

The Department of Economic and Social Affairs of the United Nations Secretariat is a vital interface between global policies in the economic, social and environmental spheres and national action. The Department works in three main interlinked areas: (i) it compiles, generates and analyses a wide range of economic, social and environmental data and information on which States Members of the United Nations draw to review common problems and to take stock of policy options; (ii) it facilitates the negotiations of Member States in many intergovernmental bodies on joint courses of action to address ongoing or emerging global challenges; and (iii) it advises interested Governments on the ways and means of translating policy frameworks developed in United Nations conferences and summits into programmes at the country level and, through technical assistance, helps build national capacities.

#### NOTE

The designations employed and the presentation of material in this publication do not imply the expression of any opinion whatsoever on the part of the United Nations concerning the legal status of any country, territory, city or area or of its authorities, or concerning the delimitation of its frontiers or boundaries. Where the designation "country or area" appears in the headings of tables, it covers countries, territories, cities or areas. The designation "developed" and "developing" economies which appears in some tables is intended for statistical convenience and does not necessarily express a judgement about the stage reached by a particular country or area in the development process.

Le Département des affaires économiques et sociales du Secrétariat de l'Organisation des Nations Unies sert de relais entre les orientations arrêtées au niveau international dans les domaines économiques, sociaux et environnementaux et les politiques exécutées à l'échelon national. Il intervient dans trois grands domaines liés les uns aux autres : i) il compile, produit et analyse une vaste gamme de données et d'éléments d'information sur des questions économiques, sociales et environnementales dont les États Membres de l'Organisation se servent pour examiner des problèmes communs et évaluer les options qui s'offrent à eux; ii) il facilite les négociations entre les États Membres dans de nombreux organes intergouvernementaux sur les orientations à suivre de façon collective afin de faire face aux problèmes mondiaux existants ou en voie d'apparition; iii) il conseille les gouvernements intéressés sur la façon de transposer les orientations politiques arrêtées à l'occasion des conférences et sommets des Nations Unies en programmes exécutables au niveau national et aide à renforcer les capacités nationales au moyen de programmes d'assistance technique.

#### NOTE

Les appellations employées dans cette publication et la présentation des données qui y figurent n'impliquent de la part du Secrétariat de l'Organisation des Nations Unies aucune prise de position quant au statut juridique des pays, territoires, villes ou zones, ou de leurs autorités, ni quant au tracé de leurs frontières ou limites. L'appellation "pays ou zone" figurant dans certaines rubriques des tableaux désigne des pays, des territoires, des villes ou des zones. Les appellations économiques "développées" et "économies en voie de développement" qui figurent dans certains tableaux sont utilisées pour plus de commodité dans la présentation des statistiques et n'impliquent pas nécessairement un jugement quant au stade de développement auquel est parvenu un pays ou une zone donnée.

Statistics Division of the United Nations  
New York  
7 July 2009

Division de statistique des Nations Unies  
New York  
Le 7 juillet 2009

## Introduction

This publication presents current monthly economic statistics for most of the countries and territories of the world. In addition, each month a selection of tables shows annual and/or quarterly data on subjects illustrating important economic trends and developments. Some of these tables are also published annually in the United Nations *Statistical Yearbook*.

### Sources

The statistics appearing in the *Bulletin* are obtained by the Statistics Division of the United Nations and the international statistical services from official sources in the countries. International sources for the *Bulletin* include the Food and Agriculture Organization of the United Nations, International Civil Aviation Organization, International Labour Office and the International Monetary Fund.

### Comparability of the data

Data definitions are provided for the statistical terms in the tables. These present the internationally recommended statistical terms and definitions in current use. Where individual series differ fundamentally from the descriptions in the note, the differences are indicated in footnotes.

Where a significant break in the homogeneity of a particular national series occurs, the point at which the break occurs is indicated by a horizontal/vertical line drawn across the column and the nature of the change is described in a footnote.

### Revisions

Each issue contains all the revisions made in the figures up to the date of publication of the *Bulletin*. In general, figures for the latest months are to be regarded as provisional.

## Country nomenclature

Designations which have changed in recent years are as follows:

China — For statistical purposes the data for China do not include Hong Kong Special Administrative Region (Hong Kong SAR), Macao Special Administrative Region (Macao SAR) and Taiwan province of China.

China, Hong Kong SAR — Pursuant to the Joint Declaration signed on 19 December 1984, the United Kingdom restored Hong Kong to the People's Republic of China with effect from 1 July 1997; the People's Republic of China resumed the exercise of sovereignty over the territory with effect from that date.

China, Macao SAR — Pursuant to the Joint Declaration signed on 13 April 1987, Portugal restored Macao to the People's Republic of China with effect from 20 December 1999; the People's Republic of China resumed the exercise of sovereignty over the territory with effect from that date.

## Introduction

Cette publication présente des statistiques économiques mensuelles à jour pour la plupart des pays et territoires du monde. En outre, on y trouve chaque mois une série de tableaux qui contiennent des données annuelles et/ou trimestrielles sur des sujets qui illustrent les principales tendances et développements économiques. Quelques-uns de ces tableaux sont également publiés annuellement dans l'*Annuaire statistique* des Nations Unies.

### Sources

Les statistiques publiées dans le *Bulletin* ont été obtenues par la Division de statistique des Nations Unies et par les services statistiques internationaux de sources officielles dans les pays. Les sources internationales pour le *Bulletin* incluent l'Organisation des Nations Unies pour l'alimentation et l'agriculture, l'Organisation de l'aviation civile internationale, le Bureau international du travail et le Fonds monétaire international.

### Comparabilité des données

Les définitions des données sont fournies pour les termes statistiques dans les tableaux. Elles présentent des termes et définitions recommandés internationalement qui sont d'usage courant. Lorsqu'une série s'écarte de manière fondamentale de la définition donnée dans la remarque, la divergence est signalée en note.

S'il y a discontinuité dans l'homogénéité d'une série statistique d'un certain pays, le point où se produit la coupure est indiqué par un trait horizontal en travers de la colonne ou par une barre verticale et la nature de changement est mentionnée en note.

### Révisions

Chaque numéro contient toutes les rectifications apportées aux chiffres à la date de la publication du *Bulletin*. En général, les chiffres des derniers mois doivent être considérés comme provisoires.

## Nomenclature des pays

Désignations changées dans les années récentes:

Chine — Les données statistiques relatives à la Chine ne comprennent pas celles qui concernent la Région administrative spéciale de Hong Kong (la RAS de Hong Kong), la Région administrative spéciale de Macao (la RAS de Macao) et la province chinoise de Taiwan.

Chine, Hong Kong RAS — Conformément à la Déclaration commune signée le 19 décembre 1984, le Royaume-Uni a rétrocédé Hong Kong à la République populaire de Chine, avec effet au 1er juillet 1997; la souveraineté de la République populaire de Chine s'exerce à nouveau sur le territoire à compter de cette date.

Chine, Macao RAS — Conformément à la Déclaration commune signée le 13 avril 1987, le Portugal a rétrocédé Macao à la République populaire de Chine, avec effet au 20 décembre 1999; la souveraineté de la République populaire de Chine s'exerce à nouveau sur le territoire à compter de cette date.

Czech Republic, Slovakia — Data for the Czech Republic and Slovakia, where available, are shown separately under the appropriate country name.

Democratic Republic of the Congo — Formerly Zaïre.

Myanmar, the Union of — Formerly Burma.

Serbia, Montenegro — On 3 June 2006, Serbia and Montenegro formally dissolved into two independent countries, the Republic of Serbia and the Republic of Montenegro. Data for each country, where available, are shown separately. Data presented for the period prior to June 2006, shown under the heading “Serbia”, may refer to Serbia and Montenegro.

Timor-Leste — Formerly East Timor.

USSR — In 1991, the Union of Soviet Socialist Republics formally dissolved into fifteen independent countries (Armenia, Azerbaijan, Belarus, Estonia, Georgia, Kazakhstan, Kirgызstan, Latvia, Lithuania, Republic of Moldova, Russian Federation, Tajikistan, Turkmenistan, Ukraine and Uzbekistan).

### Regional economic groupings:

ANCOM — Andean Common Market

Bolivia (Plurinational State of), Colombia, Ecuador, Peru and Venezuela (Bolivarian Republic of).

APEC — Asian-Pacific Economic Co-operation

Australia, Brunei Darussalam, Canada, Chile, China, Hong Kong Special Administrative Region of China, Indonesia, Japan, Malaysia, Mexico, New Zealand, Papua New Guinea, Peru, Philippines, Republic of Korea, Russian Federation, Singapore, Taiwan Province of China, Thailand, United States of America and Viet Nam.

ASEAN—Association of South-East Asian Nations

Brunei Darussalam, Cambodia, Indonesia, Lao People’s Democratic Republic, Malaysia, Myanmar, Philippines, Singapore, Thailand and Viet Nam.

CACM—Central American Common Market

Costa Rica, El Salvador, Guatemala, Honduras and Nicaragua.

CARICOM — Caribbean Community and Common Market

Antigua and Barbuda, Bahamas (member of the Community only), Barbados, Belize, Dominica, Grenada, Guyana, Haiti, Jamaica, Montserrat, Saint Kitts and Nevis, Saint Lucia, Saint Vincent and the Grenadines, Suriname and Trinidad and Tobago.

CIS — Commonwealth of Independent States

Armenia, Azerbaijan, Belarus, Georgia, Kazakhstan, Kirgызstan, Republic of Moldova, Russian Federation, Tajikistan, Turkmenistan, Ukraine and Uzbekistan.

République tchèque, Slovaquie — Les données relatives à la République tchèque, et à la Slovaquie, lorsqu’elles sont disponibles, sont présentées séparément sous le nom de chacun des pays.

République démocratique du Congo — Ex Zaïre.

Myanmar, l’Union du — Ex Birmania.

Serbie, Monténégro — Le 3 juin 2006, la Serbie-et-Monténégro s’est officiellement dissoute pour former deux États indépendants, la République de Serbie et la République du Monténégro. Les données relatives à chaque pays, lorsqu’elles sont disponibles, sont présentées séparément. Les données présentées pour la période avant du juin 2006, sous le nom de la «Serbie», peuvent se rapporter à la Serbie-et-Monténégro.

Timor-Leste — Ex Timor oriental.

URSS — En 1991, l’Union des républiques socialistes soviétiques s’est séparé en 15 pays distincts (Arménie, Azerbaïdjan, Bélarus, Estonie, Fédération de Russie, Géorgie, Kazakhstan, Kirghizistan, Lettonie, Lituanie, Ouzbékistan, République de Moldova, Tadjikistan, Turkménistan et Ukraine).

### Groupements économiques régionaux:

ANCOM — Marché commun andin

Bolivie (État plurinational de), Colombie, Equateur, Pérou et Venezuela (République bolivarienne du).

CEAP — Coopération économique d’Asie-Pacifique

Australie, Brunéi Darussalam, Canada, Chili, Chine, États-Unis d’Amérique, Fédération de Russie, Hong Kong (région administrative spéciale de Chine), Indonésie, Japon, Malaisie, Mexique, Nouvelle-Zélande, Papouasie-Nouvelle-Guinée, Pérou, Philippines, Province chinoise de Taiwan, République de Corée, Singapour, Thaïlande et Viet Nam.

ANASE—Association des nations de l’Asie du Sud-Est

Brunéi Darussalam, Cambodge, Indonésie, Malaisie, Myanmar, Philippines, République démocratique populaire lao, Singapour, Thaïlande et Viet Nam.

MCC—Marché commun centraméricain

Costa Rica, El Salvador, Guatemala, Honduras et Nicaragua.

CARICOM — Communauté des caraïbes et marché commun des caraïbes

Antigua-et-Barbuda, Bahamas (membre de la communauté seulement), Barbade, Bélice, Dominique, Grenade, Guyane, Haïti, Jamaïque, Montserrat, Sainte-Lucie, Saint-Kitts-et-Nevis, Saint-Vincent-et-les Grenadines, Suriname et Trinité-et-Tobago.

CEI — Communauté d’Etats indépendants

Arménie, Azerbaïdjan, Bélarus, Fédération de Russie, Géorgie, Kazakhstan, Kirghizistan, Ouzbékistan, République de Moldova, Tadjikistan, Turkménistan et Ukraine.

COMESA — Common Market for Eastern and Southern Africa

Angola, Burundi, Comoros, Democratic Republic of the Congo, Djibouti, Egypt, Eritrea, Ethiopia, Kenya, Libyan Arab Jamahiriya, Madagascar, Malawi, Mauritius, Rwanda, Seychelles, Sudan, Swaziland, Uganda, Zambia and Zimbabwe.

ECOWAS—Economic Community of West African States  
Benin, Burkina Faso, Cape Verde, Côte d'Ivoire, Gambia, Ghana, Guinea, Guinea-Bissau, Liberia, Mali, Niger, Nigeria, Senegal, Sierra Leone and Togo.

EMCCA—Economic and Monetary Community of Central Africa

Cameroon, Central African Republic, Chad, Congo, Equatorial Guinea and Gabon.

EU — European Union

Austria, Belgium, Bulgaria, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden and United Kingdom.

LAIA—Latin American Integration Association (formerly Latin American Free Trade Association)

Argentina, Bolivia, Brazil, Chile, Colombia, Cuba, Ecuador, Mexico, Paraguay, Peru, Uruguay and Venezuela (Bolivarian Republic of).

LDCs — Least developed countries

Afghanistan, Angola, Bangladesh, Benin, Bhutan, Burkina Faso, Burundi, Cambodia, Cape Verde, Central African Republic, Chad, Comoros, Democratic Republic of the Congo, Djibouti, Equatorial Guinea, Eritrea, Ethiopia, Gambia, Guinea, Guinea-Bissau, Haiti, Kiribati, Lao People's Democratic Republic, Lesotho, Liberia, Madagascar, Malawi, Maldives, Mali, Mauritania, Mozambique, Myanmar, Nepal, Niger, Rwanda, Samoa, Sao Tome and Principe, Senegal, Sierra Leone, Solomon Islands, Somalia, Sudan, Timor-Leste, Togo, Tuvalu, Uganda, United Republic of Tanzania, Vanuatu, Yemen and Zambia.

MERCOSUR — Mercado Común Sudamericano

Argentina, Brazil, Paraguay and Uruguay.

NAFTA — Northern American Free Trade Area

Canada, Mexico and United States of America.

OECD — Organisation for Economic Cooperation and Development

Australia, Austria, Belgium, Canada, Czech Republic, Denmark, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Japan, Luxembourg, Mexico, Netherlands, New Zealand, Norway, Poland, Portugal, Republic of Korea, Slovakia, Spain, Sweden, Switzerland, Turkey, United Kingdom and United States of America.

COMESA — Marché commun de l'Afrique de l'Est et de l'Afrique australe

Angola, Burundi, Comores, Djibouti, Egypte, Erythrée, Ethiopie, Jamahiriya arabe libyenne, Kenya, Madagascar, Malawi, Maurice, Ouganda, République démocratique du Congo, Rwanda, Seychelles, Soudan, Swaziland, Zambie et Zimbabwe.

CEDEAO—Communauté Economique des Etats de l'Afrique de l'Ouest

Bénin, Burkina Faso, Cap-Vert, Côte d'Ivoire, Gambie, Ghana, Guinée, Guinée-Bissau, Libéria, Mali, Niger, Nigéria, Sénégal, Sierra Leone et Togo.

CEMAC—Communauté économique et monétaire de l'Afrique centrale

Cameroun, Congo, Gabon, Guinée équatoriale, République Centrafricaine et Tchad.

UE — Union européenne

Allemagne, Autriche, Belgique, Bulgarie, Chypre, Danemark, Espagne, Estonie, Finlande, France, Grèce, Hongrie, Irlande, Italie, Lettonie, Lituanie, Luxembourg, Malte, Pays-Bas, Pologne, Portugal, République tchèque, Roumanie, Royaume-Uni, Slovaquie, Slovénie et Suède.

ALAI—Association latino-américaine pour l'intégration (antérieurement Association latino-américaine de libre-échange)

Argentine, Bolivie, Brésil, Chili, Colombie, Cuba, Equateur, Mexique, Paraguay, Pérou, Uruguay et Venezuela (République bolivarienne du).

PMA — Pays les moins avancés

Afghanistan, Angola, Bangladesh, Bénin, Bhoutan, Burkina Faso, Burundi, Cambodge, Cap-Vert, Comores, Djibouti, Erytrée, Ethiopie, Gambie, Guinée, Guinée-Bissau, Guinée équatoriale, Haïti, Iles Salomon, Kiribati, Lesotho, Libéria, Madagascar, Malawi, Maldives, Mali, Mauritanie, Mozambique, Myanmar, Népal, Niger, Ouganda, République centrafricaine, République démocratique du Congo, République démocratique populaire lao, République-Unie de Tanzanie, Rwanda, Samoa, Sao Tomé-et-Principe, Sénégal, Sierra Leone, Somalie, Soudan, Tchad, Timor-Leste, Togo, Tuvalu, Vanuatu, Yémen et Zambie.

MERCOSUR — Marché commun sud-américain

Argentine, Brésil, Paraguay et Uruguay.

ALENA — Accord de libre-échange nord-américain

Canada, Etats-Unis d'Amérique et Mexique.

OCDE — Organisation de coopération et de développement économiques

Allemagne, Australie, Autriche, Belgique, Canada, Danemark, Espagne, Etats-Unis d'Amérique, Finlande, France, Grèce, Hongrie, Irlande, Islande, Italie, Japon, Luxembourg, Mexique, Norvège, Nouvelle-Zélande, Pays-Bas, Pologne, Portugal, République de Corée, République tchèque, Royaume-Uni, Slovaquie, Suède, Suisse et Turquie.

OPEC — Organization of Petroleum Exporting Countries  
Algeria, Indonesia, Iran (Islamic Republic of), Iraq,  
Kuwait, Libyan Arab Jamahiriya, Nigeria, Qatar, Saudi  
Arabia, United Arab Emirates and Venezuela (Bolivarian  
Republic of).

#### *Time period*

The statistics are presented in the form of time series. As far as possible the figures are given for the calendar years 1998-2008 inclusive and for the most recent 18 months. In general, the annual figures are expressed as monthly averages; exceptions (e.g. most of the tables under the International Merchandise Trade and Finance Sections) are indicated.

Annual statistics for many of the tables shown in the *Bulletin* are available in the *Statistical Yearbook* prepared by the Statistics Division of the United Nations. The *Yearbook* also contains many other tables as well as a more comprehensive country coverage than the *Bulletin*.

#### *Units of measurement*

Metric units are used in all tables in which the data are measured in weight, volume, length or area. The principal British and United States equivalent units are given in Annex I to this issue.

#### *Rounding of figures*

When necessary each figure has been rounded off to the nearest final digit. For this reason there may be in some series an apparent slight discrepancy between the sum of the constituent items and the total as shown.

### **Symbols employed**

The following symbols have been used throughout the *Bulletin*.

.	Not applicable.
...	Not available.
—	Magnitude zero.
0 or 0.0	Magnitude not zero, but less than half of unit employed.
*	Provisional, preliminary or estimated figure.
x	United Nations estimate.
◆	Monthly average for quarter or index for quarter.
# or   or —	Marked break in series.

Decimal figures are always preceded by a period (.).

OPEP — Organisation des pays exportateurs de pétrole  
Algérie, Arabie Saoudite, Emirats arabes unis, Indonésie,  
Iran (République islamique d') Iraq, Jamahiriya arabe  
libyenne, Koweït, Nigéria, Qatar et Venezuela (République  
bolivarienne du).

#### *Période couverte*

Les statistiques sont présentées sous forme de séries chronologiques. Autant que possible, les chiffres donnés sont des chiffres annuels pour 1998-2008 et des chiffres mensuels pour les derniers dix-huit mois. En général, les chiffres annuelles sont présentées en moyennes mensuelles; il y a des exceptions qui ont été marquées (ex. la plupart des tableaux dans les sections sur le commerce international et sur la finance).

L'*Annuaire statistique* publié par la Division de statistique des Nations Unies contient des statistiques annuelles correspondant à beaucoup de tableaux qui paraissent dans le présent *Bulletin*. L'*Annuaire* contient en outre de nombreux autres tableaux et englobe un ensemble beaucoup plus large de pays.

#### *Unités de mesure*

Le système métrique est utilisé dans tous les tableaux dont les données sont mesurées en poids, volume, longueur ou surface. Une liste des principaux équivalents des unités métriques en unités anglaises et des Etats-Unis figure à l'Annexe I du présent numéro.

#### *Arrondissement de chiffres*

Chaque fois qu'on l'a jugé nécessaire, les nombres ont été arrondis à l'unité. Il peut donc y avoir, pour certaines séries, une légère différence entre la somme des éléments constituants et le total indiqué.

### **Signes conventionnels**

Les signes ci-après ont été utilisés dans le *Bulletin*.

.	Ne s'applique pas.
...	Aucune donnée disponible.
—	Résultat rigoureusement zéro.
0 ou 0.0	Résultat inférieur à la moitié de la dernière unité retenue.
*	Donnée provisoire ou estimation.
x	Estimation des Nations Unies.
◆	Moyenne mensuelle pour le trimestre ou indice pour le trimestre.
# ou   ou —	Une discontinuité notable dans la série.

Les décimales sont toujours précédées d'un point (.).

# 1

United Nations Statistics Division, Demographic Statistics Database and Monthly Bulletin of Statistics questionnaire.

Note:  
Figures shown in italics indicate estimates of uncertain reliability. This table includes only official national population estimates reported to the United Nations Statistics Division. For United Nations population estimates, refer to the United Nations Population Division's Internet site: [www.unpopulation.org](http://www.unpopulation.org)

- For 2006, data refer to the settled population based on the 1979 Population Census and the latest household prelisting. The refugees of Afghanistan in Iran, Pakistan and estimated 1.5 million nomads are not included. The so adjusted total population of the country for 2006 is 24.1 million.
- Also included in Finland.
- Including armed forces stationed in the area.
- Population estimates for the years 1998 to 1999 have been smoothed using the 1995 mid-decade household survey and the year 2000 census.
- Mid-year estimates have been adjusted for under enumeration.
- Data have been adjusted on the basis of the Population Census of 2005.
- Data include persons in remote areas, military personnel outside the country, merchant seamen at sea, civilian seasonal workers outside the country, and exclude nomads, foreign military, civilian aliens temporarily in the country, transients on ships and Indian jungle population.
- Excluding foreign diplomatic personnel and their dependants.
- From 1998 based on census result.
- For statistical purposes, the data for China do not include those for the Hong Kong Special Administrative Region (Hong Kong SAR), Macao Special Administrative Region (Macao SAR), and Taiwan province of China.

Division de statistique de l'ONU, base de données pour les statistiques démographiques et le questionnaire du Bulletin mensuel de statistique.

