

Strengthening Capacity to Produce Gender Data (in the context of SDG monitoring)

UN Development Account Project 10th Tranche

United Nations Statistics Division
on behalf of DA10 Implementing Agencies

10th Tranche Development Account Programme on Statistics and Data

DA10 – Statistics and Data

Sep 2016 – Dec 2019
Dec 2020

10 UN entities /
US\$ 10 million + US\$ 1.4 million

7 areas, including “Gender Statistics and Indicators”

Component 4: Gender Statistics

UNSD (Lead), ECE (co-lead), ECA, ESCWA, ESCAP, ECLAC, UNODC, UNEP / around US\$ 1 million

Expected accomplishments:

EA1: Integrating a gender perspective into official statistics, better use of existing data, improved communication

EA2: Developing/refining methods to produce gender data (environment, VAW, TUS)

Implementation: Scope and Overview

Global

EA1: Better integration of gender perspective; use of existing data; communication

- 7** Meetings and Fora to review methodological developments; share best practices; address data gaps
- Fora and Expert Meetings

EA2: Developing/refining methods to produce gender data

- 7** Methodological work on VAW; TUS, Gender and Environment
- Expert consultations on VAW and TUS (5); on nexus between gender and the environment (2)

Regional

- 14** Training workshops on better use of existing data; better communication
- Better communication; data user-producer dialogue; gender policy-data integration (9)
 - Better integration of gender perspective in official statistics and use of existing data (5)

- 8** Training workshops on statistics and indicators to measure VAW and time use, in particular unpaid domestic and care work
- Regular meetings on producing VAW and TUS

National

- 19** Training workshops on users/producers dialogue and better use of gender data
- Better communication; data user-producer dialogue and gender statistical literacy (15)
 - Gender policy-data integration (4)

- 11** Technical assistance missions to support the production of statistics on VAW and time use
- National meetings, technical assistance missions on producing VAW, TUS, environment

Results

26 in-focus countries covered/beneficiaries:

Results

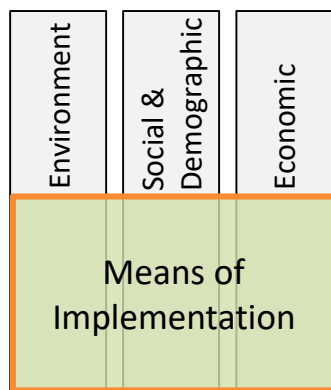

1,272 participants trained in the production, communication and use of gender statistics (67% women)

Overall better coordination among UN gender statistics implementing entities – **shared vision and joint development of work plan and coordinated implementation**

Partnerships established/strengthened – **UNEP** (new to gender data work); **ILO, WHO, UN Women** (critical in success of many activities); many donor countries (**Finland, Japan**)

DA10 Pillars

Improved integration of the gender perspective within the implementing entities' work programmes – **in addition to DA10's stand-alone gender statistics component**

Outputs

Gender and environment statistics (+inds)
UNEP, ESCAP
UNW, IUCN

Guidelines on the Production of Time-Use Statistics
UNSD
ECLAC

Collection of case studies on time-use data analysis
ESCAP

<https://www.un.org/development/desa/da/about-the-development-account/>

Gender Stats curriculum/e-learning
ESCWA

Toolkit for training data users; VAW
UNECE, ESCWA

Assessing contribution of VAW surveys vs. victimization surveys
UNODC

Improving admin data from the criminal justice system on gender-based homicides and other forms of VAW
