

MAKING EVERY WOMAN AND GIRL COUNT

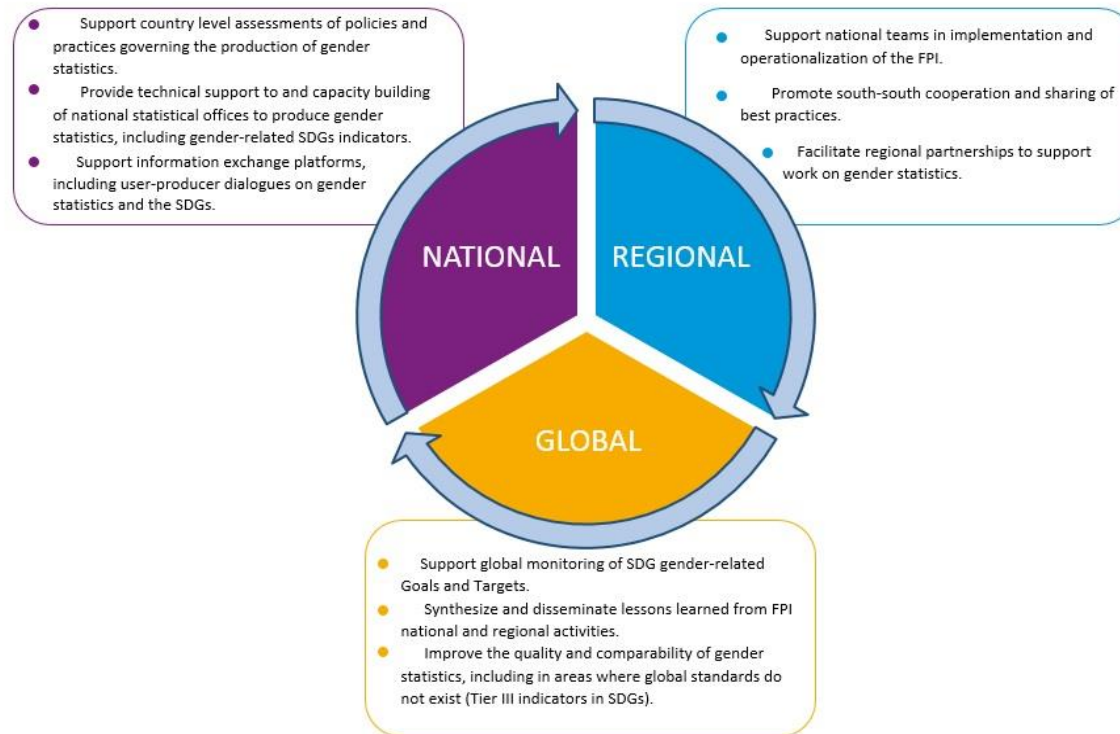

Objectives, activities in 2017 & Planning for 2018

11th Meeting of the Inter-Agency and
Expert Group on Gender Statistics,
Rome, Italy, 30-31 October 2017

1. **Enabling policy environment:** Putting in place an enabling environment for a gender-responsive localization and effective monitoring of national and international policy commitments;
2. **Data production:** Filling gender data gaps by ensuring that quality and comparable gender statistics are produced regularly; and
3. **Data use:** Ensuring that gender statistics are accessible and used to inform policy and advocacy.
4. **LME:** Learning through monitoring and evaluation about the most cost-effective ways to support capacity building in gender statistics

Implementation of the Gender Statistics FPI at the national, regional and global levels

MAKING EVERY WOMEN AND GIRL COUNT

2016 ANNUAL REPORT

INCEPTION PHASE

Pathfinder countries (α -order)

1. Albania
2. Bangladesh
3. Cameroon
4. Colombia
5. Jordan
6. Kenya
7. Morocco
8. Nepal
9. Senegal
10. Sierra Leone
11. Tanzania
12. Uganda

MAKING EVERY WOMEN AND GIRL COUNT

2016 ANNUAL REPORT

INCEPTION PHASE

Pathfinder countries (α-order)

1. Albania
2. Bangladesh
3. Cameroon
4. Colombia
5. **Jordan**
6. Kenya
7. Morocco
8. Nepal
9. Senegal
10. Sierra Leone
11. Tanzania
12. Uganda

- **Global** → Revision for better monitoring; recruitment of staff; PARIS21 NSDS project; global monitoring of SDGs
- **Regional** → ECA and A&P programme development (assessment in ECA, prodoc development, recruitment); Africa gender statistics assessment & programme development
- **Countries** → Development of country work plans
- Establishment of a **Centre of Excellence** (with INEGI)
- Continued development of joint UNW/WHO **Global VAW data programme**
- Development of **advocacy and communication strategy**