Note:  
Les chiffres en italique indique des estimations d'une exactitude incertaine. Cette tabulation inclue seulement des estimations officielles de la population qui ont été envoyées à la Division des Statistiques des Nations Unies. Pour les estimations faites par la Division de la Population des Nations Unies, vous êtes priés de visiter le site suivant : [www.unpopulation.org](http://www.unpopulation.org)

- Pour 2006, Les données se rapportent à la population stationnaire sur la base du recensement de 1979 et du recensement préliminaire des logements le plus récent. Sont exclus les réfugiés d'Afghanistan en Iran et au Pakistan et les nomades estimés à 1,5 million. La population totale du pays ainsi ajustée pour 2006 comprend 24,1 millions.
- Comprise aussi dans Finlande.
- Y compris les militaires en garnison sur le territoire.
- L'estimation de la population a été lissée pour les années entre 1998 et 1999 en utilisant l'enquête des ménages de 1996 et le recensement de l'année 2000.
- Les estimations au milieu de l'année tiennent compte d'une adjustment.
- Données ajustées sur la base du recensement de la population de 2005.
- Y compris les personnes dans des régions éloignées, au personnel militaire en dehors du pays, aux marins marchands, aux ouvriers saisonniers civils de couture en dehors du pays, et à d'autres civils en dehors du pays, et non compris les nomades, les militaires étrangers, les étrangers civils temporairement dans le pays, les transiteurs sur des bateaux et les Indiens de la jungle.
- Non compris le personnel diplomatique étranger et les membres de leur famille les accompagnant.
- Depuis 1998, à partir des résultats de recensement.
- Pour la présentation des statistiques, les données pour Chine ne comprennent pas la Région Administrative Spéciale de Hong Kong (Hong Kong RAS), le Région Administrative Spéciale de Macao (Macao RAS) et Taiwan province de Chine.

Source:

United Nations Statistics Division, Demographic Statistics Database and Monthly Bulletin of Statistics questionnaire.

Note:

Data refer to live births which occurred or were registered during the period indicated  
 For the purpose of international comparability, this table is limited to countries for which complete or virtually complete registration data exist.

- 1 Data refer to government controlled areas.
- 2 Excluding Rodrigues and other small islands.

Source :

Division de statistique de l'ONU, base de données pour les statistiques démographiques et le questionnaire du Bulletin mensuel de statistique.

Note :

Les données se rapportent aux naissances vivantes intervenus ou enregistrés au cours de la période indiquée. Pour permettre la comparaison d'un pays à l'autre, ce tableau ne comprend que les pays où l'enregistrement des données est complet ou virtuellement complet.

- 1 Les données se rapportent aux zones contrôlées par le Gouvernement
- 2 Non compris Rodrigues et les autres petites îles.

 United Nations Statistics Division, Demographic Statistics Database  
 and Monthly Bulletin of Statistics questionnaire.

Source :  
 Division de statistique de l'ONU, base de données pour les statistiques  
 démographiques et le questionnaire du Bulletin mensuel de statistique.

Note:  
 Data refer to deaths which occurred or were registered during the period indicated.  
 For the purpose of international comparability, this table is limited to  
 countries for which complete or virtually complete registration data exist.

Note :  
 Les données se rapportent aux décès intervenus ou enregistrés au cours  
 de la période indiquée. Pour permettre la comparaison d'un pays à  
 l'autre, ce tableau ne comprend que les pays où l'enregistrement des  
 données est complet ou virtuellement complet.

- 1 Data refer to government controlled areas.
- 2 Excluding Rodrigues and other small islands.

- 1 Les données se rapportent aux zones contrôlées par le Gouvernement.
- 2 Non compris Rodrigues et les autres petites îles.

United Nations Statistics Division, Index Numbers of Industrial Production and Monthly Bulletin of Statistics questionnaires, supplemented by international and national publications.

Note:

Unless otherwise stated, the monthly and quarterly indices are not adjusted for differences in the number of working days or for seasonal variation.

The indices marked by † are shown in terms of ISIC Rev. 3.

The indices marked by ‡ have been calculated by the Statistics Division of the United Nations from component national indices.

- 1 Annual figures: average of 12 months ending 30 June of the year stated.
- 2 Annual figures: average of 12 months beginning 1 July of the year stated.
- 3 Monthly indices are adjusted for differences in the number of working days.
- 4 For government controlled areas.
- 5 Excluding petroleum refineries.
- 6 Annual figures: average of 12 months beginning 1 April of the year stated.
- 7 Including construction.
- 8 Excluding coal mining and crude petroleum.
- 9 Annual figures: average of four quarters ending 31 March of the year stated.
- 10 Including forestry and fishing.

Division de statistique des Nations Unies, Questionnaire pour les indices de la production industrielle et Questionnaire du Bulletin mensuel de statistique, et publications internationales et nationales.

Note :

Sauf indication contraire, les indices mensuels et trimestriels ne sont pas ajustés en fonction des différences du nombre de jours ouvrés ou des variations saisonnières.

Les indices signalés par † sont basés sur la CITI Rév. 3.

Les indices signalés par ‡ ont été calculés par la Division de statistique de l'ONU à partir des composantes des indices nationaux.

- 1 Chiffres annuels : moyennes de douze mois finissant le 30 juin de l'année indiquée.
- 2 Chiffres annuels : moyennes de douze mois commençant le 1 juillet de l'année indiquée.
- 3 Les indices mensuels sont corrigés pour tenir compte de l'inégalité du nombre de jours ouvrables.
- 4 Pour les zones contrôlées par le gouvernement.
- 5 Excluding petroleum refineries.
- 6 Chiffres annuels : moyennes de douze mois commençant le 1 avril l'année indiquée.
- 7 Y compris la construction.
- 8 Non compris l'extraction du charbon et de pétrole brut.
- 9 Chiffres annuels : moyennes de quatre trimestres finissant le 31 mars de l'année indiquée.
- 10 Y compris l'exploitation forestière et la pêche.

## Technical notes: tables 4 and 5

*Table 4:* The indices of industrial production are classified according to tabulation categories, divisions and combinations of divisions of the International Standard Industrial Classification of All Economic Activities (ISIC), Rev. 3<sup>1</sup> for mining, manufacturing and electricity, gas and water. The indices indicate trends in value added in constant prices. The measure of value added is the national accounting concept, which is defined as gross output less intermediate consumption. Each series is compiled by using the Laspeyres formula, that is, the indices are base-weighted arithmetic means. The weights used in the calculation of the indices for a particular country are the value added contribution to the gross domestic product (GDP) of the given industry during the base year. The current weight base year is 2000 and value added, generally at factor cost, is used in weighting. Ideally, every five years, the base year is updated and the indices are rebased.

For most countries, the estimates of value added used as weights are derived from the results of national industrial censuses or similar inquiries relating to 2000. These data, in national currency are adjusted to the ISIC where necessary and are subsequently converted into US dollars.

Within each of the ISIC Rev. 3 categories (tabulation categories, divisions and combinations of divisions) shown in the tables, the indices for the country groupings are calculated directly from the country data. The indices for the *World*, however, are calculated from the aggregated indices for the groupings of developed and developing countries.

*Table 5:* The national indices in this table are shown for the categories "Mining", "Manufacturing", "Electricity, gas and steam" and "Water; waste management", corresponding to sections B, C, D and E of ISIC Rev.4<sup>2</sup>. Major deviations from ISIC in the scope of the indices for the above categories are indicated in the titles or by footnotes to the table.

The indices for the category "General" are the combination of the components shown and share all deviations from ISIC footnoted for the component series. Therefore, ideally, this would cover the complete scope of industrial statistics, namely ISIC Rev.4 sections B, C, D and E. For the purpose of presentation, the national indices have been rebased to 2005 = 100, where necessary.

## Notes techniques : tableaux 4 et 5

*Tableau 4 :* Les indices de la production industrielle sont classés selon les catégories de classement, les divisions ou des combinaisons des divisions de la Classification Internationale type, par industrie, de toutes les branches d'activité économique (CITI) Rév. 3<sup>1</sup> qui concernent les industries extractives et les industries manufacturières ainsi que l'électricité, le gaz et l'eau. Ces indices représentent les tendances de la valeur ajoutée en prix constants. La mesure de la valeur ajoutée correspond à celle qui est appliquée aux fins de la comptabilité nationale, c'est-à-dire égale à la valeur de la production brute diminuée de la consommation intermédiaire. Chaque série a été établie au moyen de la formule de Laspeyres, ce qui signifie que les indices sont des moyennes arithmétiques affectées de coefficients de pondération. Les poids utilisés au calcul des indices d'un pays particulier est la contribution de la valeur ajoutée au Produit Intérieur Brut (PIB) du pays pendant l'année base. L'année base de pondération courante est 2000 et la valeur ajoutée, généralement en coût de facteur, est utilisée dans la pondération. Il faut que tous les cinq ans, l'année base soit mise à jour et les indices soient recalculés.

Pour la plupart des pays, les estimations de la valeur ajoutée qui sont utilisées comme coefficients de pondération sont tirées des résultats des recensements industriels nationaux ou enquêtes analogues concernant l'année 2000. Ces données, en monnaie nationale, sont ajustées s'il y a lieu aux normes de la CITI et ultérieurement converties en dollars des Etats-Unis.

A l'intérieur de chacune des subdivisions de la CITI Rév. 3 (catégories de classement, divisions et combinaisons des divisions) indiquées dans les tableaux, les indices relatifs aux groupements de pays sont calculés directement à partir des données des pays. Toutefois, les indices concernant le *Monde* sont calculés à partir des indices agrégés applicables aux groupements de pays développés et de pays en développement.

*Tableau 5 :* Les indices de pays sont donnés dans ce tableau pour les catégories "Mines", "Industries manufacturières", "Électricité, gaz et vapeur", et "Production et distribution d'eau et gestion des déchets", qui correspondent aux sections B, C, D et E de la CITI Rév.4<sup>2</sup>. Tous les cas où le champ des indices de ces catégories s'écartent nettement de celui des catégories correspondantes de la CITI sont indiqués dans les titres ou dans les notes du tableau.

Les indices de la catégorie "Général" sont la combinaison des indices partiels indiqués, et partagent toutes les différences par rapport à la CITI notées dans le cas des indices partiels. On a donc en principe une couverture complète du champ des statistiques industrielles, à savoir les sections B, C, D et E de la CITI Rév.4. Pour les besoins de la présentation, les indices nationaux ont été recalculés en prenant pour année de base 2005 = 100.

Consumer price indices

General, food: 2000=100 [cont.]

Indices des prix à la consommation

Général, de l'alimentation : 2000=100 [suite]

Source:

International Labour Office (ILO), Geneva, Bureau of Statistics Database and the Monthly Bulletin of Statistics questionnaire of the United Nations Statistics Division.

Note:

Annual and quarterly figures are usually averages of monthly figures.

- 1 Excluding rent.
- 2 Base: 2001=100.
- 3 Metropolitan area.
- 4 Including tobacco.
- 5 Government officials.
- 6 Annual average is weighted mean of monthly data.
- 7 Urban areas.
- 8 Base: 2005=100 (Liberia, December 2005; Slovenia, beginning 2008).
- 9 Base: 2003=100.
- 10 Index base period: the same month of 2000=100.
- 11 Low income group.
- 12 The index pertains to African families.
- 13 Central area.
- 14 Base: 2007=100 (Costa Rica, Gabon, Iran (Islamic Republic of): beginning 2007).
- 15 Including alcoholic beverages and tobacco (Costa Rica: prior to 2007).
- 16 Including alcoholic beverages.
- 17 For government controlled areas.
- 18 Including tobacco, beverages and public catering.
- 19 Excluding alcoholic beverages and tobacco.
- 20 5 cities.
- 21 Annual averages are based on the months February - December and January of the following year.
- 22 Industrial workers.
- 23 Excluding tobacco.
- 24 Base: Dec 2000=100 (beginning 2006).
- 25 Base: 2002=100 (Sri Lanka, beginning 2007).
- 26 Base: 1999=100.
- 27 Rural and urban areas.
- 28 Base: 1996=100. Base: 2004=100 (beginning 2008).
- 29 All cities.
- 30 Base: 2001=100.
- 31 Base: 1990=100.
- 32 All urban consumers.
- 33 Including beverages and tobacco.
- 34 Prior to 2005 Including alcoholic beverages.
- 35 Base: 2004=100.
- 36 The figures are divided by one thousand.

Source :

Bureau international du Travail (BIT), Genève, base de données du Bureau de statistique et le questionnaire du Bulletin mensuel de statistique de la Division de statistique de l'Organisation des Nations Unies.

Note :

Les chiffres annuels et trimestriels sont habituellement des moyennes arithmétiques simples des données mensuelles.

- 1 Non compris le groupe loyer.
- 2 Base : 2001=100.
- 3 Région métropolitaine.
- 4 Y compris le tabac.
- 5 Fonctionnaires.
- 6 La moyenne annuelle est calculée sur la moyenne pondérée des données mensuelles.
- 7 Régions urbaines.
- 8 Base : 2005=100 (Libéria, décembre 2005 ; Slovénie, à partir de 2008).
- 9 Base : 2003=100.
- 10 La période de base de l'indice : le même mois de 2000=100.
- 11 Familles à revenu modique.
- 12 L'indice se rapporte aux familles africaines.
- 13 Région centrale.
- 14 Base : 2007=100 (Costa Rica, Gabon, Iran (République islamique d') : à partir de 2007).
- 15 Y compris les boissons alcoolisées et le tabac (Costa Rica : avant de 2007).
- 16 Y compris les boissons alcoolisées.
- 17 Pour les zones contrôlées par le gouvernement.
- 18 Y compris le tabac, les boissons et la restauration publique.
- 19 Non compris les boissons alcoolisées et le tabac.
- 20 5 villes.
- 21 Les moyennes annuelles sont basées sur les mois février - décembre et janvier de l'année suivante.
- 22 Travailleurs de l'industrie.
- 23 Non compris le tabac.
- 24 Base: dec 2000=100 (à partir de 2006).
- 25 Base : 2002=100 (Sri Lanka, à partir de 2007).
- 26 Base : 1999=100.
- 27 Régions rurales et urbaines.
- 28 Base : 1996=100. Base : 2004=100 (à partir de 2008).
- 29 Ensemble des villes.
- 30 Base : 2001=100.
- 31 Base : 1990=100.
- 32 Tous les consommateurs urbains.
- 33 Y compris les boissons et le tabac.
- 34 Avant 2005 y compris les boissons alcoolisées.
- 35 Base : 2004=100.
- 36 Les chiffres sont divisés par un millier.

## Technical notes: tables 6, 7 and 8

*Table 6:* The consumer price index (CPI) is a current social and economic indicator that is constructed to measure changes over time in the general level of prices of consumer goods and services that households acquire, use or pay for consumption.

A consumer price index is usually estimated as a series of summary measures of the period-to-period proportional change in the prices of a fixed set of consumer goods and services of constant quantity and characteristics, acquired, used or paid for by the reference population. Each summary measure is constructed as a weighted average of a large number of elementary aggregate indices. Each of the elementary aggregate indices is estimated using a sample of prices for a defined set of goods and services obtained in, or by residents of, a specific region from a given set of outlets or other sources of consumption goods and services.

Detailed explanations of the methods used to compute the consumer price indices may be found on the ILO website at: <http://laborsta.ilo.org/>.

The general and food consumer price indices are shown in the table for each country.

*Table 7:* Producer prices are prices at which producers sell their output on the domestic market or for export.

Producer price indices normally cover the prices of the characteristic products of agriculture, forestry, and fishing, mining and quarrying, manufacturing, and electricity, gas and water supply. Prices are normally measured in terms of transaction prices, including non-deductible indirect taxes less subsidies, in the case of domestically produced goods and import duties and other non-deductible indirect taxes less subsidies in the case of imported goods.

The Laspeyres index number formula is generally used and, for the purpose of the presentation, the national indices have been recalculated, where necessary, on the reference base 2000=100.

The price indices for each country are arranged according to the following scheme:

- a. Components of supply
  - Domestic supply
  - Domestic production for domestic market
  - Agricultural products
  - Industrial products
  - Imported goods
- b. Stage of processing
  - Raw materials
  - Intermediate goods
- c. End-use
  - Consumer goods
  - Capital goods

*Table 8:* The International Civil Service Commission regularly compiles index numbers which measure the relative cost-of-living of United Nations officials working in various cities.

## Notes techniques : tableaux 6, 7 et 8

*Tableau 6 :* L'indice des prix à la consommation est un indicateur social et économique couramment utilisé pour mesurer les variations au cours du temps du niveau général des prix des biens et services acquis, utilisés ou payés par les ménages pour leur consommation.

Un indice des prix à la consommation est généralement estimé à partir d'une suite de mesures synthétiques des variations relatives, d'une période à l'autre, des prix d'un ensemble fixe de biens et de services de consommation constants en quantité et par leurs caractéristiques, acquis, utilisés ou payés par la population de référence. Chaque mesure synthétique est obtenue comme une moyenne pondérée d'un grand nombre d'indices de prix d'agrégats élémentaires. L'indice de chaque agrégat élémentaire est estimé au moyen d'un échantillon de prix pour un ensemble fixe de biens et de services que se procurent les individus de la population de référence dans une région donnée, ou qui habitent cette région, auprès d'un ensemble spécifié de points de vente ou auprès d'autres fournisseurs de biens et de services de consommation.

Les détails des explications à propos des méthodes employées pour calculer les indices des prix à la consommation peuvent être trouvés sur le site Internet du BIT : <http://laborsta.ilo.org/>.

Les indices des prix à la consommation généraux et de l'alimentation sont présentés dans le tableau pour chaque pays.

*Tableau 7 :* Le prix à la production est le prix auquel le producteur vend ses produits sur le marché intérieur ou à l'exportation.

Les indices de prix à la production comprennent en général le prix des produits provenant de l'agriculture, de la sylviculture et de la pêche, des industries extractives (mines et carrières), de l'industrie manufacturière ainsi que le prix de l'électricité, du gaz et de l'eau. Les prix établis sont d'ordinaire ceux auxquels s'effectue la transaction, y compris les impôts indirects non déductibles mais non compris les subventions dans le cas des produits de l'économie nationale et y compris les taxes à l'importation et autres impôts indirects non déductibles mais non compris les subventions dans le cas des produits importés.

On a généralement utilisé la formule de Laspeyres et, pour la présentation, on a recalculé les indices nationaux, le cas échéant, en prenant comme base de référence 2000=100.

Les indices sont présentés pour chaque pays suivant la classification ci-après :

- a. Eléments de l'offre
  - Offre intérieur
  - Production nationale pour le marché intérieur
  - Produits agricoles
  - Produits industriels
  - Produits d'importation
- b. Stades de la transformation
  - Matières premières
  - Biens intermédiaires
- c. Utilisation finale
  - Biens de consommation
  - Biens d'équipement

The indexes compare the US Dollar costs of a representative basket of goods and services between a duty station and New York City, the base of the UN Common System. These indexes are updated to reflect price changes over time at the duty station and New York, movements in the exchange rate of the local currency vis-à-vis the United States dollar and to adjust for expenditures made by the staff outside the duty station.

Detailed explanations of the methods used to compute the indexes may be found on the ICSC Homepage at: <http://icsc.un.org/col-rpi.asp>.

*Tableau 8* : La Commission de la Fonction Publique Internationale compile régulièrement les indices mesurant le coût de la vie relatif aux fonctionnaires des Nations Unies en poste dans diverses villes du monde.

Les indices comparent, en dollars EU, le coût d'un panier représentatif de biens et services entre une ville donnée et New York, base du système commun de L'ONU. Ces indices sont mis à jour pour refléter le changement de prix temporels dans les villes-postes et à New York, les mouvements du taux de change de la monnaie locale vis-à-vis du dollar EU et pour ajuster les dépenses faites par le personnel en dehors de la ville-poste.

Les détails des explications à propos des méthodes employées pour calculer les indices peuvent être trouvés sur le site Internet de la CFPI : <http://icsc.un.org/col-rpi.asp>.

Paid employment in non-agricultural activities

Thousands [cont.]

Emploi rémunéré dans les activités non agricoles

En milliers [suite]

Source:

International Labour Office (ILO), Geneva, Bureau of Statistics Database.

Note:

The data relate to wage-earners and salaried employees in mining, manufacturing, construction and building, transport, commerce, personal and public services.

The statistics usually refer to the total number at work at a specified date in each month or quarter. For certain countries, however, the data refer to the average number of employed in the period.

- 1 Labour force survey.
- 2 Persons aged 15 years and over.
- 3 Persons aged 15 to 64 years.
- 4 Excluding conscripts.
- 5 Labour-related establishment survey.
- 6 Civilian labour force. (Slovakia: excluding persons on child-care leave.)
- 7 Excluding armed forces.
- 8 Persons aged 14 years and over.
- 9 Persons aged 12 years and over.
- 10 Persons aged 15 to 66 years.
- 11 Persons aged 15 to 74 years.
- 12 Including professional army; excluding compulsory military service.
- 13 Multiple job-holders are counted at each establishment.
- 14 Excluding persons on child-care leave but including conscripts.
- 15 Persons aged 16 to 74 years.
- 16 Including the residents of East Jerusalem.
- 17 Excluding compulsory military service.
- 18 Insurance records.
- 19 Beginning 2006, estimates obtained from the 2000 Census-based Population Projections.
- 20 Excluding Kosovo.
- 21 Official estimate.
- 22 Persons aged 15 to 65 years.
- 23 Persons aged 16 years and over.
- 24 Persons aged 10 years and over.
- 25 Excluding Northern and Eastern provinces.
- 26 Persons aged 16 to 64 years.
- 27 Persons aged 13 years and over.
- 28 Methodology revised; data not strictly comparable.

Source :

Bureau International du Travail (BIT), Genève, la base de données du Bureau de statistique.

Note :

Les données se réfèrent, aux ouvriers et employés des mines, des industries manufacturières, de la construction et du bâtiment, des transports, du commerce et des services privés et publics.

Les statistiques portent en général sur l'effectif total de la main-d'oeuvre active à une date déterminée du mois ou du trimestre. Toutefois, en ce qui concerne certains pays, les données portent sur le nombre moyen des

- 1 Enquête sur la main-d'oeuvre.
- 2 Personnes âgées de 15 ans et plus.
- 3 Personnes âgées de 15 à 64 ans.
- 4 Non compris les conscrits.
- 5 Enquête auprès des établissements, relative au travail.
- 6 Main d'oeuvre civile occupée. (Slovaquie : Non compris les personnes en congé parental.)
- 7 Non compris les forces armées.
- 8 Personnes âgées de 14 ans et plus.
- 9 Personnes âgées de 12 ans et plus.
- 10 Personnes âgées de 15 à 66 ans.
- 11 Personnes âgées de 15 à 74 ans.
- 12 Y compris les militaires de carrière; non compris les militaires du contingent.
- 13 Les personnes qui occupent plus d'un emploi sont comptées dans chaque établissement.
- 14 Non compris les personnes en congé parental mais y compris les conscrits.
- 15 Personnes âgées de 16 à 74 ans.
- 16 Y compris les résidents de Jérusalem-Est.
- 17 Non compris les militaires du contingent.
- 18 Fichiers des assurances.
- 19 A compter de 2006, estimations obtenues à partir des projections de la population basées sur le recensement de 2000.
- 20 Non compris Kosovo.
- 21 Estimations officielles.
- 22 Personnes âgées de 15 à 65 ans.
- 23 Personnes âgées de 16 ans et plus.

Paid employment in manufacturing

Thousands [cont.]

Emploi rémunéré dans les industries manufacturières

En milliers [suite]

Source:

International Labour Office (ILO), Geneva, Bureau of Statistics Database.

