

## Recent activities related to Gender Statistics in Finland

Marjut Pietiläinen

### Gender Statistics

- Work is cross-statistical and the data are gathered from different statistics
- Ambition to show all individual-based statistical data by sex
- Expert group on gender equality statistics
- Network within Statistics Finland
- Collaboration within Statistics Finland and with different branches of administration
- Main collaborators: Council for Equality, Ombudsman for Equality, Equality Unit
- Other collaborators: women's organisations, researchers, and so on

### Gender Statistics

- In 1972 the Council for Equality asked Statistics Finland to compile gender-based data from different statistics
- Gender statistics are today part of Population Statistics
- At the moment they are compiled by three employees

### Gender Statistics publications

- Women and Men in Finland (every second year)
- Publication by theme (every second year)

## Women and Men in Finland

- Published every second year since 1999
- Contains statistical data on gender equality in Finland
- Intended to draw an overall picture of the position of women and men in different areas of society in Finland
- Based mainly on the data of Statistics Finland but other data sources have also been used
- Latest volume Women and Men in Finland 2009
- Women and Men in Finland 2011 will be published in early 2012

## Youth and gender publication

- Consist of 17 articles on young people (15–29) by gender
- Based on many sources in addition to Statistics Finland
- Authors from Statistics Finland and many other organisations

## Latest Gender Statistics publications by theme

- Youth and gender 2011 ("Nuori tasa-arvo", in Finnish only)
- Decision making 2009 ("Vallan tasa-arvoa", in Finnish only)
