GENDER STATISTICS AT GEOSTAT

PRODUCTION OF GENDER STATISTICS AT GEOSTAT STARTED AT THE END OF 1990S

Statistiska centralbyrån
Statistics Sweden
BOOKLET “WOMEN AND MEN IN GEORGIA”

10 editions of “women and men” were published since 1999.

Every booklet, compared to the previous ones, is closer to the world statistical standards.

The booklet represents a simple, but an effective tool to attract attention towards gender data.
DEVELOPMENT OF GENDER STATISTICS

SINCE 2009 THE NEW LAW ON OFFICIAL STATISTICS OF GEORGIA

Development of gender statistics comprises the following aspects:

- Increasing the number of available gender-disaggregated indicators
- Improvement of data dissemination
- Strengthening dialogue with users
• Production of gender statistics has been very positively influenced by the active nationalization process of SDG indicators in the country.

• The UNECE’s minimum set of gender indicators showed that despite producing most of indicators, the gaps were mostly related to indicators derived from different surveys (VAW and time use).
## Georgia and Sustainable Development Goals

### Data ecosystem - Access to basic data

SURVEY ON VIOLENCE AGAINST WOMEN

NATIONAL SURVEY ON VIOLENCE AGAINST WOMEN IN GEORGIA, 2017

12% of women reported having experienced physical and/or sexual violence by an intimate partner, or sexual violence by a non-partner in their lifetime.

More than 1 in 4 women (27%) reported having experienced physical and/or sexual violence by an intimate partner, or sexual violence by a non-partner including during childhood, or sexual harassment in their lifetime.

“Any act of gender-based violence that results in or is likely to result in physical, sexual, or psychological harm or suffering to women, including threats of such acts, coercion or arbitrary deprivation of liberty, whether occurring in public or private life.”

United Nation’s General Assembly definition, 1993
Other completed and ongoing projects

- Multi Indicator Cluster survey (MICS)
- Survey of Asset Ownership, by gender
- Time use survey
Modern and effective system for data dissemination

Widely introduce of PC Axis
Detailed releases
Easy and user friendly tables
Video clips
Infographics
GIF Animations

Improve the use of gender statistics
New web page, android and IOS APP

WWW.GEOSTAT.GE

Android & IOS
The GEOSTAT’s website ([WWW.GEOSTAT.GE](http://WWW.GEOSTAT.GE)) includes a separate link on gender statistics. Since 2013, gender statistics data are also uploaded in the PC axis format.
Innovative data dissemination tools

1. Detailed releases
2. Infographics
3. Video clips and GIF animations
4. Improved design
5. New products and services
Challenges

- Quality of administrative data
- Lack of disaggregated administrative and survey data
- Not sufficient financial and human resources
- Not complete metadata document
Global Assessment of NSS

Goals of Global Assessment:

- Evaluation the level of conformity with European statistical standards
- Evaluation of technical and organizational potential of NSS
- Evaluation of conformity with European statistical legislation (GLOS)
- Assessment the country's administrative potential in statistics
- Provide recommendations for further development of NSS
- Introduction of internationally recognized best practices in the country
Assessment of Gender Statistics System
National Statistical Development Strategy (NSDS) of Georgia

NSDS 2020-2023
Alternative sources and non-traditional methods

Use more and more administrative data

Establish modern and comprehensive data collection system

Looking for alternative data sources and modern technologies
COOPERATION AND COMMUNICATION WITH USERS

ACTIVE COOPERATION WITH USERS, CONDUCT MEETINGS AND WORKSHOPS

Define the role and responsibilities of relevant institutions, involved in the system

Improve communication at different levels

Conduct dialogue with policymakers and the Government
Future Plans

- Review and discuss data gaps
- Prioritize non-produced indicators
- Strengthen national statistical capacities and data collection system
- Implementation of international standards and requirements
- Interagency cooperation (Continue active cooperation with administrative institutions and main stakeholders)
- International cooperation (Active cooperation with international organizations and experts)
- Working with data quality
- Assess and looking for new data sources
THANK YOU FOR YOUR ATTENTION!