Note:

The series cover, in general, salaried employees and wage earners and refer to the total number at work at a specified date in each month or quarter. For certain countries, however, the data refer to the average number employed in the period. For a few countries, very small establishments are excluded.

- 1 Labour force survey.
- 2 Persons aged 15 years and over.
- 3 Persons aged 15 to 64 years. (Belgium: excluding conscripts.)
- 4 Labour-related establishment survey.
- 5 Civilian labour force. (Guam: multiple job holders are counted at each establishment; Slovakia: excluding persons on child-care leave.)
- 6 Persons aged 14 years and over.
- 7 Persons aged 12 years and over.
- 8 Persons aged 15 to 66 years.
- 9 Persons aged 15 to 74 years.
- 10 Including professional army; excluding compulsory military service. (Latvia: excluding compulsory military service; Sweden: including professional army.)
- 11 Excluding persons on child-care leave but including conscripts.
- 12 Persons aged 16 to 74 years.
- 13 Including mining and quarrying.
- 14 Beginning 2009, including the residents of East Jerusalem.
- 15 Insurance records.
- 16 Metropolitan Lima.
- 17 Beginning 2006, estimates obtained from the 2000 Census-based Population Projections.
- 18 Excluding Kosovo.
- 19 Official estimates.
- 20 Persons aged 16 years and over.
- 21 Persons aged 10 years and over.
- 22 Excluding Northern and Eastern provinces.
- 23 Persons aged 16 to 64 years.
- 24 Including repair and installation services.
- 25 Persons aged 13 years and over.
- 26 Methodology revised; data not strictly comparable.

Source :

Bureau International du Travail (BIT), Genève, la base de données du Bureau de statistique.

Note :

Les séries portent, en générale, sur les employés et ouvriers et se réfèrent à l'effectif total de la main-d'oeuvre active à une date déterminée du mois ou du trimestre. Toutefois, en ce qui concerne certains pays, les données portent sur le nombre moyen des salariés employés pendant la période. Non compris, pour quelques pays, les très petits établissements.

- 1 Enquête sur la main-d'oeuvre.
- 2 Personnes âgées de 15 ans et plus.
- 3 Personnes âgées de 15 à 64 ans. (Belgique : non compris les conscrits.)
- 4 Enquête auprès des établissements, relative au travail.
- 5 Main d'oeuvre civile occupée. (Guam : les personnes qui occupent plus d'un emploi sont comptées dans chaque établissement ; Slovaquie : Non compris les personnes en congé parental.)
- 6 Personnes âgées de 14 ans et plus.
- 7 Personnes âgées de 12 ans et plus.
- 8 Personnes âgées de 15 à 66 ans.
- 9 Personnes âgées de 15 à 74 ans.
- 10 Y compris les militaires de carrière; non compris les militaires du contingent (Lettonie : non compris les militaires du contingent ; Suède : y compris les militaires.)
- 11 Non compris les personnes en congé parental mais y compris les conscrits.
- 12 Personnes âgées de 16 à 74 ans.
- 13 Y compris les mines et les carrières.
- 14 A compter de 2009, y compris les résidents de Jérusalem-Est.
- 15 Fichiers des assurances.
- 16 Lima métropolitaine.
- 17 A compter de 2006, estimations obtenues à partir des projections de la population basées sur le recensement de 2000.
- 18 Non compris Kosovo.
- 19 Estimations officielles.
- 20 Personnes âgées de 16 ans et plus.
- 21 Personnes âgées de 10 et plus.
- 22 Non compris les provinces du Nord et de l'Est.
- 23 Personnes âgées de 16 à 64 ans.
- 24 Y compris les services de réparation et d'installation.
- 25 Personnes âgées de 13 ans et plus.
- 26 Méthodologie révisée ; les données ne sont pas strictement comparables.

11 Personnes âgées de 16 à 74 ans.

12 Y compris les personnes qui n'ont pas travaillé dans le pays pendant les douze mois précédents.

13 Y compris les résidents de Jérusalem-Est.

14 Personnes âgées de 16 à 64 ans.

15 Personnes âgées de 16 à 61 ans.

16 Non compris Rodrigues.

17 Rive occidentale et bande de Gaza.

18 A compter de 2006, estimations obtenues à partir des projections de la population basées sur le recensement de 2000.

19 Personnes âgées de 15 à 72 ans.

20 Non compris Kosovo.

21 Non compris les personnes en congé parental.

22 Personnes âgées de 15 à 65 ans.

23 Personnes âgées de 13 ans et plus.

24 Demandeurs âgés de 15 à 70 ans.

25 Demandeurs auprès des bureaux de prestations de chômage, non compris les personnes temporairement débauchées.

## Technical notes: tables 9, 11 and 12

*Table 9:* Non-agricultural activities include mining and quarrying; manufacturing; electricity, gas and water; construction; wholesale and retail trade, restaurants and hotels; transport, storage and communication; financing, insurance, real estate and business services; community, social and personal services; activities not adequately defined.

*Table 11:* Unemployment generally represents the total number of persons wholly unemployed and temporarily laid-off. The data are derived from (A) labour force sample surveys, (B) employment office statistics and (C) official estimates. In using these series, consideration should be given to the source of the data. In general, the figures relating to percentage unemployed are calculated by expressing the number of unemployed in a given period as a percentage of the total number of employed and unemployed persons in the group considered during the same period.

*Table 12:* Earnings in manufacturing generally relate to the average earnings of wage earners in manufacturing industries. Earnings normally include bonuses, cost of living allowances, taxes, social insurance contributions payable by the employed person and, in some cases, payments in kind, and normally exclude social insurance contributions payable by the employers, family allowances and other social security benefits. The time of year to which the figures refer is not the same for all countries. Unless otherwise stated, the series relate to wage earners of both sexes, irrespective of age.

Some of the series do not conform to the above for one or more of the following reasons: inclusion of salaried employees, inclusion of non-manufacturing industries and use of wage rates, instead of earnings.

For further details, see International Labour Office *Yearbook of Labour Statistics*.

## Notes techniques : tableaux 9, 11 et 12

*Tableau 9 :* Activités non agricoles comprend industries extractives; industries manufacturières; électricité, gaz et eau; construction; commerce de gros et de détail, restaurants et hôtels; transports, entrepôts et communication, banques, assurances, affaires immobilières et services aux entreprises; services à la collectivité, services sociaux et personnels; activités mal désignées.

*Tableau 11 :* Le chômage représente, en général, le nombre total des chômeurs et des personnes temporairement débauchées et proviennent (A) des enquêtes par sondage de la main-d'œuvre, (B) des statistiques des bureaux de placement et (C) des estimations officielles. En employant ces séries, il faut tenir compte de la source des données. En général, pour établir les pourcentages de chômage, on calcule le rapport entre le nombre des ouvriers en chômage pour un groupe donné, pendant une certaine période, et l'effectif total des personnes employées et des chômeurs dans ce groupe, pendant la même période.

*Tableau 12 :* Gains dans les industries manufacturières se rapportent en général aux gains moyens des ouvriers dans les industries manufacturières. Les gains comprennent normalement les primes, les allocations de vie chère, les impôts, les contributions des ouvriers au fonds d'assurance sociale et dans certains cas, les paiements en nature, ils excluent normalement les contributions des employeurs au fonds d'assurance sociale, les allocations familiales et autres prestations de la sécurité sociale. La période de l'année correspondant aux données varie d'un pays à l'autre. Sauf indication contraire, les séries se rapportent aux salaires de l'ensemble des deux sexes, considéré quel que soit leur âge.

Certaines de ces séries s'écartent des normes indiquées ci-dessus pour l'une ou les raisons suivantes : l'inclusion des employés, l'inclusion d'industries autres que manufacturières et l'emploi, dans les calculs, de taux de rémunération au lieu de gains.

Pour plus amples détails, voir l'*Annuaire des Statistiques du Travail* publié par le Bureau International du Travail.

Source:

United Nations Statistics Division, Monthly Bulletin of Statistics questionnaire, supplemented by international and national publications.

Note:

The data relate to all grades of anthracite and bituminous coal, and exclude lignite and sub-bituminous coal unless otherwise specified.

1 Bituminous coal. Sub-bituminous coal is included in data for lignite.

2 Including lignite and waste.

3 Including lignite.

4 Including slurries.

Source :

Division de statistique des Nations Unies, Questionnaire du Bulletin mensuel de statistique, et publications internationales et nationales.

Note :

Les données se rapportent à toutes les qualités d'anthracite et de charbon bitumineux et ne comprennent pas le lignite et le charbon sous-bitumineux sauf indication contraire.

1 Charbon bitumineux. Charbon sousbitumineux est compris avec les données du lignite.

2 Y compris le lignite et les déchets.

3 Y compris la lignite.

4 Y compris les schlammes.

Source:

United Nations Statistics Division, Monthly Bulletin of Statistics questionnaire, supplemented by international and national publications.

- Including natural gas liquids.
- Data include petroleum from tar sands (synthetic crude petroleum).
- Including Neutral Zone on share basis.
- Sabah and Sarawak only.
- Field condensates only.

Source :

Division de statistique des Nations Unies, Questionnaire du Bulletin mensuel de statistique, et publications internationales et nationales.

- Y compris les condensants provenant de gaz naturels.
- Les données comprennent le pétrole brut des sables bitumineux (pétrole brut synthétique).
- Y compris la production de la Zone Neutre au pro-rata.
- Sabah et Sarawak seulement.
- Condensats obtenus des champs seulement.

Source:

United Nations Statistics Division, Monthly Bulletin of Statistics questionnaire, supplemented by international and national publications.

Note: The data relate to net production of natural gas.

- 1 Monthly data include shrinkage.
- 2 Monthly data include gas re-injected.
- 3 Monthly data include wasted gas.

Source :

Division de statistique des Nations Unies, Questionnaire du Bulletin mensuel de statistique, et publications internationales et nationales.

Note : Les données se rapportent à la production nette du gaz naturel.

- 1 Données mensuelles : y compris perte en contraction.
- 2 Données mensuelles : y compris le gaz réinjecté.
- 3 Données mensuelles : y compris le gaz perdu.

## Source:

United Nations Statistics Division, Monthly Bulletin of Statistics questionnaire, supplemented by international and national publications.

## Note:

## Codes:

P = Gross production by enterprises whose main purpose is the generation of electric energy for public use; I+P = Total gross generation of electricity, including generation by industrial establishments generating primarily for own use.

- 1 Net production.
- 2 For government controlled areas.
- 3 Public utilities only (Japan, Mexico and USA: monthly data only).
- 4 Peninsular Malaysia only.
- 5 Industrial production nil or negligible.
- 6 Monthly data: net production except "Hydro" which is gross.

## Source :

Division de statistique des Nations Unies, Questionnaire du Bulletin mensuel de statistique, et publications internationales et nationales.

## Note :

## Codes :

P = Production brute des centrales dont le but essentiel est la production de l'énergie électrique pour les réseaux publics ; I + P = Production brute totale d'électricité, y compris la production des entreprises industrielles qui produisent de l'énergie surtout pour leur propre usage.

- 1 Production nette.
- 2 Pour les zones contrôlées par le gouvernement.
- 3 Secteurs publics seulement (Japon, Mexique et les États-Unis : chiffres mensuels seulement).
- 4 Malaisie péninsulaire seulement.
- 5 Production industrielle nulle ou négligeable.
- 6 Chiffres mensuels, production nette sauf "Hydro" dont la production est brute.

## Technical notes: tables 13-16, 18 and 19

*Table 13:* The data relate to all grades of anthracite and bituminous coal and exclude lignite and sub-bituminous coal unless otherwise specified.

*Table 14:* Data relate to lignite and brown coal.

*Table 15:* Data exclude natural gas liquids. For some countries, original data expressed in units of capacity or volume have been converted to metric tons by use of the average specific gravities shown in the column headings. Data in thousands of cubic metres can be derived by dividing the figures shown in the table by the appropriate specific gravity. These volume data, in turn, can be converted into thousands of barrels by multiplication by a factor of 6.2898. Further information may be found in the *Energy Statistics Yearbook* (Statistical Papers, Series J), United Nations.

*Table 16:* Data relate as far as possible, to net production of natural gas.

*Tables 18 and 19:* Fuels are here defined to comprise all products in section 3 of the SITC.

These products are: coal, coke and briquettes, petroleum, petroleum products and related materials, gas and electric current.

The unit value indices are obtained from national sources, except those of a few countries which the United Nations Statistics Division compiles using their quantity and value figures.

For countries that do not compile indices for fuel imports conforming to the above definition, sub-indices are aggregated to approximate an index of SITC section 3.

Unit value indices obtained from national indices are rebased, where necessary, so that 2000=100. Indices in national currency are converted into U.S. dollars using conversion factors obtained by dividing the weighted average exchange rate of a given currency in the current period by the weighted average exchange rate in the base period. All aggregate unit value indices are current period weighted.

The volume indices are derived from the value data and the unit value indices. All aggregate volume indices are base period weighted.

The figures in table 19 are calculated from those prepared for tables 18 and 38.

## Notes techniques : tableaux 13 à 16, 18 et 19

*Tableau 13 :* Les données se rapportent à toutes les qualités d'anthracite et de charbon bitumineux et ne comprennent pas le lignite et le charbon sous-bitumineux sauf indication contraire.

*Tableau 14 :* Les données se rapportent au lignite et au charbon brun.

*Tableau 15 :* Les données ne comprennent pas les condensats du gaz naturel. Pour certain pays, les données originales exprimées en unités de capacité ou de volume ont été converties en tonnes métriques à l'aide de la densité indiquée dans l'en-tête. Pour exprimer les données en milliers de mètres cubes, il suffit de diviser les chiffres qui figurent dans le tableau par le poids spécifique indiqué. On peut ensuite convertir les mètres cubes en barils en multipliant par 6.2898. Pour plus de détails, voir l'*Annuaire des statistiques de l'énergie* (Statistical Papers, Series J), Nations Unies.

*Tableau 16 :* Les données se rapportent, autant que possible, à la production nette du gaz naturel.

*Tableaux 18 et 19 :* Les produits énergétiques comprennent tous les produits appartenant à la section 3 de la CTCI.

Ces produits sont : huiles, cokes et briquettes, pétrole, produits dérivés du pétrole et produits connexes, gaz et énergie électrique.

Les indices de la valeur unitaire sont obtenus de sources nationales, à l'exception de quelque pays pour lesquels la Division de Statistique des Nations Unies calcule ces indices en utilisant les chiffres de la valeur et du volume fournis par ces pays.

Pour les pays ne calculant pas leurs indices des importations des produits énergétiques selon la définition décrite ci-dessus les sous-indices sont agrégés en un indice qui se rapproche des la section 3 de la CTCI.

Les indices en monnaie nationale sont convertis en dollars des E.-U. en les multipliant par un facteur de conversion obtenu en divisant le taux de change courant, moyenne pondérés, d'une monnaie donnée par celui de la période de base. Tous les agrégés des indices de la valeur unitaire, sont à coefficients de pondération correspondant à la période indiquée.

Les indices du volume sont calculés à partir de chiffres de la valeur et les indices de la valeur unitaire. Tous les agrégés des indices du volume sont à coefficients de pondération correspondant à la période en base.

Les chiffres dans le tableau 19 sont calculés selon des données préparées pour les tableaux 18 et 38.

Source:

United Nations Statistics Division, Monthly Bulletin of Statistics questionnaire, supplemented by international and national publications.

Note:

Data relate to the gross weight of marketable iron ores in the state in which they leave the mine, including maganiferous iron ores but excluding pyrites. The actual iron content may vary somewhat from period to period.

1 Shipments.

Source :

Division de statistique des Nations Unies, Questionnaire du Bulletin mensuel de statistique, et publications internationales et nationales.

Note :

Les données représentent le poids brut des minerais de fer vendables dans l'état dans lequel ils quittent la mine, y compris les minerais de fer manganésifères, mais non compris les pyrites. Le contenu en métal peut varier légèrement d'une année à l'autre.

1 Expéditions.

Source:  
United Nations Statistics Division, Monthly Bulletin of Statistics  
questionnaire, supplemented by international and national publications.

Note:  
Figures for annual averages are derived from reported monthly data and from  
data reported for the Industrial Commodity Statistics Yearbook.

- 1 Including informal production.
- 2 Annual figures: average of 12 months ending 30 June of the year stated.
- 3 Including flour from other grains.
- 4 Annual figures: average of 12 months beginning 1 July of the year stated.

Source :  
Division de statistique des Nations Unies, Questionnaire du Bulletin  
mensuel de statistique, et publications internationales et nationales.

Note :  
Les chiffres des moyennes annuelles sont calculés à partir des chiffres  
communiqués pour les données mensuelles et pour l'Annuaire  
des statistiques industrielles par produit.

- 1 Y compris la production à partir du secteur non structuré.
- 2 Chiffres annuels : moyennes de douze mois finissant le 30 juin  
de l'année indiquée.
- 3 Y compris la farine d'autres grains.
- 4 Chiffres annuels : moyennes de douze mois commençant  
le 1 juillet de l'année indiquée.

United Nations Statistics Division, Monthly Bulletin of Statistics questionnaire, supplemented by international and national publications.

Note:

Figures for annual averages are derived from reported monthly data and from data reported for the Industrial Commodity Statistics Yearbook.

1 Annual figures: average of 12 months ending 30 June of the year stated.

2 Annual figures: average of 12 months beginning 1 July of the year stated.

Source :

Division de statistique des Nations Unies, Questionnaire du Bulletin mensuel de statistique, et publications internationales et nationales.

Note :

Les chiffres des moyennes annuelles sont calculés à partir des chiffres communiqués pour les données mensuelles et pour l'Annuaire des statistiques industrielles par produit.

1 Chiffres annuels : moyennes de douze mois finissant le 30 juin de l'année indiquée.

2 Chiffres annuels : moyennes de douze mois commençant le 1 juillet de l'année indiquée.

United Nations Statistics Division, Monthly Bulletin of Statistics questionnaire, supplemented by international and national publications.

Note:

Figures for annual averages are derived from reported monthly data and from data reported for the Industrial Commodity Statistics Yearbook.

- 1 After undergoing finishing processes.
- 2 Woven cotton fabrics with less than 200 g/m<sup>2</sup> weight only.
- 3 Including finished fabrics.
- 4 Mill production only.
- 5 Annual figures: average of 12 months beginning 1 July of the year stated.
- 6 Annual figures: average of 12 months ending 30 June of the year stated.

Source :

Division de statistique des Nations Unies, Questionnaire du Bulletin mensuel de statistique, et publications internationales et nationales.

Note :

Les chiffres des moyennes annuelles sont calculés à partir des chiffres communiqués pour les données mensuelles et pour l'Annuaire des statistiques industrielles par produit.

- 1 Après les opérations de finissage.
- 2 Tissus de coton d'un poids n'excédant pas 200 g/m<sup>2</sup>.
- 3 Y compris les tissus finis.
- 4 Production des usines seulement.
- 5 Chiffres annuels : moyennes de douze mois commençant le 1 juillet de l'année indiquée.
- 6 Chiffres annuels : moyennes de douze mois finissant le 30 juin de l'année indiquée.

United Nations Statistics Division, Monthly Bulletin of Statistics questionnaire, supplemented by international and national publications.

Note:

A=Passenger cars: motor vehicles usable as cars seating not more than nine persons, excluding motorcycles; B=Commercial vehicles: light and heavy lorries (trucks), buses, delivery vans, special vehicles, wheeled tractor units for road haulage and trailer combinations. Vehicles operating off the road (industrial and farm tractors), and other construction machinery are excluded.

1 Including assembly.

2 The data prior to 2006 refer to Serbia and Montenegro.

3 Factory sales.

Division de statistique des Nations Unies, Questionnaire du Bulletin mensuel de statistique, et publications internationales et nationales.

Note :

A=Voitures de tourisme : véhicules à moteur utilisés comme voitures avec une capacité inférieure à dix personnes, non compris les motocyclettes; B=Véhicules utilitaires : camions légers et lourds, autobus, fourgons de livraison, véhicules spéciaux, tracteurs à roues pour les transports routiers et remorques combinées. Non compris les véhicules utilisés ailleurs que sur les routes (tracteurs industriels et agricoles) et autres machineries de construction.

1 Y compris le montage.

2 Les données présentées pour la période avant de 2006, se rapportent à la Serbie-et-Monténégro.

3 Ventes par les usines.

## Technical notes: tables 21-28

*Table 21:* The data refer to sifted (bolted) flours from soft and hard wheat, and from spelt. Bran and offal, wheat groats, meal, and flours obtained by milling cereals other than wheat, are excluded.

*Table 22:* Unless otherwise stated, data relate to total production, in blast and electric furnaces, of pig-iron.

*Table 23:* Unless otherwise stated, data refer to total production of ingots and steel for casting. Wrought (puddled) iron is excluded.

*Table 24:* The data refer to the total weight of cotton yarn, and yarn spun from cotton waste made for sale, on commission, or for further processing. Unless otherwise stated, tire cord yard is not included.

*Table 25:* The data refer to woven cotton fabrics and mixed cotton fabrics before undergoing finishing processes such as bleaching, dyeing, etc.

*Table 26:* The data refer to the production of bleached, unsized or slack-sized printed paper, without coating, of the type usually used for newspaper, weight from 45 to 60 gr. per square metre, usually with at least 70% of the weight of fibrous material derived from mechanical pulp.

*Table 27:* Unless otherwise stated, data do not cover tires for vehicles operating off the road, motorcycles, bicycles and animal-drawn road vehicles. Data also exclude the production of inner tubes.

*Table 28:* Vehicles built on imported chassis or assembled from imported parts are excluded.

## Notes techniques : tableaux 21 à 28

*Tableau 21 :* Les données représentent la farine blutée (tamisée) de blé tendre et blé dur et de l'épeautre. Le son et les autres résidus de la mouture, ainsi que le gruau de froment et les semoules, et farines obtenues par la mouture de céréales autres que le blé, ne sont pas compris.

*Tableau 22 :* Sauf indication contraire, les données se rapportent à la production de fonte dans les hauts fourneaux et les fours électriques.

*Tableau 23 :* Sauf indication contraire, les données se rapportent à la production totale de lingots et moulage bruts. Le fer puddlé n'est pas compris.

*Tableau 24 :* Les données représentent le poids total de filés de coton et ceux provenant des déchets de coton, produits pour la vente directe du travail à façon, ou pour une transformation ultérieure. Sauf indication contraire, les filés pour armatures de pneumatiques ne sont pas compris.

*Tableau 25 :* Les données se rapportent aux tissus de coton et les tissus de coton mélangés, avant d'être soumis aux opérations de finissage telles que blanchiment, teinture, etc.

*Tableau 26 :* Les données se rapportent à la production de papier d'impression, blanchi, non collé ou peu encollé, non couché, du type ordinaire utilisé pour les journaux, poids de 45 à 60 gr. au mètre carré, contenant généralement au moins 70% en poids de matière fibreuse tirée de la pâte mécanique.

*Tableau 27 :* Sauf indication contraire, les données ne correspondent pas aux pneus pour véhicules tous terrains ni aux pneus pour motocyclettes, bicyclettes et véhicules routiers à traction animale. Les données ne comprennent pas non plus production de chambres à air.

*Tableau 28 :* Les véhicules construits sur chassis importés ou montés à l'aide de pièces importées ne sont pas compris.