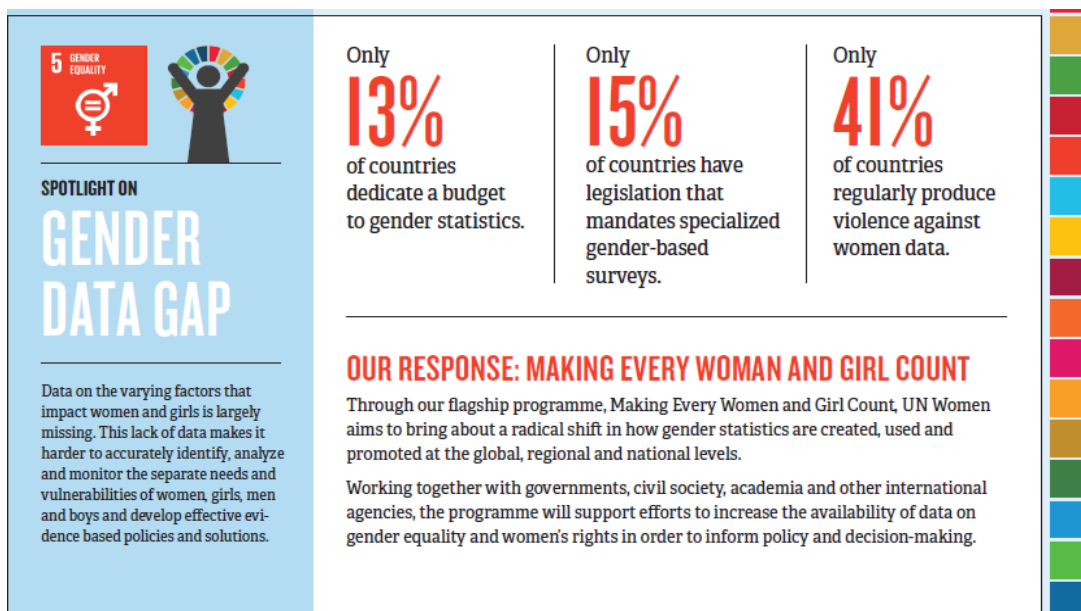

- SDG data collection (Tier I and Tier II): data compilation for Time use and VAW;
- Gender and disability data for HLPF
- Collaboration with the World Bank on gender and poverty through the lifecycle
- Methodological work on Tier III indicators (5.5.1b and 5.c.1 wrapped up and submitted to IAEG-SDGs for reclassification into Tier II; testing for 5.1.1 to be completed in Q1 2018)

Under way:

- Development of guide for SDGs localization (mainly for UN Women COs and ROs)

- SDG Monitoring – work on first edition of Gender and SDGs monitoring report (Q1 2018); products for HLPF (Spotlight on SDGs)
- User-producer events (1st World Data Forum; HLPF; CSW etc.)
- Development of **SDGs data portal** (scoping study; stepwise plans for 2017 and 2018)
- Joint workshop AfDB, UNECA and UNW (end November 2017)

- Programme implementation
 - Country, regional & global
 - NSDS Gender module (with PARIS21)
 - EVAW programme;
 - CoE
- Launch of 1st edition of UNW's Gender and SDGs Monitoring Report
- Development and launch of **SDGs data portal**
- Various user-producer events, including **CSW Expert data panel** (possible focus on Big Data – but ideas are welcome)

Collaboration between Government of Mexico, INEGI and UN Women

- Initial investment of US\$1,300,000 from the Mexican Government
- Aims to foster research, innovation, cooperation and exchange of experiences for the effective adaptation, implementation and monitoring of gender in SDGs/national policy
- Hosted by INEGI, build on and raise the global profile of INEGI's leadership in gender statistics
- CoE to focus on the following activities:
 - provide technical assistance and training services to NSOs and user communities (particularly in Central America);
 - An innovation lab;
 - Promote South–South and triangular cooperation.
 - Collaborate with existing institutions such as the Statistical Institute of Asia Pacific (SIAP), UN Women's Training Centre and the UN Staff College

PARIS21 will be implementing partner for Global Output 1.2

		Geographical level of activity		
		National (pathfinder countries)	Regional (technical project support)	Global (monitoring of SDGs)
MEWGC project outcomes	1. Support to improve the policy environment	Develop and implement NSDS Gender Module based on incorporation of gender data gap analysis (ADAPT)	Develop and implement RSDS Gender Module (Caribbean, with CARICOM)	Develop NSDS/ RSDS Gender Guidelines and Reporting of financial resources to gender statistics
	2. Promotion of data availability and use	Gender data visualization training; user-producer dialogues	Gender data visualization training	Data visualization toolkit and Reporting on use of gender data

Donor	Amount of grant (US\$)	Status of grant	Main area of work supported
Australia	5 million	Approved	Flexible; will support Asia & Pacific regional project
Ireland	163,043	Approved	Flexible
USAID	2.5 million	Approved	Global Policy Support project
Gates Foundation	10 million	Approved	Staffing at global level, work with PARIS21 on NSDS and 2 or more pathfinder countries (Kenya, Tanzania and Nepal/Bangladesh)
Mexico	1.3 million	Being finalized	Centre of Excellence for gender statistics
DFID	Being finalized		Under discussion
Chaudhary Foundation	2.5 million	Under consideration	1 country (Nepal)

Contingency planning: 5 countries and 3 regions

Total budget (global, regional and country level)	2016	2017	2018	2019	2020	2021	Total	% Direct cost
Budget per Outcome								
Strengthen policy environment	\$ 24,165	\$ 655,076	\$ 2,484,125	\$ 2,083,156	\$ 1,392,621	\$ 222,758	\$ 10,712,165	40
Increase data production	68,067	576,260	931,617	958,415	895,418	41,272	9,861,049	36
Improve data use	20,000	118,500	1,064,617	643,415	650,418	41,272	5,078,222	19
Learning, monitoring and evaluation	6,500	48,335	391,617	273,415	280,418	428,443	1,428,728	5
Support cost	9,499	111,854	389,758	316,672	257,510	58,700	2,166,413	8
Total	\$ 128,231	\$ 1,510,025	\$ 5,261,734	\$ 4,275,075	\$ 3,476,385	\$ 792,444	\$ 29,246,577	108
