Questionnaire on Statistical Legislation and Budget for Gender Statistics

Draft

Name:

Title:

Department or Unit:

Organization:

Country:

This short questionnaire aims to assess existing legislation to evaluate whether gender statistics or sex-disaggregated data are covered by such legislation.

1) In your country, is it compulsory by law to produce:

a) Gender statistics

_____ Yes

_____ No

b) Data disaggregated by sex

_____ Yes

_____ No

If yes, please indicate the legal articles/sections:

and indicate whether this legislation is at the national, regional or local level (please specify):

Please attach the text of the relevant articles or sections in the original language (please also provide a translation or summary in English)

2) In your country, are there other measures/mechanisms/conventions that:

a) Recommend the national statistical authority to produce gender statistics?

_____ Yes

_____ No

If yes, please describe:

b) Recommend the national statistical authority to produce data disaggregated by sex?

_____ Yes

_____ No

If yes, please describe:

3) Are there any specific legislations requiring the national statistical system to conduct:

a) Time Use Survey? _____ Yes _____ No

If yes, please specify:

b) Specific surveys (or including questions in larger surveys) on Violence against Women?

_____ Yes _____ No

If yes, please specify:

4) Is there a specific budget for collecting and disseminating gender statistics (eg. for conducting specific surveys or producing analytical reports addressing gender, ...)?

_____ Yes _____ No

If yes, what is the percentage of the total budget allocated to gender statistics?

5) During the last 5 years, have there been any budget cuts for the production of official statistics?

_____ Yes _____ No

If yes, have the budget cuts impacted the production and dissemination of gender statistics?

_____ Yes _____ No

If yes, what type of impact on gender statistics has been observed (eg: reduction of periodicity, cancellation of the survey that address gender concerns ...)?

6) If your country currently does not have any legislation or measure to make compulsory or promote the production of gender statistics, please comment on:

a) why there are not any legislation.

b) what would be necessary to bring about legislation or measures to produce gender statistics or sex-disaggregated data.

c) what should the legislation cover and how should it be enforced