International maritime transport

Freight loaded, unloaded: Thousand metric tons *[cont.]*

Transports maritimes internationaux

Marchandises embarquées, débarquées en milliers de tonnes *[suite]*

Source:

United Nations Statistics Division, Monthly Bulletin of Statistics questionnaire, supplemented by international and national publications

Source :

Division de statistique des Nations Unies, Questionnaire du Bulletin mensuel de statistique, et publications internationales et nationales.

Note:

Codes:

- A. Freight loaded.
- B. Freight unloaded.

- 1 Excluding re-exports.
- 2 Excluding packing.
- 3 Figures refer to the waterborne cargo statistics. Transport by water includes transport by ocean and by river.
- 4 Containerized cargoes only.
- 5 For government controlled areas.
- 6 Including coastwise traffic.
- 7 Excluding petroleum.
- 8 Peninsular Malaysia only.
- 9 Including transshipments.
- 10 Excluding transit traffic (other than Swedish ores) packing and re-export.
- 11 Data are for Canal Zone only.
- 12 Traffic from Atlantic to Pacific.
- 13 Traffic from Pacific to Atlantic.

Note :

Codes :

- A. Marchandises embarquées.
- B. Marchandises débarquées.

- 1 Non compris les re-exportsations.
- 2 Non compris l'emballage.
- 3 Les données se rapportent à des cargaisons transportées par voie d'eau. Le transport par voie d'eau inclut le transport dans les océans, fleuves ou rivières.
- 4 Chargement conteneurisé seulement.
- 5 Pour les zones contrôlées par le gouvernement.
- 6 Y compris le cabotage.
- 7 Non compris le pétrole.
- 8 Malaisie péninsulaire seulement.
- 9 Y compris les transbordements.
- 10 Non compris le trafic de transit (autrement que les minerais de fer suédois) emballage et re-exportsations.
- 11 Chiffres de Zone du Canal seulement.
- 12 Trafic de l'Atlantique au Pacifique.
- 13 Trafic du Pacifique à l'Atlantique.

Civil aviation traffic

Passenger-kilometres: Millions; cargo net tonne-kilometres: Thousands *[cont.]*

Trafic de l'aviation civile

Voyageurs-kilomètres : en millions et fret tonnes-kilomètres nettes : en milliers *[suite]*

Source:

International Civil Aviation Organization (ICAO), Montreal, The ICAO Integrated Statistical Database.

Note:

Revenue scheduled traffic of airline(s) registered in that country, for which remuneration is received and which is carried on flights performed according to a published timetable.

- 1 Aerosur, Amazonas, LAB only. Beginning March 2007, Amazonas only.
- 2 Imtrec Aviation for March through August only.
- 3 Air Canada only.
- 4 For government controlled areas.
- 5 Including SAS international and domestic traffic.
- 6 Beginning 2006, SAS only.
- 7 Air Hong Kong for August, September and October only.

Source:

Organisation de l'Aviation civile internationale (OACI), Montréal, base de données intégré de statistique de l'OACI.

Note:

Les chiffres concernent le trafic payant des services réguliers des entreprises de transport aérien immatriculées dans le pays. On entend par trafic régulier payant le trafic assuré contre rémunération au moyen de vols effectués selon un horaire publié.

- 1 Aerosur, Amazonas, LAB seulement. A partir de mars 2007, Amazonas seulement.
- 2 Imtrec Aviation de mars à août seulement.
- 3 Air Canada seulement.
- 4 Pour les zones contrôlées par le gouvernement.
- 5 Y compris le trafic international et domestique de SAS.
- 6 A partir de 2006, SAS seulement.
- 7 Air Hong Kong pour les mois d'août, septembre et octobre seulement.

## Technical notes: tables 29 and 30

*Table 29:* Unless otherwise stated, the figures represent the weight of all goods (including packing) and livestock in external trade loaded on and unloaded from sea-going vessels of all flags at the ports of the country in question. (A vessel is said to be sea-going if part at least of its voyage, while carrying the goods in question, is by sea). The goods excluded are: mail, bullion, specie, passengers' baggage, bunkers, ships' stores, ballast, ships and other floating appliances when delivered as goods without being loaded on other ships, government stores when carried in government vessels, and goods trans-shipped from an importing vessel to an exporting vessel. Goods unloaded into or loaded from bonded warehouses are included.

*Table 30:* Passenger cars cover road motor vehicles designed for the conveyance of passengers and seating not more than nine persons. Taxis, jeep-type vehicles and station wagons are included.

Commercial vehicles cover buses seating more than nine persons and lorries (trucks) having their own motive power. Road tractors and semi-trailer combinations are included. Trailers without motive power and farm tractors are excluded.

## Notes techniques : tableaux 29 et 30

*Tableau 29 :* Sauf indication contraire, les données représentent le poids (emballage compris) de l'ensemble des marchandises (y compris bétail sur pied) embarquées ou débarquées au titre du commerce extérieur par des navires de haute mer sous tous pavillons dans les ports du pays considéré (un navire est dit de haute mer si une partie au moins de son voyage, pendant qu'il assure le transport des marchandises, se fait par mer). Sont exclus : courrier, or et argent en lingots, espèces, bagages des passagers, contenu des soutes, provisions de bord, lest, bateaux et autres engins flottants livrés en tant que marchandises sans être chargés sur navire, approvisionnements du gouvernement lorsqu'ils sont transportés à bord de navires de l'Etat ou gratuitement à bord de navires de la marine marchande, marchandises transbordées d'un navire importateur à un navire exportateur. Les marchandises en provenance ou à destination d'un entrepôt en douane sont comprises.

*Tableau 30 :* Voitures de tourisme comprennent les véhicules automobiles destinés au transport des personnes et ayant moins de dix places. Y compris les taxis, les jeeps et autres véhicules analogues et les "station wagons".

Véhicules utilitaires comprennent autobus ayant plus de neuf places pour passagers et les camions équipés d'un moteur. Y compris les ensembles tracteur-remorque et semi-remorque. Les données ne comprennent ni les remorques sans moteur destinées à être attelées à un autobus, à un camion ou à un tracteur ni les tracteurs agricoles.

United Nations Statistics Division, Monthly Bulletin of Statistics questionnaire, supplemented by international and national publications.

Note:

Figures for annual averages are derived from reported monthly data and from data reported for the Industrial Commodity Statistics Yearbook.

- 1 Annual figures: average of 12 months ending 30 June of the year stated
- 2 For government controlled areas.
- 3 Annual figures: average of 12 months beginning 1 July of the year stated

Source :

Division de statistique des Nations Unies, Questionnaire du Bulletin mensuel de statistique, et publications internationales et nationales.

Note :

Les chiffres des moyennes annuelles sont calculés à partir des chiffres communiqués pour les données mensuelles et pour l'Annuaire des statistiques industrielles par produit.

- 1 Chiffres annuels : moyennes de douze mois finissant le 30 juin de l'année indiquée.
- 2 Pour les zones contrôlées par le gouvernement.
- 3 Chiffres annuels : moyennes de douze mois commençant le 1 juillet de l'année indiquée.

| <p>1 In November 2008, extrapolated figures for re-exports of Japan were replaced with actual data for the years 1999-2007 which lead to an increase of exports and imports on world level by 17 billion in 2004, 35 billion in 2005, 62 billion in 2006 and 103 billion in 2007.</p> <p>2 In February 2008, the regional total for South-eastern Asia and the World total have been revised upwards very significantly for 2006 and the first three quarters of 2007 due to a correction of estimated data (re-exports) used in the calculation of these totals.</p> <p>3 In April 2006, regional totals have been revised downwards due to the additional identification of re-exports, in particular for Singapore and Italy.</p> <p>4 Developed Economies of America, Europe, and the Asia-Pacific region.</p> <p>5 This classification is intended for statistical convenience and does not, necessarily, express a judgement about the stage reached by a particular country in the development process.</p> <p>6 Data exclude re-exports.</p> <p>7 Imports FOB.</p> <p>8 Including the trade of the U.S. Virgin Islands and Puerto Rico but excluding shipments of merchandise between the United States and its other possessions (Guam and American Samoa). Data include imports and exports of non-monetary gold.</p> <p>9 Beginning 2006, data for Serbia and Montenegro is reported separately.</p> <p>10 Imports exclude petroleum imported without stated value. Exports cover domestic exports.</p> | <p>1 En novembre 2008, les statistiques de re-exportations du Japon, jusque la estimées ont été mises à jour avec des données actuelles pour 1999-2007. Ceci a conduit à une augmentation des exportations et importations mondiales de 17 milliards en 2004, 35 milliards en 2005, 62 milliards en 2006 and 103 milliards en 2007.</p> <p>2 En février 2008, le total régional de l'Asie du sud-est et le total du monde ont été révisés vers le haut très significativement pour l'année 2006 et les premiers trois trimestres de l'année 2007 à cause d'une correction des données estimées (des ré-exportations) qui sont utilisées dans ces totaux.</p> <p>3 En avril 2006, les totaux régionaux ont été diminués à cause d'une identification additionnelle des re-exportations, en particulier celles du Singapour et de l'Italie.</p> <p>4 Économies développées de l'Amérique, de l'Europe, et de la région Asie-Pacifique.</p> <p>5 Cette classification est utilisée pour plus de commodité dans la présentation des statistiques et n'implique pas nécessairement un jugement quant au stade de développement auquel est parvenu un pays donné.</p> <p>6 Les données non compris les réexportations.</p> <p>7 Importations FOB.</p> <p>8 Y compris le commerce des Iles Vierges américaines et de Porto Rico mais non compris les échanges de marchandise, entre les États-Unis et leurs autres possessions (Guam et Samoa américaines). Les données comprennent les importations et exportations d'or non-monnaire.</p> <p>9 Depuis début 2006, les données relatives à la Serbie et au Montenegro sont déclarées séparément.</p> <p>10 Non compris le pétrole brute dont la valeur des importations ne sont pas stipulée. Les exportations sont les exportations d'intérieur.</p> |

|--|--|
| <p>11 Exports include gold.</p> <p>12 Beginning in January 1998, foreign trade data refer to South Africa only, excluding intra-trade of the Southern African Common Customs Area. Prior to January 1998, trade data refer to the Southern African Common Customs Area, which includes Botswana, Lesotho, Namibia, South Africa and Swaziland.</p> <p>13 Trade statistics exclude certain oil and chemical products.</p> <p>14 Export and import values exclude trade in the processing zone.</p> <p>15 Trade data include maquiladoras and exclude goods from customs-bonded warehouses. Total exports include revaluation and exports of silver.</p> <p>16 Exports include re-exports and petroleum products.</p> <p>17 Excluding military goods, fissionable materials, bunkers, ships, and aircraft.</p> <p>18 Year ending 20 March of the year stated.</p> <p>19 Data include oil and gas. The value of oil exports and total exports are rough estimates based on information published in various petroleum industry journals.</p> <p>20 Imports and exports net of returned goods. The figures also exclude Judea and Samaria and the Gaza area.</p> <p>21 Year ending 30 September of the years stated.</p> <p>22 Data refer to total exports less petroleum exports of Asia Middle East countries where petroleum, in this case, is the sum of SITC groups 333, 334 and 335.</p> <p>23 Excluding intra-EU trade.</p> | <p>11 Les exportations comprennent l'or.</p> <p>12 A compter de janvier 1998, les données sur le commerce extérieur ne se rapportent qu'à l'Afrique du Sud. et ne tiennent pas compte des échanges commerciaux entre les pays de l'Union douanière de l'Afrique du Sud. qui incluait l'Afrique du Sud, Botswana, Lesotho, Namibie, et Swaziland.</p> <p>13 Les statistiques commerciales font exclusion de certains produits pétroliers et chimiques.</p> <p>14 Les valeurs à l'exportation et à l'importation excluent le commerce de la zone de transformation.</p> <p>15 Les statistiques du commerce extérieur comprennent maquiladoras et ne comprennent pas les marchandises provenant des entrepôts en douane. Les exportations comprennent la réévaluation et les données sur les exportations d'argent.</p> <p>16 Exportations comprennent re-exportations et produits pétroliers.</p> <p>17 À l'exclusion des marchandises militaires, des matières fissibles, des soutes, des bateaux, et de l'avion.</p> <p>18 Année finissant le 20 mars de l'année indiquée.</p> <p>19 Les données comprennent le pétrole et le gaz. La valeur des exportations de pétrole et des exportations totales sont des évaluations grossières basées sur l'information publiée à divers journaux d'industrie de pétrole.</p> <p>20 Importations et exportations nets, ne comprenant pas les marchandises retournées. Sont également exclues les données de la Judée et de Samaria et ainsi que la zone de Gaza.</p> <p>21 Année finissant le 30 septembre de l'année indiquée.</p> <p>22 Les données se rapportent aux exportations totales moins les exportations pétrolières de moyen-orient d'Asie. Dans ce cas, le pétrole est la somme des groupes CTCI 333, 334 et 335.</p> <p>23 Non compris le commerce d'intra-UE.</p> |

Source:

United Nations Statistics Division, Monthly Bulletin of Statistics questionnaire, International Monetary Fund and national publications.

Note:

The volume and unit value/price indices are as compiled by countries. They show the changes in the volume (volume index) and the average price (unit value/price index) of total imports and exports. Using these indices, the United Nations Statistics Division calculates the terms of trade indices (export unit value/price indices divided by the corresponding import unit value/price indices), and the index of the purchasing power of exports (the terms of trade multiplied by the volume index of exports). Country footnotes which appear in Table 35 of this issue also apply to the country indices published in this table.

1. Price indices.
2. Index numbers exclude ships.
3. Excluding military goods.

Source:

Division de statistique des Nations Unies, Questionnaire du Bulletin mensuel de statistiques, Fonds monétaire international et publications nationales.

Note:

Les indices du volume et les indices de la valeur unitaire/prix sont comme compilées par les pays. Ils indiquent les variations des quantités (indice du volume) et des prix moyens (indice de la valeur unitaire/prix) des importations ou exportations totales. Utilisant ces indices la Division de Statistique des Nations Unies calcule les indices des termes de l'échange (sont obtenus en divisant les indices de la valeur unitaire à l'exportation par ceux à l'importation), et l'indice du pouvoir d'achat des exportations (sont obtenu en multipliant l'indice des termes de l'échange par l'indice du volume des exportations). Les notes se rapportant aux pays qui apparaissent dans le Tableau 35 de ce numéro s'appliquent aussi aux indices de ce tableau.

1. Indices des prix.
2. Les indices ne comprennent pas de navires.
3. Non compris les importations des produits militaires.

Division de Statistiques des Nations Unies, base de données pour les statistiques du commerce extérieur (COMTRADE).

1 La décomposition des régions géographiques par pays est disponible sur <http://mdgs.un.org/unsd/mdg/Host.aspx?Content=Data/RegionalGroupings.htm>

2 Cette classification est utilisée pour plus de commodité dans la présentation des statistiques et n'implique pas nécessairement un jugement quant au stade de développement auquel est parvenu un pays donné.

## Technical notes: tables 34-42

Tables 34 and 35 appear in each issue of the *Bulletin* showing current trade statistics by country, region and area. Other analytical trade data are presented quarterly, semi-annually and annually. These are listed in the table of contents, together with the issues in which each series appears.

*Value of imports and exports.* The descriptions given in the headings and footnotes to table 35 apply, unless otherwise stated, to table 34 as well. The regional totals of table 34 have been adjusted where necessary to approximate imports CIF and exports FOB in special trade, and to include countries not listed separately, and estimates where complete area data were not available. Balance of trade figures represent the difference of imports from exports.

*Price, unit value and volume indices.* Price index is a measure of the change in the value of exports/imports due to changes in prices of individual commodities. Unit value index reflects changes in the average prices of commodity groups. Volume index is a measure of the changes in the value of exports/imports which may be attributed to variations in the quantities of the individual commodities.

*General definitions.* Detailed general definitions conforming to the recommendations of the Economic and Social Council and its Statistical Commission define the series in tables 34 and 35.

*Territory.* The statistics reported by a country generally refer to the customs area; in most cases this coincides with the geographical area of a country.

*Systems of trade. Imports:* under the general trade system, both goods entering directly for domestic consumption and goods entered into customs storage are recorded, at the time of their first arrival, as imports; under the *special trade* system, goods are recorded as imports when declared for domestic consumption whether at time of entry or on withdrawal from customs storage.

*Exports:* outward moving goods consist of: (a) *national* goods i.e. those wholly or partly produced in the country; (b) *foreign* goods, neither transformed nor declared for domestic consumption in the country, which move outward from customs storage; (c) *nationalized* goods, i.e. foreign goods, declared for domestic consumption, which move outward without having been transformed. *General exports* comprise all three categories and, in the general trade system, the sum of (b) and (c) may be tabulated as re-exports. *Special exports* comprise categories (a) and (c). Direct transit trade, consisting of goods entering or leaving for transport purposes only, is excluded from both import and export statistics.

*Coverage of data.* In general, all inward moving goods, in the relevant administrative categories described above, are included if their movement adds to or subtracts from the material resources of the country compiling the statistics. Because their movement generally changes monetary rather than material resources, monetary gold together with currency and titles of ownership after their issue into circulation are excluded. Among the categories included where possible in the data are: ordinary commercial transactions, governmental transactions, foreign aid (governmental and private), trade of concessionaires and silver (except issued silver coin).

*Valuation.* It is usual for a country to base the valuation of its imports and exports on the values specified in contracts between importers and exporters adjusted to include transportation and related costs to its own frontier. This produces a CIF transaction value for imports and an FOB transaction value for exports. Where a country values its imports at the frontier of the exporting country, it is noted in the tables that import values are FOB.

## Notes techniques : tableaux 34 à 42

Les tableaux 34 et 35 contenant les statistiques de l'état du commerce par pays, par région, et par zone paraissent dans chaque numéro du *Bulletin*. D'autres statistiques détaillées du commerce sont publiées tous les trimestres, tous les semestres ou une fois par an. Elles sont mentionnées dans la table des matières, avec indication des numéros dans lesquels on trouve chacune de ces séries.

*Valeur des importations et des exportations.* Sauf indication contraire, les précisions données dans les en-têtes de colonne et les renvois du tableau 35 valent aussi pour les statistiques au tableau 34. Les totaux régionaux au tableau 34 ont été, le cas échéant, ajustés de façon à correspondre à peu près au commerce spécial d'importation (valeur CIF) et au commerce spécial d'exportation (valeur FOB); ils tiennent compte également des pays qui ne figurent pas dans la liste et comprennent des estimations dans le cas des régions pour lesquelles les données ne sont pas complètes. Les chiffres de la balance commerciale représentent la différence entre les exportations et les importations.

*Indices des prix, de la valeur unitaire et du volume.* L'indice des prix est une mesure du changement de valeur de des exportations/importations attribué aux fluctuations des prix des divers produits. L'indice de la valeur unitaire indique quelles sont les variations des prix moyens des groupes des produits. L'indice du volume est une mesure du changement de valeur des exportations/importations attribué aux fluctuations des quantités des divers produits.

*Définitions générales.* Pour les séries publiées dans les tableaux 34 et 35, il existe des définitions générales, détaillées qui sont conformes aux recommandations du Conseil économique et social et de sa Commission de statistique.

*Territoire.* Les statistiques rapportées par un pays s'appliquent en général au territoire douanier du pays qui coïncide, généralement, avec le territoire géographique.

*Système du commerce. Importations :* dans le système du commerce général à la fois les marchandises entrant directement pour la consommation nationale et les marchandises entrées dans les entrepôts des douanes sont enregistrées comme importations, au moment de leur première arrivée; dans le système du *commerce spécial*, les marchandises sont enregistrées comme importations lorsqu'elles sont déclarées pour la consommation nationale, soit au moment de leur entrée, soit lorsqu'elles sont retirées des entrepôts des douanes.

*Exportations :* les marchandises sortant consistent (a) en marchandises *nationales*, c'est-à-dire entièrement ou partiellement produites dans le pays; (b) en marchandises *étrangères*, ni transformées, ni déclarées pour la consommation nationale dans le pays, qui sortent des entrepôts des douanes; (c) en marchandises *nationalisées*, c'est-à-dire marchandises étrangères, déclarées pour la consommation nationale, qui sont exportées sans avoir été transformées. Les *exportations générales* comprennent les 3 catégories et, dans le système du commerce général, le total de (b) et (c) peut être enregistré comme réexportations. Les *exportations spéciales* comprennent les catégories (a) et (c). Le commerce de transit direct, consistant en marchandises entrées ou sorties pour des seuls buts de transport, n'est pas compris dans les statistiques d'importations et d'exportations.

*Portée des données.* En général, toutes les marchandises entrées ou sorties dans les catégories administratives appropriées décrites plus haut, sont comprises si leur mouvement s'ajoute aux ressources matérielles du pays établissant les statistiques ou s'en retranche. Vu que leur mouvement, en général, modifie plutôt les ressources monétaires que les ressources matérielles, l'or monétaire ainsi que les monnaies et titres de propriété

World imports and exports are the sum of imports and exports of Developed economies, Developing economies and Other. The regional totals for exports and imports have been adjusted to exclude the re-exports of countries or areas comprising each region. Estimates for certain countries or areas not shown separately as well as for those shown separately but for which no data are yet available are included in the regional and world totals. Regional totals containing estimated data are printed in bold italics.

Export and import values are derived by the United Nations Statistics Division (UNSD) from data published in national publications, or from data on the Monthly Bulletin of Statistics Questionnaires for the following countries: American Samoa, Andorra, Bermuda, Cayman Islands, Cook Islands, Cuba, Faeroe Islands, French Polynesia, Gibraltar, Greenland, Kiribati, Montenegro (beginning 2006), Netherland Antilles, New Caledonia, Occupied Palestinian Territory, Russian Federation (beginning 1994), Serbia and Montenegro (before 2006), Turkmenistan, Turks and Caicos and Tuvalu.

Export and import dollar values for all other countries are derived from data published by the International Monetary Fund (IMF) in the International Financial Statistics publication.

*Table 36:* The volume and unit value/price indices are as compiled by countries converted to U.S. dollars and reset to 2000 = 100. Using these indices, The United Nations Statistics Division calculates the terms of trade indices (export unit value/price indices divided by the corresponding import unit value/price indices), and the indices of the purchasing power of exports (the terms of trade multiplied by the volume index of exports). Country footnotes which appear in Table 35 of this issue also apply to the country indices published in this table.

*Table 37:* Trade Conversion Factors are weighted averages of exchange rates, the weights being the corresponding monthly or quarterly values of imports or exports. The exchange rates are the rates provided by the country concerned or compiled by the IMF.

*Table 38:* The purpose of this table is to provide indices of international trade by regions.

*Table 39:* Manufactured goods are here defined to comprise sections 5 through 8 of the Standard International Trade Classification (SITC).

These sections are: chemicals and related products, manufactured goods classified chiefly by material, machinery and transport equipment and miscellaneous manufactured articles.

The economic and geographic groupings in accordance with those of the international merchandise trade, table 34 in this issue, although table 34 includes more detailed geographic sub-groups which make up the groupings 'Other developed economies' and 'Developing economies' of this table.

In 2000 the exports of manufactured goods by all 'Developed' and 'Developing economies' accounted for approximately 97 per cent of world exports of manufactured goods.

The unit value indices are obtained from national sources.

