- > Ghana statistical service: National data achieve
- > Ghana open data initiative

# Outputs

## 3. Library of gender statistics: publications/online products created by IAEG-GS members

## Discussion and Q&A

- Outputs
- Would you like to repeat the IAEG-GS mapping exercise in the future?
- If yes, what additional/alternative question(s) would you like to see in the next iteration of our mapping exercise?  
e.g. spatial distribution of global/regional capacity building initiatives on gender statistics
