to UNECE in a survey conducted in May 2021.

Thank you for visiting the UNECE Repository on the Measurement of Gender Identity. Access to the repository is available to all statistical organizations working in this area. To request access, please contact the [Secretariat](#).

### Guidance for Measuring Intra-household Power and Decision-making

UNECE

### Guidance on Communicating Gender Statistics

# Recent results

UNECE

### Guide on Valuing Unpaid Household Service Work

# Gender & Trade

- Project of the UN Development Account with UNCTAD (lead) and UNECA concluding this year
- Pilot studies in Georgia and Kazakhstan
- Assessment & inventory of data sources
- Microdata linking
- Session IVa Wednesday 10:30

# CES Census Recommendations for the 2030 Round

- Task Force to update the section on sex
- Definition of sex for the purposes of the census
- Recommendations for countries that are introducing gender or more than two response options for sex
- Testing, question wording, response categories
- Issues to consider for changes to census: policy need, public opinion, legal context, disclosure control and quality assurance

# Regional Workshop

Geneva, 9 May, with UN Women

## Gender & trade

- Data needs and tools
- Administrative data
- Surveys
- Linking
- Pilot studies:  
Georgia, Kazakhstan

## Violence against women

- National prevalence surveys
  - Scope
  - Comparability and context
  - Ethical issues
- Technology-facilitated violence

# UNECE Group of Experts on Gender Statistics

Topics of the meeting in Geneva, 10-12 May

- Gender pay gap and income inequality
- Measuring violence against women
- New approaches to measuring unpaid work and work-life balance
- Gender digital divide
- Gender, climate and the environment
- Measuring sex and gender
- New data sources and emerging issues
- Gender and trade

- Gender stereotypes and gender discrimination
  - Collect information on current national practices
  - Develop a plan for methodological work
- Technology-facilitated violence against women
  - Collection of national practice and expert inputs to support the development of global methodological guidance