For countries that do not compile indices for manufactured goods export conforming to the above definition, sub-indices are aggregated to approximate an index of SITC sections 5-8.

Unit value indices obtained from national indices are rebased, where necessary, so that 2000=100. Indices in national currency are converted into U.S. dollars using conversion factors obtained by dividing the current weighted average exchange rate by the weighted average exchange rate in the base period. All aggregate unit value indices are current period weighted.

The indices in SDRs are calculated by multiplying the equivalent

après leur mise en circulation sont exclus. Parmi les catégories incluses, si possible, dans les données figurent : transactions commerciales ordinaires, transactions gouvernementales, aide de l'étranger et à l'étranger (gouvernementale et privée), commerce des concessionnaires, argent (excepté pièces de monnaie émises).

*Evaluation.* En général, les pays basent l'évaluation de leurs importations ou de leurs exportations sur les valeurs spécifiées dans les contrats entre importateurs et exportateurs et ajustées pour tenir compte des frais de transport et autres frais connexes jusqu'à leurs propres frontières. Le résultat est une valeur de transaction CIF pour les importations et une valeur de transaction FOB pour les exportations. Lorsqu'un pays évalue ses importations à la frontière du pays exportateur, les tableaux indiquent que les valeurs des importations sont FOB.

Les importations et les exportations totales pour le monde se composent des importations et exportations des Economies développées, des Economies en voie de développement et des Autres. Les totaux régionaux pour importations et exportations ont été ajustés pour exclure les re-exportations des pays ou zones qui comprennent la région. Les totaux régionaux et mondiaux comprennent des estimations pour certains pays ou zones ne figurant pas séparément mais pour lesquels les données ne sont pas encore disponibles. Les totaux régionaux contenant des données estimées sont imprimés en caractères gras et italique.

Les valeurs des exportations et des importations ont été obtenues par la Division de statistique des Nations Unies (DSNU) à partir des données publiées dans les publications nationales, ou des données publiées dans les questionnaires du Bulletin Mensuel de Statistique pour les pays suivants : Samoa américaines, Andorre, Bermudes, Îles Caïmans, les Îles Cook, Cuba, Îles Féroé, la Fédération de Russie (commençant 1994), Gibraltar, Groenland, Kiribati, Monténégro (commençant 2006), Antilles néerlandaises, la Nouvelle-Calédonie, la Polynésie française, Serbie et Monténégro (avant de 2006), Territoire Palestinien Occupé, Turkménistan, Îles Turques et Caïques et Tuvalu.

Les valeurs en dollars des É.-U. des exportations et des importations de tous les autres pays ont été obtenues à partir des données publiées par le Fonds Monétaire International dans la publication "Statistiques Financières Internationales".

*Tableau 36 :* Les indices du volume et les indices de la valeur unitaire/prix sont comme compilées par les pays mais convertis en dollars des É.-U. et remis à 2000 = 100. Utilisant ces indices la Division de Statistique des Nations Unies calcule les indices des termes de l'échange (sont obtenus en divisant les indices de la valeur unitaire à l'exportation par ceux à l'importation), et les indices du pouvoir d'achat des exportations (sont obtenu en multipliant l'indice des termes de l'échange par l'indice du volume des exportations). Les notes se rapportant aux pays qui apparaissent dans le Tableau 35 de ce numéro s'appliquent aussi aux indices de ce tableau.

*Tableau 37 :* Les facteurs de conversion pour le commerce extérieur sont les moyennes pondérées des taux de change. Les coefficients de pondération sont les valeurs mensuelles ou trimestrielles correspondantes des importations ou des exportations. Les taux de change sont les taux fournis par le pays ou calculés par le secrétariat du FMI.

*Tableau 38 :* Le but de ce tableau est de fournir les indices du commerce international par régions.

*Tableau 39 :* Les produits manufacturés comprennent les sections 5 à 8 de la Classification type pour le commerce international (CTCI).

Ces sections sont : produits chimiques et produits connexes, articles manufacturés classés principalement d'après la matière première, machines et matériel de transport et articles manufacturés divers.

aggregate indices in U.S. dollars by conversion factors obtained by dividing the SDR/\$US exchange rate in current period by the rate in the base period.

*Table 40:* The purpose of this table is to provide a summary of total exports within and between important economic and geographic areas of the world.

The economic and geographic groupings in this table are in accordance with those of Table 34 in this issue.

Export data in this table are largely comparable to that shown in Table 34 except that Table 34 contains revised data for total exports which are not incorporated into this table if the corresponding revised data by country of destination are not available. Also, the regional totals shown in Table 34 have been adjusted to exclude the re-exports of countries comprising each region. This adjustment is not made in this table since re-exports are often not available by destination.

The data approximate total exports of all countries and areas of the world. They are based on official export figures converted, where necessary, to U.S. dollars according to conversion factors published in table 37 each quarter in this Bulletin (March, June, September and December). Where official figures are not available estimates based on the imports reported by partner countries and on other subsidiary data are used. Some official national data have been adjusted to approximate calendar years. The data include special category (confidential) exports, ships' stores and bunkers and exports of minor importance, the destination of which cannot be determined. These data are included in the total exports, but are excluded from all regions of destination.

*Tables 41 and 42:* The purpose of these tables is to provide data on the network of flows of broad groups of commodities within and between important economic and geographic areas of the world.

The regional analysis in these tables is in accordance with that of Table 34 in this issue.

Export data in these tables are largely comparable to that shown in Table 34 except that Table 34 contains revised data for total exports which are not incorporated into this table if the corresponding revised data at the commodity/destination level are not available. Also, the regional totals shown in Table 34 have been adjusted to exclude the re-exports of countries comprising each region. This adjustment is not made in this table since re-exports are often not available by commodity and by destination.

The commodity classification is in accordance with the United Nations' Standard International Trade Classification (SITC), Revision 3.

The data are based on official export figures converted, where necessary, to U.S. dollars according to conversion factors published quarterly in Table 37 in this Bulletin (March, June, September and December). Where official figures are not available estimates based on the imports reported by partner countries and on other subsidiary data are used. Some official national data have been adjusted to approximate the commodity groupings of the SITC.

The data include special category (confidential) exports, ships' stores and bunkers and exports of minor importance, the destination of which cannot be determined. These data are included in the world totals for each commodity group and in total exports, but are excluded from all regions of destination. Major regional aggregates are presented for each commodity category, as well as the four largest exporting countries in the European Union and the two largest exporting countries in the 'Other developed economies' group.

Les groupes économiques et géographiques de ce tableau sont conformes aux groupes des pays ou zones qui paraissent dans le tableau 34 de ce numéro, bien que le tableau 34 comprenne plus de détails en ce qui concerne les sous-groupes des 'Autres économies développées' et 'Economies en voie de développement' de ce tableau.

En 2000, les exportations des produits manufacturés par tous les Economies développées et les 'Economies en voie de développement' représentaient approximativement 97 pour cent de l'ensemble des exportations mondiales des produits manufacturés.

Les indices de la valeur unitaire sont obtenus de sources nationales.

Pour les pays ne calculant pas leurs indices des exportations des produits manufacturés selon la définition décrite ci-dessus les sous-indices sont agrégés en un indice qui se rapproche des sections 5 à 8 de la CTIC.

Les indices en monnaie nationale sont convertis en dollars des É.-U. en les multipliant par un facteur de conversion obtenu en divisant le taux de change courant, moyenne pondérés, d'une monnaie donnée par celui de la période de base. Tous les agrégés des indices de la valeur unitaire, sont à coefficients de pondération correspondant à la période indiquée.

Les indices en DTS sont calculés en multipliant les indices totaux équivalents en dollars É.-U. par un facteur de conversion obtenu en divisant le taux de change courant du DTS/\$É-U d'une monnaie donnée par celui de la période de base.

*Tableau 40 :* Le but de ce tableau est de fournir un aperçu du courant des marchandises entre les grandes régions importantes économiques et géographiques du monde et de leur commerce intérieur. Les groupes économiques et géographiques de ce tableau sont conformes à ceux du Tableau 34 de ce numéro.

Les données des exportations dans ce tableau sont en générale comparables aux chiffres qui sont inclus dans le Tableau 34, exceptées celles du Tableau 34 qui comportent des révisions aux exportations totales qui ne sont pas inclus dans ce tableau si les révisions des données correspondantes aux pays de destination ne sont pas disponibles. De plus, les totaux régionaux inclus dans le Tableau 34 ont été ajustés pour exclure les re-exportations des pays qui comprennent la région. Cet ajustement n'est pas fait dans ce tableau parce que des re-exportations ne sont pas disponibles fréquemment par destination.

Les données approchées des exportations totales de tous pays et régions du monde. Elles sont basées sur les chiffres des exportations officielles nationales convertis en dollars É.-U. selon les facteurs de conversion publiés chaque trimestre dans le tableau 37 de ce bulletin (mars, juin, septembre et décembre). Quand les chiffres officiels ne sont pas disponibles on a recours à des estimations basées sur les importations rapportées par les pays partenaires ou sur d'autres données subsidiaires. Quelques données officielles nationales ont été ajustées qu'elles correspondent aux années civiles.

Les données comprennent les exportations de 'special category' (confidentielles), les approvisionnements des navires et combustible de soude et autres exportations de moindre importance dont la destination n'a pu être déterminée. Ces données sont comprises dans les exportations totales, mais elles ne sont pas comprises dans les régions de destination.

*Tableaux 41 et 42 :* Le but de ces tableaux est de fournir un aperçu du courant des marchandises entre les régions importantes économiques et géographiques du monde et de leur commerce intérieur.

L'analyse régionale dans ces tableaux est conforme à celle du Tableau 34 du présent numéro.

Les données des exportations dans ces tableaux sont en générale comparables aux chiffres qui sont inclus dans le Tableau 34, exceptées

celles du Tableau 34 qui comportent des révisions aux exportations totales qui ne sont pas inclus dans ce tableau si les révisions des données correspondantes au niveau de marchandise/destination ne sont pas disponibles. De plus, les totaux régionaux inclus dans le Tableau 34 ont été ajustés pour exclure les re-exportations des pays qui comprennent la région. Cet ajustement n'est pas fait dans ce tableau parce que des re-exportations ne sont pas disponibles fréquemment par marchandise et par destination.

La classification par marchandise utilisée est la Classification type pour le commerce international (CTCI) Révision 3 des Nations Unies.

Les données sont basées sur les chiffres des exportations officielles nationales convertis en dollars É.-U. selon les facteurs de conversion publiés chaque trimestre dans un tableau spécial dans ce Bulletin (mars, juin, septembre et décembre). Quand les chiffres officiels ne sont pas disponibles on a recours à des estimations basées sur les importations rapportées par les pays partenaires ou sur d'autres données subsidiaires. Quelques données officielles nationales ont été ajustées qu'elles correspondent aux groupes des marchandises de la CTCI.

Les données comprennent les exportations de 'special category' (confidentielles), les approvisionnements des navires et combustible de soute et autres exportations de moindre importance dont la destination n'a pu être déterminée. Ces données sont comprises dans les totaux de chaque groupe de marchandise et dans les exportations totales, mais elles ne sont pas comprises dans les régions de destination.

Les majeurs agrégats régionaux sont montrés pour chaque catégorie de marchandise, de même que les quatre plus grands pays exportateurs dans la Union Européenne et les deux plus grands pays exportateurs dans le groupe 'Autres économies développées'.

Fin de la période, valeur du dollar des États-Unis en monnaie nationale *[suite]*

Source:

International Monetary Fund (IMF), Washington, D.C., International Financial Statistics Database and Browser, CD-ROM (monthly); United Nations Operational Rates of Exchange for United Nations Programmes.

1. Principal rate.
2. Official rate.
3. Data refer to non-commercial rates derived from the Operational Rates of Exchange for United Nations Programmes.
4. Beginning January 2006, 1 new manat equals 5000 old manats.
5. Rate determined through auction held by Central Bank.
6. For government controlled areas.
7. Prior to 2008, pound per US dollar.
8. Euro Area comprises Austria, Belgium, Cyprus, Finland, France, Germany, Greece, Ireland, Italy, Luxembourg, Malta, Netherlands, Portugal, Slovakia, Slovenia and Spain.
9. As of 1 July 2007, The Ghanaian cedi(GHC) was redenominated.  
1 new Cedi (GHS) = 10000 (GHC).
10. Prior to 2008, lira per US dollar.
11. Prior to January 2007, tolar per US dollar.
12. As of 1 July 2007, The Sudanese pound (SDG) replaced the Sudanese dinar  
1 SDG = 100 SDD.
13. Prior to 2009, koruna per US dollar.
14. Beginning January 2009, 1 new manat equals 5000 old manats.

Source :

Fonds monétaire international (FMI), Washington, D.C., Statistiques financières internationales, base de données et navigateur, CD-ROM (mensuel) ; United Nations Operational Rates of Exchange for United Nations Programmes.

1. Taux principal.
2. Taux officiel.
3. Les données se rapportent aux taux non-commerciaux tirées des taux de change opérationnels des Programmes des Nations Unies.
4. A partir de janvier 2006, 1 nouveau manat égale 5000 vieux manats.
5. Le taux de change est déterminé aux moyen de vente aux enchères organisées par la banque centrale.
6. Pour les zones contrôlées par le gouvernement.
7. Avant 2008, livre pour un dollar É.-U.
8. La zone euro est composée des pays suivants Allemagne, Autriche, Belgique, Chypre, Espagne, Finlande, France, Grèce, Irlande, Italie, Luxembourg, Malte, Pays-Bas, Portugal, Slovaquie et Slovénie.
9. A partir de 1 juillet 2007, le cedi ghanéen (GHC) était rédénommé.  
1 nouveau cedi (GHS) = 10000 (GHC).
10. Avant 2008, lire pour un dollar É.-U.
11. Avant janvier 2007, tolar pour un dollar É.-U.
12. A partir de 1 juillet 2007, la livre soudanaise (SDG) a remplacé le dinar  
1 SDG = 100 SDD.
13. Avant 2009, couronne pour un dollar É.-U.
14. A partir de janvier 2009, 1 nouveau manat égale 5000 vieux manats.

- Venezuela (Bolivarian Republic of). Weighted average yield of national debt bonds.
- Islande. Taux de rendement annuel réel des obligations d'Etat indexées de 10 ans.
- Irlande. YM. Rendement au marché secondaire des obligations d'Etat à échéance de 10 ans.
- Italie. YM. Rendement quotidien moyen des obligations à taux fixe à échéance de 10 ans.
- Japon. YM. Rendement moyen des obligations d'Etat de 10 ans.
- Corée, Rép. de. Moyenne arithmétique des rendements, par échéance, des obligations nationales pour le logement (National Housing Bonds) de type 1.
- Lettonie. YM. Rendement au marché secondaire des obligations d'Etat à échéance de 10 ans.
- Lituanie. YM. Rendement au marché secondaire des obligations d'Etat à échéance de 10 ans.
- Luxembourg. YM. Rendement moyen pondéré à l'échéance des tous des obligations d'Etat.
- Malaisie. YM. Rendement moyen des obligations d'Etat à échéance de 5 ans.
- Malte. YM. Rendement au marché secondaire des obligations d'Etat à échéance de 10 ans.
- Mexique. Rendement moyen pondéré des obligations d'Etat à taux fixe à échéance de 10 ans.
- Maroc. Rendement des obligations à échéance de 15 ans.
- Myanmar. Taux d'intérêt sur les bons du Trésor à cinq ans.
- Namibie. YM. Rendement des obligations à échéance de 15 ans.
- Népal. Taux du coupon annuel des certificats d'épargne nationale émis pour cinq ans par l'Etat en vue de mobiliser des fonds auprès de sources non bancaires.
- Pay-Bas. Les données se rapportent au rendement des obligations d'Etat à 10 ans les plus récemment émises.
- Antilles néerlandaises. Rendement effectif des obligations à moyen et à long terme.
- Nouvelle-Zélande. YM. Rendement des obligations d'Etat à échéance de 5 ans.
- Norvège. YM. Rendement des obligations à échéance de 5 ans.
- Pakistan. Les données se rapportent à les rendements mensuels basés sur les prix moyens cotés le dernier mercredi du mois pour la obligation de pourcentage 11 3/4 à échéance en 2002.
- Papouasie-Nvl-Guinée. Rendement moyen pondéré des valeurs mobilières inscrites.
- Philippines. Rendement moyenne des obligations à échéance des 2 ans.
- Pologne. YM. Rendement moyen sur le marché secondaire obligations d'Etat à échéance 10 ans.
- Portugal. YM. Moyenne mensuelle simple des rendement quotidien sur les obligations à taux flottant.
- Roumanie. Rendements moyens sur le marché secondaire.
- Fédération de Russie. Rendement moyen des obligations de 15 ans.
- Samoa. YM. Rendement des obligations d'Etat à échéance de 7 ans.
- Seychelles. YM. Rendement moyen des obligations d'Etat à échéance.
- Slovaquie. Moyenne mensuelle des rendement des obligations de 10 ans.
- Slovénie. Rendement moyen des obligations d'Etat à échéance de 10 ans.
- Iles Salomon. Le taux d'intérêt nominal offert sur les obligations de développement à long terme.
- Afrique du Sud. YM. Rendement des obligations dont l'échéance est supérieure à 10 ans.
- Espagne. Moyenne mensuelle simple des rendements journaliers des obligations à échéance de plus de 2 ans prises en considération dans le Sistema de Anotaciones en Cuenta de Deuda del Estado (SACDE).
- Suède. YM. Rendement des obligations d'Etat à échéance de 15 ans.
- Suisse. YM. Intérêt sur les obligations d'Etat de 10 ans.
- Thaïlande. YM. Le taux d'intérêt nominal maximum sur les obligations attribués aux banques et à d'autres institutions financiers.
- Royaume-Uni. YM. Rendement théorique brut jusqu' à l'échéance.
- Etats-Unis. YM. Obligations d'Etat calculées sur une échéance constante ayant un long terme de 10 ans.
- Vanuatu. YM. Rendement des obligations à échéance de 10 ans.
- Venezuela (République bolivarienne du). Rendement moyen pondéré des obligations représentatives de la dette.

## Technical notes: tables 43-50

The data in these tables are furnished by the International Monetary Fund (IMF). Descriptions of each of the national series are contained in International Financial Statistics, published monthly by the IMF.

*Table 43:* Foreign exchange rates are shown in units of national currency per US dollar. The exchange rates are classified into three broad categories, reflecting both the role of the authorities in the determination of the exchange and/or the multiplicity of exchange rates in a country. The *market rate* is used to describe exchange rates determined largely by market forces; the *official rate* is an exchange rate determined by the authorities, sometimes in a flexible manner. For countries maintaining multiple exchange arrangements, the rates are labeled *principal rate*, *secondary rate*, and *tertiary rate*. Unless otherwise stated, the table refers to end of period and period averages of market exchange rates or official exchange rates. For further information see *International Financial Statistics*.

*Table 44:* The money supply table shows money and reserve money.

Money relates to the liabilities of the monetary system in currency and demand deposits to the domestic private sector.

Reserve money relates to the liabilities of the monetary authorities in currency and demand deposits to deposit money banks and the domestic private sector.

*Table 45:* The table reports the US dollar value of monetary authorities (central banks, currency boards, exchange stabilization funds and treasuries to the extent that they perform similar functions) holdings of Special drawing rights (SDRs), Reserve Position in the Fund, foreign exchange and the sum of these items which is Total Reserves minus gold.

*Foreign exchange* is defined as holdings by monetary authorities (central banks, currency boards, exchange stabilization funds, and Treasuries to the extent that they perform similar functions) of claims on foreigners in the form of bank deposits, Treasury bills, short and long-term government securities, and other claims usable in the event of a balance-of-payments deficit, including non-marketable claims arising from inter-central bank and intergovernmental arrangements without regard to whether the claim is denominated in the currency of the debtor or the creditor.

*Table 46:* The table reports data on official holdings of gold expressed in physical terms (millions of fine troy ounces) for all countries.

*Table 47:* These series measure the trend of long-term interest rates. They usually comprise the yield to maturity (YM) or the current yield (CY) of a single issue of government or quasi-government bonds whose ownership is widely distributed and with a final maturity of not less than 10 years. Current yields based on “irredeemable or perpetual” government bonds (which carry no obligation of repayment at a fixed date but which usually are redeemable at the option of the government) are designated as YP.

## Notes techniques : tableaux 43 à 50

Les données ont été communiquées par le Fonds monétaire international (FMI). Des définitions détaillées sont données dans les Statistiques Financières Internationales, publiées mensuellement par le FMI.

*Tableau 43 :* Les taux des changes sont exprimés par nombre d'unités de monnaie nationale pour un dollar des Etats-Unis. Les taux de change sont classés en trois catégories, qui dénotent le rôle des autorités dans l'établissement des taux de change et/ou la multiplicité des taux de change dans un pays. Par *taux du marché*, on entend les taux de change déterminés essentiellement par les forces du marché; le *taux officiel* est un taux de change établi par les autorités, parfois selon des dispositions souples. Pour les pays qui continuent de mettre en œuvre des régimes de taux de change multiples, les taux sont désignés par les appellations suivantes : “taux principal”, “taux secondaire” et “taux tertiaire”. Sauf indication contraire, le tableau indique des taux de fin de période et les moyennes sur la période, des taux de change du marché ou des taux de change officiels. Pour plus de renseignements, voir *Statistiques financières internationales*.

*Tableau 44 :* Le tableau des disponibilités monétaires indique d'une part la monnaie, d'autre part la monnaie de réserve.

Par “monnaie” on entend le passif du système monétaire sous forme de monnaie fiduciaire et en dépôts à vue à l'égard du secteur privé national.

Par “monnaie de réserve” on entend le passif des autorités monétaires en monnaie fiduciaire et en dépôts à vue à l'égard des banques de dépôt et du secteur privé national.

*Tableau 45 :* Le tableau présente la valeur en dollars EU des avoirs des autorités monétaires (banque centrale, fonds de stabilisation des changes et, dans la mesure où il exerce des fonctions analogues, Trésor public) représentant : droits de tirage spéciaux (DTS), position de réserve au FMI, devises étrangères, plus la somme de ces éléments qui est Réserves total moins l'or.

Les *réserves de devises* sont les avoirs des autorités monétaires—banques centrales, offices des changes, fonds de stabilisation des changes et Trésors (dans la mesure où ceux-ci exercent des fonctions analogues) — en créances sur des étrangers sous forme de dépôts bancaires, bons du Trésor, fonds d'Etats à court et à long terme et autres créances utilisables en cas de déficit de la balance des paiements, y compris les créances non négociables résultant d'arrangements entre banques centrales et entre gouvernements que la créance soit libellée dans la monnaie du débiteur ou dans celle du créancier.

*Tableau 46 :* Le tableau présente les avoirs officiels en or exprimés en unités physiques (millions d'onces troy de fin) pour tous les pays.

*Tableau 47 :* Ces séries représentent l'évolution des taux d'intérêt des obligations à long terme. Elles représentent habituellement le taux de capitalisation (YM) (rendement net jusqu'à l'échéance) ou le rendement courant (CY) d'une seule

*Table 48:* Rates shown represent those rates at which the central bank either discounts or makes advances against eligible commercial paper and/or government securities for commercial banks or brokers. For countries with more than one rate applicable to such discounts or advances, the rate shown is the one at which the largest proportion of central bank credit operations is understood to be transacted. The importance of these rates as instruments of monetary control vary considerably from country to country and inter-country comparisons should not be made without further investigation.

