*Three IAEG-GS countries did not receive the exercise as they did not have a focal point at the time.
Aggregate results

1. IAEG-GS countries have room to learn from one another

IAEG-GS countries’ strengths*
*minus [gender] [statistics] and [data]

IAEG-GS countries’ challenges*
*minus [gender] [statistics] [data] and [challenge]
Aggregate results

2. Ice-breakers* for the lunch/coffee break and beyond

*based on the responses provided for the mapping exercise

TUS

UNSD, Finland, Morocco, South Africa, ECLAC, Japan

    - Health and related services
      ...
  - Assessments towards gender equality
    - WBG_2019_The Little Data Book on Gender
Discussion and Q&A

- Outputs

- Would you like to repeat the IAEG-GS mapping exercise in the future?

- If yes, what additional/alternative question(s) would you like to see in the next iteration of our mapping exercise?
  e.g. spatial distribution of global/regional capacity building initiatives on gender statistics
