Guidance on Measuring Impact of Covid-19 Pandemic

Support NSOs to generate data on gender-specific impact of Covid-19 pandemic on **work, health, violence against women, digital gender divide**

For each topic:

- Overview of topic: why important to measure in pandemic context?
- Proposed indicators
- Proposed survey questions
- Methodological notes and considerations
- Policy relevance

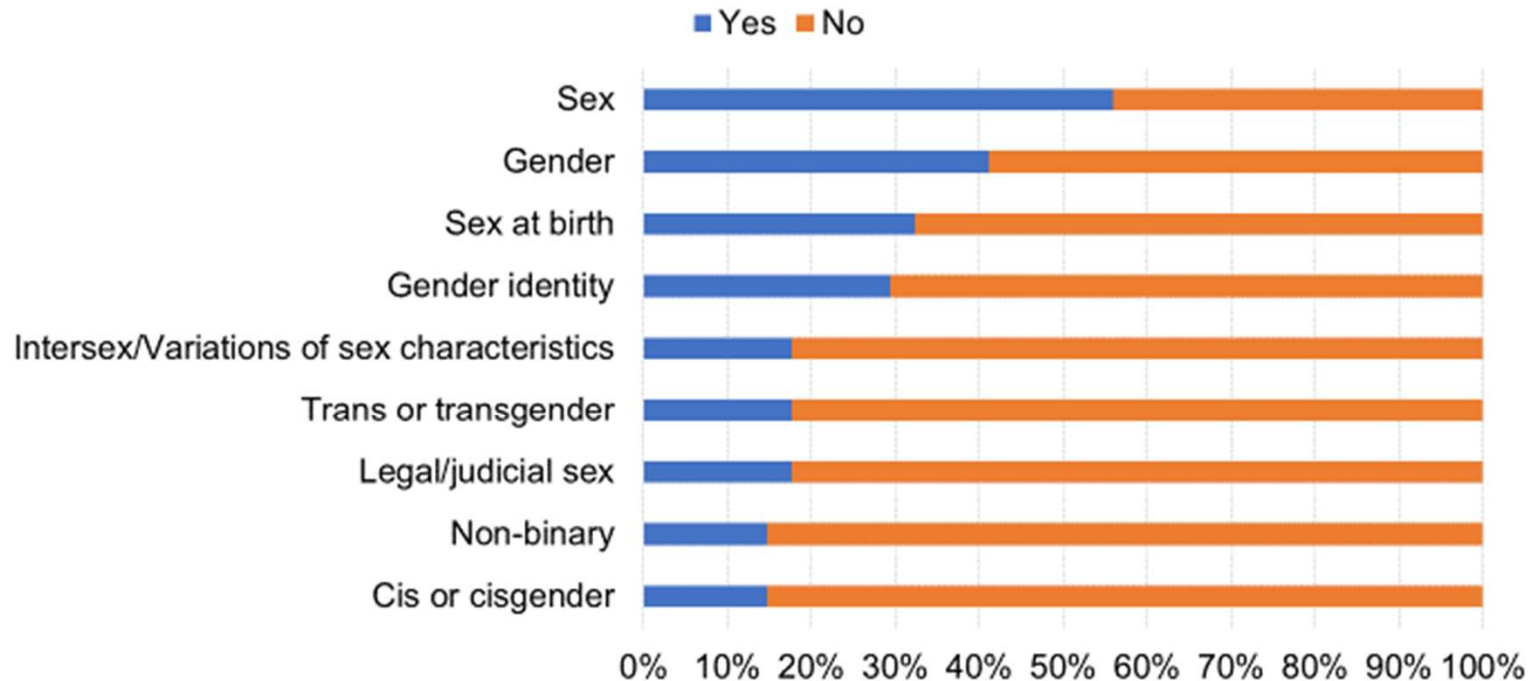

To be **living document** that is updated to reflect country experiences

Online networking platform on measuring gender identity

Please provide your organisation's officially recorded definitions for the terms listed below (if available).

Whether an organisation has provided an officially recorded description

Summary table of gender identity questions reported

Filter whole table = Hide Columns =

Country	Survey	Sex or official gender question	Gender question	Age minimum	Year implemented	Link