*Table 49:* Rates shown represent short-term money market rates—the rate at which short-term borrowings are effected between financial institutions or the rate at which short-term government paper is issued or traded in the market. Typical standardized names for these rates are *Money Market Rate* and *Treasury Bill Rate*, respectively.

*Table 50:* Index numbers of share prices are based primarily on common shares traded on the leading exchange or exchanges of each country and are intended to cover a representative sample of the companies registered.

The indexes are intended to show the increase in value accruing to an investor who bought in the base period a list of shares corresponding in selection and amount to those contained in the index, who subsequently made only such changes in holdings as the substitution of new issues for retired issues, and who retained, in the form of shares, the proceeds of all rights, warrants and share dividends made available since the base period.

émission d'obligations de l'Etat ou d'organismes parastataux qui ont été largement diffusées. L'échéance finale de l'émission considérée doit en principe avoir lieu au moins 10 ns après la date d'émission. Les lettres YP désignent une série portant sur le rendement actuel des obligations d'Etat non amortissables ou perpétuelles (c'est-à-dire de celles dont la date de remboursement n'est pas fixée mais qui sont ordinairement amorties à la suite d'une décision de l'Etat).

*Tableau 48 :* Les données représentent les taux pratiqués par la Banque centrale à l'escompte, ou pour avance de fonds, dans toute transaction portant sur des effets négociables, soit effets commerciaux ou obligations du gouvernement détenus par les banques commerciales ou les courtiers. Pour les pays où il existe plus d'un taux valide pour de telles transactions, le tableau indique le taux que la banque centrale semble pratiquer pour la plupart de ces opérations. L'importance de ces taux dans le contrôle monétaire varie considérablement d'un pays à l'autre et toute comparaison doit être faite avec réserve.

*Tableau 49 :* Les taux indiqués représentent le marché monétaire à court terme—le taux auquel les emprunts à court terme sont effectués entre les institutions financières, ou le taux auquel les effets publics à court terme sont émis ou négociés sur le marché. Ces taux sont normalement dénommés *taux du marché monétaire* et *taux des bons du Trésor*, respectivement.

*Tableau 50 :* Les indices des cours des actions se rapportent principalement aux actions ordinaires qui font l'objet de transactions à la bourse principale ou aux bourses principales de chaque pays et qui ont été réunies en un échantillon aussi représentatif que possible de sociétés inscrites.

Les indices visent à mesurer l'augmentation de la valeur d'un portefeuille identique à l'ensemble des actions comprises dans l'indice, dont la composition n'est changée que par la substitution de nouvelles actions en remplacement de celles qui sont retirées du marché, et qui n'aurait été augmentée que du nombre d'actions additionnelles acquises par conversion des droits, warrants et dividendes distribués à partir de l'année choisie comme base.

## Data definitions

### A

**agricultural production index:** Based on the sum of price-weighted quantities of different agricultural commodities produced after deductions of quantities used as seed and feed weighted in a similar manner. All the indices at the country, regional and world levels are calculated by the Laspeyres formula. Production quantities of each commodity are weighted by average international commodity prices in the base period and summed for each year. To obtain the index, the aggregate for a given year is divided by the average aggregate for the base period. The commodities covered in the computation of indices of agricultural production are all crops and livestock products originating in each country. Practically all products are covered, with the main exception of fodder crops (1\*, 2003, p. xvii).

**agricultural products:** CPC Vers.1.1 (7), divisions 1 and 2: cereals, vegetables, fruit and nuts, oil seeds and oleaginous fruit, living plants, cut flowers and flower buds, flower seeds and fruit seeds, vegetable seeds, beverages and spice crops, unmanufactured tobacco, sugar beet and sugar cane, raw vegetable materials not elsewhere classified, live animals and animal products.

### B

**base period:** The period of time for which data used as the base of an index number, or other ratio, have been collected. This period is frequently one year but it may be as short as one day or as long as the average of a group of years (5).

**birth rate, crude:** The fraction where the numerator is the total number of births in a population during a given period and the denominator is the total number of person-years lived by the population during that period, generally approximated by the size of the population at the mid-point of the period multiplied by the length of the period in years. Usually stated per 1,000 (18). Live birth is the complete expulsion or extraction from its mother of a product of conception, irrespective of the duration of the pregnancy, which, after such separation, breathes or shows any other evidence of life, such as beating of heart, pulsation of the umbilical cord, or definite movement of voluntary muscles, whether or not the umbilical cord has been cut or the placenta is attached (23, definition 3.1).

### C

**capital goods:** Pure-bred breeding animals, metal containers for storage or transport, hand tools, armoured and reinforced safes and the like of base metal, boilers and auxiliary plant, turbines, engines and motors, agricultural and horticultural or forestry machinery, construction and mining machinery, manufacturing machinery, self-propelled works trucks and

other lifting, handling, loading or unloading machinery, weighing machinery and other appliances, office machines, audio and video apparatus and telecommunications equipment, electrical machines and apparatus, transportation installations and floating structures, boilers, devices, appliances and instruments, meters and other measuring instruments and apparatus, cinematographic cameras and projectors, time measurement instruments, amusement equipment, office or desk equipment of base metal, tailors' dummies and displays, motorcars and other motor vehicles, trailers and semi-trailers, containers specially designed and equipped for transport, rail locomotives, tenders, coaches, railway or tramway passenger coaches, freight and maintenance cars, helicopters, space craft (including satellites) and spacecraft launch vehicles, balloons and dirigibles, tankers, fishing vessels, refrigerated vessels, ships, tugs, outboard motors, bicycles, trailers, aeroplanes and other aircraft, gliders, rowing boats and canoes, rafts (8, divisions 4 and 5).

**cement:** CPC Vers. 1.1 (7): Cement, lime and plaster (group 374).

**CIF (Cost, insurance, freight):** The seller must pay the costs and freight necessary to bring the goods to the named port of destination but the risk of loss of or damage to the goods, as well as any additional costs due to events occurring after the time the goods have been delivered on board the vessel, is transferred from the seller to the buyer when the goods pass the ship's rail in the port of shipment. In addition, the seller has to procure marine insurance against the buyer's risk of loss of or damage to the goods during the carriage. The seller contracts for insurance and pays the insurance premium. The buyer should note that under the CIF term the seller is only required to obtain insurance on minimum coverage. The CIF term requires the seller to clear the goods for export. This term can only be used for sea and inland waterway transport (11).

**civil aviation traffic:** Traffic for which remuneration is received, carried on flights performed according to a published timetable and by extra flights occasioned by overflow traffic from scheduled flights (2).

**construction:** Economic activity directed to the creation, renovation, repair or extension of fixed assets in the form of buildings, land improvements of an engineering nature and other such engineering constructions as roads, bridges, dams (13, para. 15). New construction refers to site preparation for, and construction of, entirely new structures and/or significant extensions to existing structures whether or not the site was previously occupied. Within this class of construction, further distinctions may be made by the following categories: residential buildings, so classified when more than half of the floor area of the building is intended for dwelling purposes; non-residential buildings (all buildings not classified as residential) (13, para. 73).

\* Numbers in parenthesis refer to numbered entries in the list of references which follow the data definitions section.

**construction completed, non-residential:** Economic activity directed to the creation or extension of fixed assets in the form of buildings (13, para. 15).

**consumer goods:** Food and non-alcoholic beverages, alcoholic beverages, tobacco and narcotics, clothing and footwear, housing, water, electricity, gas and other fuels, furnishings, household equipment, health, transport, communication, recreation and culture, education, restaurants and hotels, miscellaneous goods and services (9, p.83).

**consumer prices index, all items:** Measures changes over time in the general level of prices of goods and services that a reference population acquires, uses or pays for consumption. A consumer price index is estimated as a series of summary measures of the period-to-period proportional change in the prices of a fixed set of consumer goods and services of constant quantity and characteristics, acquired, used or paid for by the reference population. Each summary measure is constructed as a weighted average of a large number of elementary aggregate indices. Each of the elementary aggregate indices is estimated using a sample of prices for a defined set of goods and services obtained in, or by residents of, a specific region from a given set of outlets or other sources of consumption goods and services (3, chap.7). *See also* index numbers, Laspeyres.

**consumer prices index, food:** Measures changes over time in the general level of prices of food goods that a reference population requires, uses or pays for consumption (3, chap. 7). *See also* index number, Laspeyres.

**cotton fabrics:** CPC Vers.1.1 (7), group 266: Woven fabrics (except special fabrics) containing cotton.

**cotton yarn:** CPC Vers.1.1 (7), subclass 26360 and 26370: Textile yarn containing cotton.

## D

**death rate, crude:** Generally an annual rate consisting of the ratio of the annual number of deaths occurring during a calendar year to the number exposed to the risk of dying during the same period, equivalent to the mean population or average population for the period (18, para. 401). Death is the permanent disappearance of all evidence of life at any time after live birth has taken place (post-natal cessation of vital functions without capability of resuscitation). This definition therefore excludes foetal deaths (20, para. 46 (2)).

**domestic production:** Goods and services created by the productive activity of resident institutional units (22, para. 6.238).

**domestic supply:** *See* producers/wholesale prices indices.

**dwelling:** A separate and independent place of abode intended for habitation by a single household or one intended for habitation but occupied as living quarters by a household at the time of the census. Construction of a room of suite of rooms and its accessories in a permanent building or structurally separated part thereof which, by the way it has been built, rebuilt or converted, is intended for habitation by one household and is not used wholly for other purposes. It should have a separate access to a street (direct or via a garden or grounds) or to a common space within the

building (staircase, passage, gallery and so on) (19, paras. 2.331-2.333).

## E

**earnings (wages and salaries):** Remuneration paid to employees in cash and in kind for time worked or work done together with remuneration for time not worked, such as annual vacation and other paid holidays, and bonuses and gratuities, housing and family allowances (22, para. 7.32). *See* wages, earnings.

**electricity:** Form of energy occurring in elementary particles and macroscopic bodies either statically or dynamically (6). CPC Vers. 1.1 (7): Electrical energy (class 1710) Hydraulic, conventional, thermal, nuclear, geothermal, solar, tidal, etc., in origin. Included are electric power plants which sell a significant amount of electricity to others, as well as produce electricity for their parent enterprise and which can be reported separately from the other units of the parent enterprise (16, class 4010).

**employment, paid, employee:** Persons who during the reference period performed some work for wage or salary, in cash or in kind; persons who, having already worked in their present job, were temporarily not at work during the reference period and had a formal attachment to their job as evidenced by, for example, a continued receipt of wage/salary, an assurance of return to work following the end of the contingency, an agreement on the date of return following the short duration of absence from the job, and so on; persons who during the reference period performed some work for profit or family gain, in cash or in kind; persons with an enterprise, which may be a business enterprise, a farm or a service undertaking, who were temporarily not at work during the reference period for some specific reason (3).

**exchange rate:** Price in a given currency at which bills drawn in another currency may be bought (6).

For period average rates, the data are either the monthly average of market rates or of official rates of the reporting country, or, if those are not available, monthly average rates in New York, or, if those are not available, estimates derived on the basis of a simple average of the end-of-month market rates in the markets of the reporting country (4, Introduction, sect. 1).

**exports of goods:** Goods which subtract from the stock of material resources of a country by leaving its economic territory. In the general trade system, the definition of the statistical territory of a country coincides with its economic territory (11, paras. 14-66).

**exports unit value index, all goods:** Value at the level of a single, homogeneous good is equal to the price per unit of quantity multiplied by the number of quantity units. It is independent of the choice of quantity unit. The Laspeyres unit value index is the average transaction price of a unit (22, paras. 16.9 and 16.13). *See also* exports of goods and index number, Laspeyres.

**exports value, all goods:** Equivalent basis as imports value. *See* imports value, all goods.

**exports volume index, all goods:** An index based on quantity units of goods such as number or weight (11, chapter V; 22, chapter XVI). *See also* index number, Laspeyres.

**external trade conversion factors:** Exchange rates used to convert trade data expressed in national currencies into a common currency such as United States dollars (21).

## F

**ferro-alloys:** CPC Vers. 1.1 (7) subclasses 41112-41115: ferro-manganese, ferro-chromium, ferro-nickel and other ferro-alloys.

**FOB (Free on board):** The seller's obligation to deliver is fulfilled when the goods have passed over the ship's rail at the named port of shipment. This means that the buyer has to bear all costs and risks of loss of or damage to the goods from that point. This term can only be used for sea and inland waterway transport (11).

**floor area:** Floor area of buildings is the sum of the area of each floor of the building measured to the outer surface of the outer walls including the area of lobbies, cellars, elevator shafts and in multi-dwelling buildings all the communal spaces. Areas of balconies are excluded (21, p. 168).

**food production index:** Food production includes commodities that are considered edible and that contain nutrients. Accordingly, coffee and tea are excluded because they have practically no nutritive value (1, p. ix).

**freight loaded:** The weight of all goods (including packing) and livestock which, at the ports of the country in question, were either loaded into national or foreign sea-going vessels for unloading in another country, or unloaded from national or foreign sea-going vessels after having been load in another country, including goods into or from bonded warehouses (21, pp. 254-255).

**freight unloaded:** The weight of all goods (including packing) and livestock which, at the ports of the country in question, were either loaded into national or foreign sea-going vessels for unloading in another country, or unloaded from national or foreign sea-going vessels after having been load in another country, including goods into or from bonded warehouses (21, pp. 254-255).

**fuels:** Material for burning as fire or source of heat or power (6). CPC Vers. 1.1 (7): Coke oven products; refined petroleum products; nuclear fuel (division 33).

## H

**hard coal:** Hard coal is coal that has a high degree of coalification with a gross calorific value above 24 MJ/kg (5700 kcal/kg) on an ash-free but moist basis, and with a reflectance index of vitrinite of 0.5 and above. Slurries, middlings and other low-grade coal products, which cannot be classified according to the type of coal from which they are obtained, are included under hard coal. (Source: United Nations, Energy Statistics - Definitions, Units of Measure and Conversion Factors. Series F, No. 44 (United Nations publication, Sales No. E.86.XVII.21)). There are two sub-categories of hard coal: (i) coking coal and (ii) other

bituminous coal and anthracite (also known as steam coal). Coking coal is a hard coal with a quality that allows the production of coke suitable to support a blast furnace charge. Steam coal is coal used for steam raising and space heating purposes and includes all anthracite coals and bituminous coals not classified as coking coal.

## I

**imported goods prices indices:** *See* imports of goods and producers/wholesale prices indices.

**imports of goods:** Goods which add to the stock of material resources of a country by entering its economic territory. Goods simply being transported through a country (goods in transit) or temporarily admitted (except for goods for inward processing) do not add to the stock of material resources of a country and are not included in the international merchandise trade statistics. In many cases, a country's economic territory largely coincides with its customs territory, which is the territory in which the customs law of a country applies in full (11, paras, 14 and 66).

**imports unit value index, all goods:** Value at the level of a single, homogeneous good or service is equal to the price per unit of quantity multiplied by the number of quantity units. It is independent of the choice of quantity unit. The Laspeyres unit value index is the average transaction price of a unit (22, paras. 16.9 and 16.13). *See also* imports of goods and index number, Laspeyres.

**imports value, all goods:** "The transaction value, that is the price actually paid or payable for the goods when sold for export to the country of importation ..., provided: (a) that there are no restrictions as to the disposition or use of the goods by the buyer other than restrictions which: (i) are imposed or required by law or by the public authorities in the country of importation; (ii) limit the geographical area in which the goods may be resold; or (iii) do not substantially affect the value of the goods; (b) that the sale or price is not subject to some condition or consideration for which a value cannot be determined with respect to the goods being valued; (c) that no part of the proceeds of any subsequent resale, disposal or use of the goods by the buyer will accrue directly or indirectly to the seller, unless an appropriate adjustment can be made in accordance with the provisions of Article 8; and (d) that the buyer and seller are not related, or where the buyer and seller are related, that the transaction value is acceptable for customs purposes ..." (11, annex C, based on World Trade Organization Agreement in Valuation).

**imports volume index, all goods:** An index based on quantity units of goods such as number or weight (11, chapter V; 22, chapter XVI). *See also* index number, Laspeyres.

**index number, Laspeyres:** A form of index number where prices, quantities or other units of measure over time are weighted according to their values in a specified base period (5).

**industrial production:** Output of industrial establishments, covering mining and quarrying, manufacturing and electricity, gas and water supply (14).

**industrial production indices:** Laspeyres's index number of total value-added in all industrial production, where value added is the value of output less the values of both intermediate consumption and consumption of fixed capital.

**industrial products:** Goods produced by resident institutional units in industries of mining, manufacturing and electricity, gas and water (22, para. 6.238).

**infant deaths:** Infant deaths under one year of age (20, ID3). *See also* deaths rates, crude.

**intermediate goods:** Goods consumed as inputs by a process of production, excluding fixed assets (22, para. 6.147).

**iron ore:** CPC Vers. 1.1 (7) group 141: Iron ores and concentrates, other than roasted iron pyrites.

## L

**lignite:** Coal with a low degree of coalification that has retained the anatomical structure of the vegetable matter from which it was formed (6). CPC Vers. 1.1 (7): Lignite, whether or not agglomerated (class 1103).

**livestock:** All domestic animals irrespective of their age and the place or purpose of their breeding.

## M

**manufacturing:** Comprises tabulation category D and divisions 15-37 in the International Standard Industrial Classification of All Economic Activities, Revision 3. It is defined as the physical or chemical transformation of materials or components into new products, whether the work is performed by power-driven machines or by hand, whether it is done in a factory or in the worker's home, and whether the products are sold at wholesale or retail. Included are assembly of component parts of manufactured products and recycling of waste materials (16).

**mining and quarrying:** Extraction, dressing and beneficiating of minerals occurring naturally: Solids, such as coal and ores; liquids, such as crude petroleum; and gases, such as natural gas. Mining includes underground and surface mines, quarries and wells and all supplemental activities for dressing and beneficiating ores and other crude materials, such as crushing, screening, washing, cleaning, grading, milling, flotation, melting, pelleting, topping and other preparations needed to render the material marketable (17, p.27).

**money, quasi-money:** Money comprises transferable demand deposits of monetary authorities and deposit money banks ("M1"), other than those of the central government, and currency outside banks plus, where applicable, private sector demand deposits with the postal checking system and with the Treasury. Quasi-money comprises time, savings, and foreign currency deposits of resident sectors other than central government. Money plus quasi-money is frequently called "M2" (4, Introduction, sect. 4). *See also* reserve money.

**motor vehicles:** CPC Vers. 1.1 (7): Motor cars and other vehicles principally designed for the transport of persons (except public-transport type vehicles specially designed for

travelling on snow, and golf cars and similar vehicles (subclass 49113).

**motor vehicles, new, registration:** Registrations of new passenger cars and commercial motor vehicles put into circulation for the first time (21, p. 253).

## N

**natural gas:** A mixture of hydrocarbon compounds and small quantities of non-hydrocarbons existing in the gaseous phase or in solution with oil in natural underground reservoirs (12). CPC Vers. 1.1 (7): Natural gas, liquified or in the gaseous state (class 1202).

**newsprint:** Bleached, unsized or slack-sized printing paper, without coating, of the type usually used for newspaper; weight from 45-60 grams per square metre, usually with at least 70 per cent of the weight of fibrous material derived from mechanical pulp (21, p. 140). CPC Vers. 1.1 (7): Newsprint (subclass 32121).

**non-residential building:** A building where half or more of the floor area is intended for other than dwelling purposes (21, p. 168).

## P

**petroleum, crude:** CPC Vers.1.1 (7): Petroleum oils and oils obtained from bituminous materials, other than crude; preparations not elsewhere classified containing by weight 70 per cent or more of these oils, such oils being the basic constituents of the preparations (group 333). Petroleum oils and oils obtained from bituminous minerals, crude (class 1201).

**pig iron including foundry:** Various mineral aggregates from which iron metal is obtained by the conversion of various iron ores by reduction either into pig iron, in blast furnaces or electric furnaces, or into a spongy form (sponge iron) or into lumps by various direct reduction processes. Iron ore is measured by the weight of the ore and may contain varying concentrations of metal. CPC Vers. 1.1 (7), (group 411): Basic iron and steel.

**population, estimate of total:** The total population of a country may comprise either all usual residents of the country (de jure population) or all persons present in the country (de facto population) at the time of the census. For purposes of international comparisons, the de facto definition is recommended (18).

**population, official mid-year estimates:** Estimates of the de facto population on 1 July provided by national statistical offices (10, notes to table 3).

**producer price indices:** The amount receivable by the producer from the purchaser for a unit of a good or service produced as output minus any value-added tax, or similar deductible tax, invoiced to the purchaser. It includes any transport charges invoiced separately by the producer (22, para. 6.205). In principle, the PPI should include service industries, but in practice it is limited to the domestic agricultural and industrial sectors. The prices should be farm-gate prices for the agricultural sector and ex-factory for the industrial sector. The indices are computed using the

Laspeyres formula, unless otherwise indicated in the country notes. Subindices are occasionally included for the PPI (4, p. XVI). *See also* index number, Laspeyres.

## R

**raw materials:** Unprocessed food and beverages, industrial supplies, fuels and lubricants, mainly for industry (8, p. 2).

**reserve money:** Currency in circulation, deposits of the deposit money banks, and deposits of other residents, apart from the central government, with the monetary authorities. Monetary authorities' data of IMF generally consolidate the accounts of the central bank with the accounts arising from monetary functions undertaken by other institutions (4, Introduction, sect. 4).

**reserve position in IMF:** A member's reserve tranche position and creditor position under the various borrowing arrangements. A member's reserve position in the Fund has the characteristics of a reserve asset. A reserve tranche position in the Fund arises from (a) the payment of part of a member's subscription in reserve assets and (b) the Fund's net use of the member's currency. Normally a member's reserve tranche position is equal to its quota less the adjusted Fund holdings of its currency, less subscriptions receivable, less balances held in the administrative accounts of the Fund to the extent they are not in excess of 0.1 percent of a member's quota, if positive (4).

**reserves, total international:** External assets that are readily available to and controlled by the authorities for direct financing of payments imbalances and for indirect regulation of the magnitude of such imbalances. Includes monetary authorities' holdings of SDRs, reserve position in the Fund, foreign exchange, financial derivatives, and gold valued at market prices (4, Introduction, sect. 3).

**residential building:** A building where more than half of the floor area of the building is intended for dwelling purposes (21).

## S

**special drawing rights (SDRs):** International reserve assets created by the International Monetary Fund and allocated to its members to supplement existing reserve assets. They represent each holder's assured and unconditional right to obtain other reserve assets, especially foreign exchange (22, para. 11.67). The SDR is the unit of account for the Fund. The value of the SDR is determined daily by IMF on the basis of a basket of currencies with each currency assigned a weight in the determination of that value. In the derivation of the SDR value, the currencies of the basket are valued at their market exchange rates for the US dollar, and the US dollar equivalents of each of the currencies are summed to yield the rate of the SDR in terms of the US dollar. As of January 1, 2001, the SDR valuation basket weights are the sum of the values of the amount of each currency in the following amounts: US dollar, 45 per cent; euro, 29 per cent; Japanese yen, 15 per cent, and pound sterling, 11 percent (4, Introduction, sect. 1).

**steel, crude:** CPC Vers. 1.1 (7), class 4112 (part): ingots and other primary forms of iron or non-alloy steel, and of stainless steel or other alloy steel.

## T

**tires for motor vehicles:** Pneumatic or solid rubber rings used for cushioning vehicle wheels (16, sect. 2511). CPC Vers. 1.1 (7): Rubber tyres and tubes (group 361).

## U

**unemployment:** Persons in unemployment, according to the restricted definition, comprise all persons of either sex above a specified age who during the specified reference period were "seeking paid employment" or were "seeking self-employment" as defined below.

1. "Persons seeking paid employment": (restricted sense) comprise all persons in the following categories: (a) persons who during the reference period were: (i) "without work", i.e., were not in paid employment of self-employment during the reference period; (ii) "seeking paid work", i.e., had taken specific steps to seek work for wages, salary or related payments in a specified recent period such as the previous month; and (iii) "current available for paid work", i.e., were in a position to take up such work immediately or shortly; (b) persons who during the reference period were without work, currently available for paid work and had made arrangements to start a new paid job at a date subsequent to the reference period.
2. Persons absent from work, on leave, or on layoff with weak job attachment who were seeking paid work during the specified recent period, persons seeking apprenticeships, and students seeking full-time paid work during the vacation period or part-time paid work during the school period should be included among persons seeking paid employment on the same basis as other persons seeking paid employment.

Persons seeking self-employment (restricted sense) comprise all persons who were without work during the reference period and who, in a specified recent period such as the previous month, were seeking self-employment or had taken concrete steps to establish their own enterprise. Persons in unemployment, according to the extended definition, comprise all persons of either sex above a specified age who, during the specified reference period, were "available for paid employment" or "available for self-employment" as defined below.

1. "Persons available for paid employment" (extended sense) comprise all persons in the following categories: (a) all persons seeking paid employment according to the restricted definition; (b) persons without work who were currently available for paid work but who were not seeking paid work during the specified recent period for one or more of the following reasons: belief that suitable paid work was not available, lack of knowledge about where to find paid work, awaiting recall to work, awaiting results of previous applications, awaiting the agriculture season, or other specified reasons.

## Data definitions

2. Persons absent from work, on leave or on layoff with weak job attachment who were not seeking paid work during the specified recent period should be included among persons available for paid employment according to the extended definition if currently available for paid work. Persons available for self-employment (extended sense) comprise all persons in the following categories: (a) all persons seeking self-employment according to the restricted definition; (b) persons with their own individual or household enterprise who did not perform any work during the reference period for reasons such as lack of instruments to work with, lack of funds, awaiting the agriculture season, etc. (3).

**unit value index:** Value at the level of a single, homogeneous good or service is equal to the price per unit of quantity multiplied by the number of quantity units. It is independent of the choice of quantity unit. The Laspeyres unit value index is the average transaction price of a unit (22, paras. 16.9 and 16.13).

## W

**wages, earnings:** Wage rates should include basic wages, cost-of-living allowances and other guaranteed and regularly paid allowances, but exclude overtime payments, bonuses and gratuities, family allowances and other social security payments made by employers. Statistics of earnings should relate to employees' gross remuneration, i.e. the total before any deductions are made by the employer in respect of taxes, contributions of employees to social security and pension schemes, life insurance premiums, union dues and other obligations of employees. The different types of wages statistics are per hour, per day, per week, per month.

Earnings relates to remuneration in cash and in kind paid to employees, as a rule at regular intervals, for time worked or work done together with remuneration for time not worked, such as for annual vacation, other paid leave or holidays.

The current statistics programme to meet short-term needs should cover: (a) statistics of average earnings and hours of work (including, if possible, hours actually worked) and (b) statistics of time rates of wages and normal hours of work. The non-current statistics programme to provide benchmark data as well as other detailed data to meet long-term and continuing needs should include: (a) statistics of wage structure and distribution and (b) statistics of labour cost (3).

**wheat flour:** Meal of wheat seeds (6).

## Définitions des données

### A

**acier brut** : CPC version 1.1 (7)\*, classe 4112 (en partie seulement) : lingots, autres formes primaires et demi-produits en aciers inoxydables et autres aciers alliés.

### B

**base monétaire** : La base monétaire comprend la monnaie en circulation, les dépôts des banques créatrices de monnaie et les dépôts des autres résidents, à l'exclusion de l'administration centrale, auprès des autorités monétaires. Dans les statistiques du FMI, les données des autorités monétaires représentent en général une consolidation des comptes de la banque centrale et des comptes résultant des fonctions monétaires exercées par d'autres institutions (4, Introduction, sect. 4).

**bâtiment d'habitation** : Immeuble où plus de la moitié de la surface est à usage d'habitation (21).

**bâtiment et travaux publics** : Activité économique visant la création, la rénovation, la réparation et l'agrandissement de biens de capital fixe prenant la forme de bâtiments, l'aménagement de terrains par des travaux de génie civil, et d'autres travaux de génie civil (routes, ponts, barrages etc.) (13, par. 15). Nouveaux bâtiments : travaux de préparation du chantier et de construction de nouvelles structures ou d'agrandissements importants de bâtiments existants, que le terrain ait ou non déjà été occupé. Dans cette classe de bâtiments, on peut faire en outre les distinctions suivantes : bâtiments d'habitation : plus de la moitié de la surface-plancher du bâtiment est réservée à l'habitation; autres bâtiments : tous les bâtiments qui ne sont pas classés comme bâtiments d'habitation (13, para. 73).

**bâtiment non résidentiel** : Immeuble où la moitié au moins de la surface est destinée à un usage autre que celui d'habitation (21, p. 168).

**biens de consommation** : Produits alimentaires et boissons non alcoolisées, boissons alcoolisées, tabac et stupéfiants, articles d'habillement et chaussures, logement, eau, gaz, électricité et autres combustibles, meubles, articles de ménage et entretien courant du foyer, santé, transports, communications, loisirs et culture, enseignement, restaurants et hôtels, biens et services divers (9, p. 83).

**biens d'équipement** : Animaux reproducteurs de race pure, récipients métalliques pour le stockage et le transport, outils à main, coffres-forts et articles similaires en métaux communs, chaudières et appareils auxiliaires, turbines, moteurs, machines, appareils et engins agricoles, horticoles ou sylvicoles, machines et appareils utilisés pour la construction et l'industrie minière, machines et appareils industriels, chariots autopropulsés et autres machines et engins de levage, manutention, chargement et déchargement, appareils et instruments de pesage, machines

et appareils de bureau, appareils audio et vidéo et équipement de télécommunication, machines et appareils électriques, matériel et équipements de transport et engins flottants, chaudières, dispositifs, appareils et instruments, compteurs et autres instruments et appareils pour la mesure, caméras et projecteurs cinématographiques, compteurs de temps, matériel récréatif, matériel et fourniture de bureau en métaux communs, mannequins et articles pour étalages, voitures de tourisme et autres véhicules automobiles, remorques et semi-remorques, conteneurs spécialement conçus et équipés pour le transport, locomotives et locotracteurs, tenders, automotrices et autorails, voitures à voyageurs, wagons de service et wagons et wagonnets pour le transport de marchandises, hélicoptères, véhicules spatiaux, y compris les satellites, et leurs véhicules lanceurs, ballons et dirigeables, bateaux-citernes, bateaux de pêche, bateaux frigorifiques, bateaux, remorqueurs, moteurs pour bateaux de type hors-bord, bicyclettes, remorques, avions et autres aéronefs, planeurs, bateaux à rames et canoës, radeaux (8, divisions 4 et 5).

**biens intermédiaires** : Biens consommés en entrée d'un processus de production, à l'exclusion des actifs fixes (22, par. 6.147).

### C

**cheptel** : Totalité des animaux domestiques quels que soient leur âge, et le lieu ou le but de leur élevage.

**chômage** : Les chômeurs, selon la définition étroite, sont les personnes des deux sexes, ayant dépassé un âge spécifié, qui, au cours de la période de référence étaient "à la recherche d'un emploi salarié" ou "d'un emploi non salarié", tels que définis ci-après.

1. Les personnes à la recherche d'un emploi salarié (au sens étroit) comprennent a) toutes les personnes qui au cours de la période de référence étaient i) "sans travail" c'est-à-dire qui n'étaient pourvues ni d'un emploi salarié ni d'un emploi non salarié; ii) "à la recherche d'un emploi rémunéré", c'est-à-dire qu'elles avaient pris au cours d'une période récente spécifiée (le mois précédent par ex.) des dispositions spécifiques pour chercher un emploi en échange d'un salaire, d'un traitement ou de paiements analogues; et iii) "disponibles pour prendre un travail rémunéré", c'est-à-dire en mesure de prendre immédiatement ou rapidement un tel emploi; b) les personnes qui au cours de la période de référence étaient sans travail, disponibles pour travailler et avaient pris des dispositions pour prendre un nouvel emploi à une date postérieure à la fin de la période de référence.
2. Les personnes qui n'étaient pas au travail, étaient en congé, avaient été licenciées, n'ayant pas de liens forts avec leur emploi, et qui recherchaient un travail rémunéré à plein temps au cours de la période récente spécifiée, les personnes recherchant un poste d'apprenti, et les étudiants recherchant un emploi rémunéré à plein temps durant les périodes de vacances ou à temps partiel pendant l'année scolaire sont à

\* Les chiffres entre parenthèses se réfèrent aux entrées numérotées dans la liste des références après ces définitions.

inclure parmi les personnes à la recherche d'un emploi rémunéré sur la même base que les autres personnes à la recherche d'un emploi rémunéré.

Les personnes à la recherche d'un emploi non salarié (au sens étroit) comprennent toutes les personnes qui étaient sans travail au cours de la période de référence et qui, au cours de la période récente spécifiée, le mois précédent par ex., cherchaient un emploi non salarié ou avaient pris des dispositions concrètes pour créer leur propre entreprise. Les chômeurs, selon la définition large, comprennent toutes les personnes des deux sexes ayant dépassé un âge spécifié qui, au cours de la période de référence spécifiée, étaient "disponibles pour un emploi salarié" ou "disponibles pour un emploi non salarié" tels que définis ci-après.

1. Les "personnes disponibles pour un emploi salarié" (au sens large) comprennent toutes les personnes entrant dans les catégories suivantes : a) toutes les personnes cherchant un emploi rémunéré selon la définition étroite; b) les personnes sans travail, disponibles pour prendre un travail rémunéré, mais qui n'avaient pas cherché de travail rémunéré au cours de la période récente spécifiée, pour une ou plusieurs raisons : elles pensaient qu'il n'était pas offert de travail rémunéré qui leur convienne, elles ne savaient pas où chercher du travail rémunéré, elles attendaient le résultat des candidatures qu'elles avaient déposées, elles attendaient d'être rappelées au travail, elles attendaient le début de la campagne agricole, ou encore pour d'autres raisons spécifiées.
2. Les personnes absentes de leur emploi, en congé ou licenciées, n'ayant pas de liens forts avec leur emploi, qui ne recherchaient pas de travail rémunéré au cours de la période récente spécifiée, sont à inclure parmi les personnes disponibles pour un travail rémunéré au sens de la définition large si elles sont au moment considéré disponibles pour un travail rémunéré.  
Les personnes disponibles pour un emploi non salarié (au sens large) comprennent toutes les personnes entrant dans les catégories suivantes : a) toutes les personnes à la recherche d'un emploi non salarié selon la définition étroite; b) les personnes ayant leur propre entreprise ou une entreprise de ménage n'ayant accompli aucun travail au cours de la période de référence pour des raisons telles que le manque d'outils de travail, le manque de fonds, l'attente du début de la campagne agricole, etc. (3).

**ciment** : CPC version 1.1 (7) : ciment, chaux et plâtre (groupe 374).

**combustibles** : Corps ayant la propriété de brûler et pouvant être utilisés pour produire de la chaleur ou de l'énergie (6).  
CPC version 1.1 (7) : produits de cokerie; produits pétroliers raffinés; combustibles nucléaires (division 33).

**construction, nouveaux bâtiments construits** : Activité économique visant la création et l'agrandissement de biens de capital fixe prenant la forme de bâtiments (13, par. 15).

**coût, assurance et fret (CAF)** : Le vendeur doit payer les frais et le fret nécessaires pour acheminer la marchandise au port de destination désigné, mais le risque de perte ou de dommage que peut courir la marchandise, comme le risque

de frais supplémentaires né d'événements intervenant après que la marchandise a été livrée à bord du navire, est transféré du vendeur à l'acheteur quand la marchandise passe le bastillage du navire au port d'embarquement. Le vendeur doit en outre fournir une assurance maritime contre le risque, pour l'acheteur, de perte ou de dommage que peut courir la marchandise au cours du transport. Le vendeur contracte l'assurance et paie la prime d'assurance.

L'acheteur notera que selon ce terme, le vendeur n'est tenu de souscrire l'assurance que pour une couverture minimum.

Le terme CAF exige du vendeur qu'il dédouane la marchandise à l'exportation. Ce terme ne peut être utilisé que pour le transport par mer et par voies navigables intérieures (11).

## D

**décès d'enfants de moins d'un an** : Mort infantile (20, ID3).  
Voir également taux brut de mortalité.

**droits de tirage spéciaux (DTS)** : Les DTS sont des avoirs de réserve internationaux créés par le FMI et alloués à ses pays membres pour compléter les réserves dont ils disposent. Ils confèrent à chaque détenteur un droit garanti et inconditionnel d'obtenir d'autres avoirs de réserve, tout particulièrement des devises (22, par. 11.67). Le DTS est l'unité de compte du FMI. Sa valeur est déterminée chaque jour par le Fonds sur la base d'un panier de monnaies, chacune d'elles étant affectée d'un coefficient pour ce calcul. Lors de l'établissement de la valeur du DTS, les monnaies du panier sont évaluées à leur taux du marché par rapport au dollar É.-U., et les équivalents en dollars É.-U. de chacune des monnaies sont additionnés de manière à obtenir la valeur du DTS en dollars É.-U. Depuis le 1er janvier 2001, les coefficients de pondération affectés aux monnaies du panier servant au calcul de la valeur du DTS sont les suivants : dollar É.-U. 45 %; euro 29 %; yen 15 %; livre sterling 11 % (4, Introduction, sect. 1).

## E

**électricité** : Forme d'énergie qui se manifeste soit statiquement soit dynamiquement au niveau des particules élémentaires et des corps macroscopiques (6). CPC version 1.1 (7) : énergie électrique (Classe 1710). L'électricité peut être d'origine hydraulique, classique, thermique, nucléaire, géothermique, solaire, marémotrice, etc. Entrent également dans cette classe les centrales électriques qui, tout en produisant pour l'entreprise dont elles dépendent, vendent une grande quantité d'électricité à d'autres, et dont la production peut être mesurée séparément des autres unités de l'entreprise principale (16, classe 4010).

**estimation de la population totale** : La population totale d'un pays se compose soit de toutes les personnes résidant habituellement dans le pays (population de droit), soit de l'ensemble des personnes présentes dans le pays au moment du recensement (population de fait). Aux fins de comparaisons internationales, il est recommandé de se servir de la définition correspondant à la population de fait (18).

## F

**facteurs de conversion (commerce extérieur)** : Taux de change servant à exprimer les chiffres du commerce extérieur donnés en monnaie nationale en une monnaie commune, telle que le dollar des États-Unis (21).

**farine de blé** : Poudre obtenue par la mouture de grains de blés (6).

**ferro-alliages** : CPC version 1.1 (7), sous-classes 41112-41115 : ferromanganèse, ferrochrome, ferronickel et autres ferro-alliages.

**filés de coton** : CPC version 1.1 (7), sous-classes 26360 et 26370 : fils de fibres textiles contenant du coton.

**fonte brute (y compris moulages)** : Différents agrégats minéraux à partir desquels on obtient du fer après conversion de différents minerais de fer par réduction soit en fonte brute dans des hauts fourneaux ou des fours électriques, soit sous forme spongieuse (éponges de fer) soit sous forme d'agglomérats par différents procédés de réduction directe. La richesse en minerai de fer est fonction du poids du minerai; le minerai peut contenir différentes teneurs en métal. CPC version 1.1 (7) (groupe 411) : fonte basique et acier.

**franco à bord (FOB)** : Le vendeur a rempli son obligation de livraison quand la marchandise passe le bastingage du navire au port d'embarquement désigné. Cela signifie que l'acheteur doit supporter tous les frais et risques de perte ou de dommage que peut courir la marchandise à partir de ce point. Ce terme ne peut être utilisé que pour le transport par mer et par voies navigables intérieures (11).

## G

**gains (salaires et traitements)** : Les salaires et les traitements sont la rémunération versée aux salariés en espèces et en nature à raison du temps de travail ou du travail accompli, ainsi que la rémunération versée pour des périodes non ouvrées (congrés payés, primes et gratifications, indemnité de logement ou allocations familiales) (22, par. 7.32). *Voir* Salaires, traitements.

**gaz naturel** : Mélange d'hydrocarbures et de petites quantités d'autres matières existant à l'état gazeux ou en solution avec du pétrole dans des réservoirs souterrains naturels (12). CPC version 1.1 (7) : gaz naturel liquéfié ou à l'état gazeux (classe 1202).

## H

**houille** : La houille est un charbon ayant subi un degré élevé de houillification dont le pouvoir calorifique brut est supérieur à 24 MJ/kg (5 700 kcal/kg) (valeur mesurée pour un combustible exempt de cendres, mais humide) et dont le pouvoir réflecteur de la vitrinite est égal ou supérieur à 0,5. Les fines, les poussières et les autres produits charbonniers de qualité inférieure, qui ne peuvent être classés suivant le type de charbon dont ils proviennent, sont inclus dans la catégorie « houille ». [Source : Nations Unies, Statistiques de l'énergie : Définitions, unités de mesure et facteurs de conversion. Série F, no 44 (publication des Nations Unies, numéro de vente : F.86.XVII.21)]. La houille comprend les

catégories suivantes : i) le charbon à coke; ii) le charbon bitumineux et l'anthracite (charbon vapeur). Le charbon à coke est une houille dont la qualité permet de produire du coke susceptible d'alimenter les hauts fourneaux. Le charbon vapeur sert à la production de vapeur et au chauffage des locaux et comprend tous les types de charbons anthraciteux et bitumineux autres que les charbons à coke.

## I

**immatriculations de véhicules automobiles neufs** :

Immatriculations de véhicules automobiles neufs à usage privé et commercial mis en circulation pour la première fois (21, p. 253).

**indice de la production agricole** : L'indice de la production agricole est fondé sur la somme des quantités (pondérées par les prix) des différents produits agricoles, après déduction des quantités utilisées comme semences ou aliments pour animaux (pondérées de la même façon). La formule utilisée pour le calcul de tous les indices, aux niveaux national, régional ou mondial, est celle de Laspeyres. La production de chaque produit est pondérée par la moyenne des cours internationaux du produit pendant la période de base et les quantités produites chaque année sont additionnées. Pour obtenir l'indice, on divise la production totale pour une année donnée par la production moyenne de la période de base. Les produits pris en compte dans le calcul de l'indice de la production agricole sont l'ensemble des produits de l'agriculture et de l'élevage de chaque pays. La quasi-totalité des produits est prise en compte, la principale exception étant les aliments pour animaux (1, 1995, p. ix).

**indice de la production industrielle** : Indice de Laspeyres de la valeur ajoutée totale de l'ensemble de la production industrielle, où la valeur ajoutée se définit comme la valeur de la production moins les valeurs de la consommation intermédiaire et de la consommation de capital fixe.

**indice de la production vivrière** : Entrent dans la production vivrière tous les produits jugés comestibles, qui contiennent des nutriments. Le café et le thé en sont donc exclus, n'ayant pratiquement pas de valeur nutritive (1, p. ix).

**indice de Laspeyres** : Forme d'indice établi en affectant aux prix, quantités ou autres unités de mesure un coefficient de pondération calculé sur la période de référence (5).

**indice de la valeur unitaire** : La valeur des biens ou services homogènes est égale à leur prix par unité de quantité multiplié par le nombre de ces unités. Elle est indépendante du choix de l'unité de quantité. L'indice de Laspeyres de la valeur unitaire est le prix de transaction moyen d'une unité (22, par. 16.9 et 16.13).

**indice de la valeur unitaire à l'importation (ensemble des marchandises)** : La valeur des biens ou des services homogènes est égale à leur prix par unité de quantité multiplié par le nombre de ces unités. La valeur est indépendante de l'unité de quantité choisie. L'indice de la valeur unitaire de Laspeyres correspond au prix de vente effectif moyen par unité. (22, par. 16.9 et 16.13). *Voir également* produits d'importation et indice de Laspeyres.

**indice de la valeur unitaire à l'exportation (ensemble des marchandises)** : La valeur des biens homogènes est égale à leur prix par unité de quantité multiplié par le nombre de ces unités. La valeur est indépendante de l'unité de quantité choisie. L'indice de la valeur unitaire de Laspeyres correspond au prix de vente effectif moyen par unité (22, par. 16.9 et 16.13). *Voir également* produits d'exportation et indice de Laspeyres.

**indice des prix à la consommation (ensemble des marchandises)** : Mesure des variations au cours du temps du niveau général des prix des biens et services acquis, utilisés ou payés par la population de référence pour sa consommation. Cet indice est estimé à partir d'une suite de mesures synthétiques des variations relatives, d'une période à l'autre, des prix d'un ensemble fixe de biens et de services de consommation constants en quantité et par leurs caractéristiques, acquis, utilisés ou payés par la population de référence. Chaque mesure synthétique est obtenue comme une moyenne pondérée d'un grand nombre d'indices de prix d'agrégats élémentaires. L'indice de chaque agrégat élémentaire est estimé au moyen d'un échantillon de prix pour un ensemble fixe de biens et de services que se procurent les individus de la population de référence dans une région donnée, ou qui habitent cette région, auprès d'un ensemble spécifié de points de vente ou auprès d'autres fournisseurs de biens et de services de consommation (3, chap. 7). *Voir également* indice de Laspeyres.

**indice des prix à la consommation (produits alimentaires)** : Mesure des variations au cours du temps du niveau général des prix des produits alimentaires acquis, utilisés ou payés par la population de référence pour sa consommation (3, chap. 7). *Voir également* indice de Laspeyres.

**indices des prix à la production** : Montant que le producteur reçoit de l'acheteur pour une unité de bien ou de service produite, diminuée de toute taxe sur la valeur ajoutée, ou de tout impôt déductible similaire, facturée à l'acquéreur. Il exclut tout frais de transport facturés séparément par le producteur (22, par. 6.205). En principe, l'IPP devrait inclure les services, mais en pratique il ne recouvre que l'agriculture et l'industrie. L'indice doit être établi à partir des prix sortis d'exploitation pour le secteur agricole et des prix départ-usine pour le secteur industriel. Les indices sont établis à partir de la formule de Laspeyres, sauf indication contraire dans les notes concernant chaque pays. On fait parfois figurer à cette section des sous-indices se rapportant à l'IPP (4, p. XVI). *Voir également* indice de Laspeyres.

**indices des prix des biens importés** : *Voir* produits d'importation, indices des prix à la production et des prix de gros.

**indice du volume des importations (ensemble des marchandises)** : Indice fondé sur des unités de quantité des biens, telles que le nombre ou le poids (11, chap. V; 22, chap. XVI). *Voir également* indice de Laspeyres.

**indice du volume des exportations (ensemble des marchandises)** : Indice fondé sur des unités de quantité des biens, telles que le nombre ou le poids (11, chap. V; 22, chap. XVI). *Voir également* indice de Laspeyres.

**industries extractives** : Extraction, préparation et enrichissement des minéraux que l'on rencontre dans la nature à l'état solide (charbon et minerais par ex.), à l'état liquide (pétrole brut par ex.), ou gazeux (gaz naturel par ex.). On comprend dans les industries extractives les mines souterraines et à ciel ouvert, les carrières et les puits, ainsi que toutes les activités complémentaires nécessaires pour le traitement et l'enrichissement de minerais et autres minéraux bruts, telles que le concassage, le criblage, le débouillage, l'égrappage, le triage, le broyage, la flottation, la fusion, le bouletage, l'étêtage et autres opérations propres à rendre les produits commercialisables (17, p. 27).

**industries manufacturières** : Activités recensées à la catégorie de classement D et aux divisions 15 à 37 de la Classification internationale type, par industrie, de toutes les branches d'activité économique (troisième révision). Les industries manufacturières ont pour objet la transformation physique ou chimique de matériaux et composants en de nouveaux produits, que l'activité de transformation soit effectuée par des machines automatiques ou manuellement, qu'elle ait lieu dans une usine ou au domicile du travailleur, que les produits résultants soient vendus en gros ou au détail. Les activités manufacturières recouvrent également l'assemblage des composants constituant les produits manufacturés et les activités de recyclage (16).

## L

**lignite** : Charbon ayant subi un faible degré de houillification et qui a conservé la structure anatomique de la matière végétale dont il provient (6). CPC version 1.1 (7) : lignites, même agglomérées (classe 1103).

**logement** : Local d'habitation distinct et indépendant qui est destiné à être occupé par un ménage ou qui est occupé par un ménage au moment du recensement sans y avoir été destiné à l'origine. Il faut entendre une pièce ou un ensemble de pièces et leurs annexes dans un immeuble permanent ou une partie distincte du point de vue structural dudit immeuble, qui, étant donné la manière dont il a été construit, reconstruit ou transformé, est destiné à servir d'habitation à un ménage et n'est pas entièrement utilisé à d'autres fins. Un tel logement doit avoir une entrée indépendante d'où l'on ait accès (soit directement, soit par un jardin ou un terrain) à une rue ou un passage commun dans le bâtiment (escalier, couloir, vestibule, etc.) (19, par. 2.331 à 2.333).

## M

**marchandises débarquées** : Poids de l'ensemble des marchandises (y compris l'emballage) et du bétail, qui ont été soit chargés, dans les ports du pays concerné, à bord de navires nationaux ou étrangers aux fins d'être débarqués dans un autre pays, soit débarqués de navires nationaux ou étrangers après avoir été embarqués dans un autre pays. Le fret débarqué comprend aussi les marchandises entrant dans les entrepôts de douane ou en sortant (21, p. 254 et 255).

**marchandises embarquées** : Poids de l'ensemble des marchandises (y compris l'emballage) et du bétail, qui ont été soit chargés, dans les ports du pays concerné, à bord de navires nationaux ou étrangers aux fins d'être débarqués dans un autre pays, soit débarqués de navires nationaux ou étrangers après avoir été embarqués dans un autre pays. Le fret embarqué comprend aussi les marchandises entrant dans les entrepôts de douane ou en sortant (21, p. 254 et 255).

**matières premières** : Produits alimentaires et boissons, approvisionnements industriels, combustibles et lubrifiants n'ayant pas subi de transformation et essentiellement destinés à l'industrie (8, p. 2).

**minerais de fer** : CPC version 1.1 (7), groupe 141 : minerais de fer et leurs concentrés, autres que les pyrites de fer grillées.

**monnaie, quasi-monnaie** : La monnaie au sens étroit comprend les dépôts à vue transférables des autorités monétaires et les dépôts des banques créatrices de monnaie (M1), autres que ceux de l'administration centrale, ainsi que la circulation fiduciaire hors banques créatrices de monnaie, et, le cas échéant, les dépôts à vue du secteur privé auprès du système postal et du Trésor. La quasi-monnaie comprend les dépôts à terme, d'épargne et en devises des secteurs résidents autres que l'administration centrale. La somme monnaie + quasi-monnaie est souvent désignée par l'abréviation M2 (4, Introduction, sect. 4). Voir Base monétaire.

## O

**offre intérieure** : Voir indice des prix à la production et des prix de gros.

## P

**papier journal** : Papier écrit non collé ou très légèrement collé, non enduit, du type utilisé pour l'impression des journaux, d'un poids au mètre carré compris entre 45 à 60 grammes et dont 70 % au moins en poids de la composition fibreuse totale sont constitués par des fibres de bois obtenues par un procédé mécanique (21, p. 140). CPC version 1.1 (7) : papier journal (sous-classe 32121).

**période de base** : La période de base est la période où ont été collectées les données utilisées comme base pour un indice ou un autre ratio. Elle est souvent d'une année, mais peut être d'une journée, ou à l'inverse la moyenne d'un groupe d'années (5).

**personnes pourvues d'un emploi rémunéré** : Ce sont : les personnes qui durant la période de référence ont effectué un travail moyennant un salaire ou un traitement en espèces ou en nature; les personnes qui, ayant déjà travaillé dans leur emploi actuel, en étaient temporairement absentes durant la période de référence et avaient un lien formel avec leur emploi, tel le service ininterrompu du salaire ou du traitement, une assurance de retour au travail à la fin de la situation d'exception ou un accord sur la date du retour après la courte période d'absence, etc.; les personnes qui durant la période de référence ont effectué un travail en

vue d'un bénéfice ou d'un gain familial, en espèces ou en nature; les personnes qui, durant la période de référence, avaient une entreprise qui peut être une entreprise industrielle, un commerce, une exploitation agricole ou une entreprise de prestation de services, mais n'étaient temporairement pas au travail pour toute raison spécifique (3).

**pétrole brut** : CPC version 1.1 (7) : huiles de pétrole et de minéraux bitumineux, autres que les huiles brutes; préparations non classées ailleurs contenant en poids 70 % ou plus d'huiles de pétrole ou de minéraux bitumineux et dont ces huiles constituent l'élément de base (groupe 333). Huiles brutes de pétrole ou de minéraux bitumineux (classe 1201).

**pneumatiques (véhicules à moteur)** : Pneumatiques ou bandages pleins en caoutchouc servant à enrober les roues des véhicules (16, sect. 2511). CPC version 1.1 (7) : pneumatiques et chambres à air (groupe 361).

**population, estimation en milieu d'année** : L'estimation de la population en milieu d'année, qui vise la population de fait au 1er juillet, est celle que fournissent les bureaux nationaux de statistique (10, notes du tableau 3).

**position de réserve au FMI** : Position dans la tranche de réserve et position créditrice d'un membre au titre des différents accords d'emprunt. La position de réserve d'un membre au FMI a les caractéristiques d'avoirs de réserve. La position d'un membre dans la tranche de réserve au Fonds est déterminée a) par le paiement d'une partie de sa quote-part en avoirs de réserve, et b) par l'utilisation nette faite par le Fonds de la monnaie de ce membre. La position d'un membre dans la tranche de réserve est normalement égale à sa quote-part moins les avoirs ajustés du Fonds dans sa monnaie, moins les quotes-parts à recevoir, moins les soldes détenus dans les comptes administratifs du Fonds sous réserve qu'ils ne dépassent pas, s'ils sont positifs, 0,1 % de la quote-part de ce membre (4).

**production industrielle** : Production des établissements industriels : industries extractives, industries manufacturières, production et distribution d'électricité, de gaz et d'eau (14).

**production intérieure** : Biens et services créés par l'activité productive des unités institutionnelles résidentes (22, par. 6.238).

**produits agricoles** : CPC version 1.1 (7), divisions 1 et 2 : céréales, légumes, fruits, même à coques, huiles et fruits oléagineux, plantes vivantes, fleurs et boutons de fleurs coupées, graines de plantes cultivées principalement pour leurs fleurs ou leurs fruits, graines de légumes, épices et cultures pour boissons, tabacs bruts ou non fabriqués, betteraves à sucre et cannes à sucre, matières premières végétales non classées ailleurs, animaux vivants et produits du règne animal.

**produits d'exportation** : Biens dont la sortie du territoire économique fait diminuer le stock des ressources matérielles. Dans le système du commerce général, le territoire statistique d'un pays coïncide avec son territoire économique (11, par. 14 à 66).

**produits d'importation** : Biens dont l'entrée sur le territoire économique fait augmenter le stock des ressources matérielles du territoire économique du pays considéré. Les biens simplement transportés à travers le pays (biens en transit) ou admis ou expédiés temporairement (à l'exception des biens destinés au perfectionnement actif) ne font pas augmenter le stock des ressources matérielles d'un pays et ne sont donc pas à inclure dans les statistiques du commerce international. Dans de nombreux cas, le territoire économique d'un pays coïncide pratiquement avec son territoire douanier, c'est-à-dire le territoire sur lequel la législation douanière s'applique de plein droit (11, par. 14 et 66).

**produits industriels** : Biens produits par les unités institutionnelles résidentes dans les industries extractives, les industries de transformation et dans les secteurs de l'électricité, du gaz et de l'eau (22, par. 6.238).

## S

**salaires, traitements** : Les taux de salaires doivent comprendre le salaire de base, les allocations de vie chère et les autres allocations garanties et versées régulièrement, mais ne doivent pas comprendre les heures supplémentaires, les primes et gratifications, les allocations familiales et les autres versements de sécurité sociale effectués par les employeurs. Les statistiques relatives aux salaires doivent porter sur les salaires bruts, c'est-à-dire sur le total avant déduction éventuelle par l'employeur des impôts et des cotisations de sécurité sociale et de retraite à la charge des travailleurs, des cotisations d'assurance-vie, des cotisations syndicales et autres prélèvements à la charge des travailleurs. Les statistiques de salaires peuvent porter sur le salaire horaire, journalier, hebdomadaire ou mensuel. Les salaires correspondent à la rémunération en espèces et en nature versée aux salariés, généralement à intervalles réguliers, pour les heures de travail ou le travail accompli, ainsi que pour les heures non ouvrées (congé annuel, et autres congés ou jours fériés payés). Le programme de statistiques courantes répondant aux besoins à court terme devrait porter sur les éléments suivants : a) statistiques du salaire et des horaires de travail moyens (y compris, si possible, des heures effectivement ouvrées); b) statistiques des taux de salaires au temps et des heures normales de travail. Le programme de statistiques autres que courantes livrant des données de base et d'autres données détaillées répondant aux besoins à plus long terme et aux besoins permanents devrait porter sur les éléments suivants : a) statistiques de la structure et de la distribution des salaires; b) statistiques du coût de la main-d'oeuvre (3).

**surface de plancher** : Somme de la superficie de tous les planchers d'un immeuble délimités par le bord externe des parois externes et comprenant la surface des entrées, des caves, des cages d'ascenseur et, dans les immeubles comportant plusieurs logements, toutes les parties communes. La surface des balcons n'est pas comptée (21, p. 168).

## T

**taux brut de mortalité** : Il s'agit généralement d'un taux annuel, qui est le quotient du nombre annuel des décès observés dans une population au cours d'une année civile, divisé par l'effectif exposé au risque de décès pendant la même période, soit l'effectif moyen de cette population (18, par. 401). Le Décès est la Disparition permanente de tout signe de vie à un moment quelconque postérieur à la naissance vivante (cessation des fonctions vitales après la naissance sans possibilité de réanimation). Cette définition ne comprend donc pas les morts foetales (20, par. 46, (2)).

**taux brut de natalité** : Le taux brut de natalité, généralement exprimé en taux pour mille, est obtenu en divisant le nombre des naissances dans une population par le nombre d'années-homme vécue par la population au cours de la même période, dont l'approximation généralement utilisée est l'effectif de la population au point médian de la période multiplié par le nombre d'années de la période (18). Naissance vivante est l'expulsion ou extraction complète du corps de la mère, indépendamment de la durée de la gestation, d'un produit de la conception qui, après cette séparation, respire ou manifeste tout autre signe de vie, tel que battement de coeur, pulsation du cordon ombilical ou contraction effective d'un muscle soumis à l'action de la volonté, que le cordon ombilical ait été coupé ou non et que le placenta soit demeuré ou non attaché (23, définition 3.1).

**taux de change** : Le taux de change est le prix, dans une monnaie donnée, auquel peuvent être achetés des billets dans une autre monnaie (6). Pour les taux moyens d'une période, les données sont soit la moyenne mensuelle des taux du marché ou des taux officiels du pays qui communique les données, ou, à défaut, la moyenne mensuelle des taux cotés à New York; à défaut de ces taux, on se sert d'estimations basées sur les moyennes simples des taux de fin de mois cotés par le pays qui communique les données (4, Introduction, sect. 1).

**tissus de coton** : CPC version 1.1 (7), groupe 266 : tissus (à l'exclusion des tissus spéciaux) contenant du coton.

**total des réserves internationales** : Ensemble des avoirs extérieurs contrôlés par les autorités et dont elles disposent pour financer directement les déséquilibres de paiements et pour réguler indirectement l'ampleur de ces déséquilibres. Elles comprennent les avoirs des autorités monétaires en DTS, leur position de réserve au FMI, les avoirs en devises, les instruments financiers dérivés, et l'or au prix du marché (4, Introduction, sect. 3).

**trafic de l'aviation civile** : Trafic payant sur des vols réguliers, suivant un horaire publié, et sur des vols supplémentaires motivés par la surcharge des vols réguliers (2).

## V

**valeur d'exportation (ensemble des marchandises)** : Base semblable à celle de la valeur d'importation. Voir valeur d'importation.

**valeur d'importation (ensemble des marchandises) :**

“Valeur transactionnelle, c'est-à-dire le prix effectivement payé ou à payer pour les marchandises lorsqu'elles sont vendues pour l'exportation à destination du pays d'importation [...], pour autant : (a) Qu'il n'existe pas de restrictions concernant la cession ou l'utilisation des marchandises par l'acheteur, autres que les restrictions qui : (i) Sont imposées ou exigées par la loi ou par les autorités publiques du pays d'importation; (ii) Limitent la zone géographique dans laquelle les marchandises peuvent être revendues; ou (iii) N'affectent pas substantiellement la valeur des marchandises; (b) Que la vente ou le prix n'est pas subordonné à des conditions ou à des prestations dont la valeur n'est pas déterminable pour ce qui se rapporte aux marchandises à évaluer; (c) Qu'aucune partie du produit de toute revente, cession ou utilisation ultérieure des marchandises par l'acheteur ne revient directement ou indirectement au vendeur, sauf si un ajustement approprié peut être opéré en vertu des dispositions de l'article 8; et (d) Que l'acheteur et le vendeur ne sont pas liés ou, s'ils le sont, que la valeur transactionnelle est acceptable à des fins douanières [...]” (11, annexe C, d'après l'Accord de l'Organisation mondiale du commerce relatif à l'évaluation).

**véhicules automobiles** : CPC version 1.1 (7) : voitures de tourisme et autres véhicules principalement conçus pour le transport des personnes (autres que les véhicules automobiles pour le transport en commun des personnes, les véhicules spécialement conçus pour se déplacer sur la neige et les véhicules spéciaux pour le transport des personnes sur les terrains de golf et véhicules similaires) (sous-classe 49113).

## *Just issued*

### **International Trade Statistics Yearbook, 2006 Vol. I and Vol. II**

Series G, No. 55, 2021 pages, \$160  
Sales No. E/F.08.XVII.24

The publication provides information relevant to the external trade performance of more than 170 countries or areas and highlights world trade of selected commodities (at the three-digit level of the SITC Rev.3). The publication is issued in two volumes. Volume I provides information on the external trade of individual countries in terms of values, and if available, quantities showing important commodities traded by an individual country for the latest four years as well as the country's trade with its major trading partners and regions for the latest five years. In addition, imports by Broad Economic Categories and the percentage share of countries' trade with the regions as defined for the Millennium Development Goals (MDG), in relation to their total trade are also shown. Volume II contains tables showing total world trade of selected commodities (at the three-digit level of the SITC Rev.3) analyzed by MDG regions and by major trading countries. It also includes special tables showing analytical data on total trade, exchange rate conversion factors, trade indices and on trade flows.

### **Handbook on Geospatial Infrastructure in Support of Census Activities**

Series F, No. 103, 270 pages, \$55  
Sales No. E.09.XVII.8

Censuses provide much of the basic population information that countries need for development. The *Handbook on Geospatial Infrastructure in Support of Census Activities* aims to help UN member countries make use of recent technological developments such as geographic information systems (GIS), remote sensing, and global positioning systems, for improving census quality and analytical products offered by national statistical organizations. In times of humanitarian crisis, geographically specific population information can provide the means to target relief efforts and save lives. The handbook describes the methods for and the philosophy behind the application of new technology to improve census efforts, for both managers and technicians, illustrating that information infrastructure is of key importance for all countries. It also addresses technical and practical issues which are the concerns of census cartographers and takers.

### **Energy Balances and Electricity Profiles, 2006**

Series W, No. 15, 691 pages, \$95  
Sales No. E/F.09.XVII.5

The *Energy Balances and Electricity Profiles, 2006* is the fourteenth issue in a series that started in 1990. It contains energy balances for 115 developing countries for the period 2003-2006 and electricity profiles for 190 countries for the period 2001-2006. The energy balances are snapshots of the annual energy flows in each country showing energy production, trade, conversion and consumption. The electricity profiles provide detailed information on the production, trade and consumption of electricity, net installed capacity and thermal power plant input and efficiency. A valuable source for assessing and analyzing production and consumption patterns in detail on an internationally comparable basis, the *Energy Balances and Electricity Profiles* is available in print and in PDF format.

### **Population and Vital Statistics Report**

Series A, Nos. 248-249, Vol. LXI, No. 1, \$35  
Data available as of 1 January 2009

This issue of the *Population and Vital Statistics Report* presents data for countries or areas on population size (total, male, and female) from the latest available census, estimated total population size for 2006 or 2007 (the later available year), and the number and rate of vital events (live births, deaths, and infant deaths) for the latest available year within the past 15 years (1993-2007). These data are presented as reported by national statistical authorities to the *Demographic Yearbook* of the Statistics Division of the United Nations Department of Economic and Social Affairs. This issue also presents data for the world and its major areas and regions on estimated population size for both 2005 and 2006. These estimates were prepared by the Population Division of the United Nations Department of Economic and Social Affairs.

## Yearbooks and compendiums

### **Compendium of Human Settlements Statistics, 2001**

Series N, No. 6, 254 pages, \$35

Sales No. E.01.XVII.5

This *Compendium* presents statistics on human settlements and housing conditions for 243 countries or areas and 315 cities in the areas of population, households and urbanization, and for up to 100 countries or areas and 200 cities. It focuses on the process of urbanization and characteristics of cities in developed and developing regions. The *Compendium* contains 13 tables and includes graphical presentation of statistics.

### **Demographic Yearbook Special Issue: Population Ageing and the Situation of Elderly Persons**

Series R, No. 22, 855 pages, \$75

Sales No. E/F.92.XIII.9

This special issue of the *Demographic Yearbook* focuses on population ageing and the situation of elderly persons and covers 40 years of national population statistics on population age structure and residence, population ageing, living arrangements, socio-demographic characteristics and economic characteristics, and disability and mortality statistics. The Special Issue also includes articles on age structure changes in 1950-1990, mortality trends among the elderly, disability statistics in studies of ageing and household and family statistics in ageing.

### **Demographic Yearbook, 2006**

Series R, No. 37, 932 pages, \$120

Sales No. E/F.09.XIII.1

The *Demographic Yearbook, 2006* provides statistics on population size and composition, fertility, mortality, infant and foetal mortality, marriages and divorces, the primary source of which are national population and housing censuses, population-related statistics from national administrative recording systems and population and household surveys reported by national statistical authorities. This issue also presents for the first time data on deaths and death rates by cause of death by sex. In addition, this edition displays data on marriages cross-tabulated by age of groom and age of bride—data not published in the *Demographic Yearbook* since 1990.

### **Demographic Yearbook: Natality Statistics**

Series R, No. 30, CD-ROM, \$50

Sales No. E/F 02.XIII.6

The *United Nations Demographic Yearbook (DYB): Natality Statistics* on CD-ROM is a supplement to the fifty-first issue of the *DYB 2001*. The CD provides detailed historical statistics on live births and foetal deaths and serves to update the natality information featured in the *DYB 1986*. The tables are presented by socio-demographic characteristics, including sex, age of mother, age of father, birth order, plurality, birth-weight and gestational age. The tables cover different lengths of time: most of them are from 1990 to 1998, some from 1980 to 1999 and others from 1985 to 1999.

### **Energy Balances and Electricity Profiles, 2006**

Series W, No. 15, 691 pages, \$95

Sales No. E/F.09.XVII.5

The *Energy Balances and Electricity Profiles, 2006* is the fourteenth issue in a series that started in 1990.

It contains energy balances for 115 developing countries for the period 2003-2006 and electricity profiles for 190 countries for the period 2001-2006. The energy balances are snapshots of the annual energy flows in each country showing energy production, trade, conversion and consumption. The electricity profiles provide detailed information on the production, trade and consumption of electricity, net installed capacity and thermal power plant input and efficiency. A valuable source for assessing and analyzing production and consumption patterns in detail on an internationally comparable basis, the *Energy Balances and Electricity Profiles* is available in print and in PDF format.

### **Energy Statistics Yearbook, 2005**

Series J, No. 49, 610 pages, \$130

Sales No. E/F.08.XVII.4; also available in PDF format, \$104

The *Energy Statistics Yearbook, 2004* is the forty-eighth in an internationally comparable series of commercial energy statistics summarizing world energy trends. Annual data for 215 countries and areas for the period 2001 to 2004 are presented on the production, trade and consumption of solid, liquid and gaseous forms of energy and electricity. In addition, per capita consumption series are provided for all energy products. A selection of graphs shows historic trends and/or changes in the composition of the production and/or consumption of major products. Special tables of interest include: international trade tables for coal, crude petroleum and natural gas by partner countries, providing information on the direction of trade; selected series of statistics on fuelwood, charcoal and bagasse; refinery distillation capacity and a table on selected energy resources.

### **Handbook on Geospatial Infrastructure in Support of Census Activities**

Series F, No. 103, 270 pages, \$55

Sales No. E.09.XVII.8

Censuses provide much of the basic population information that countries need for development. The *Handbook on Geospatial Infrastructure in Support of Census Activities* aims to help UN member countries make use of recent technological developments such as geographic information systems (GIS), remote sensing, and global positioning systems, for improving census quality and analytical products offered by national statistical organizations. In times of humanitarian crisis, geographically specific population information can provide the means to target relief efforts and save lives. The handbook describes the methods for and the philosophy behind the application of new technology to improve census efforts, for both managers and technicians, illustrating that information infrastructure is of key importance for all countries. It also addresses technical and practical issues which are the concerns of census cartographers and takers.

### **Housing in the World — Graphical Presentation of Statistical Data**

Series F, No. 63, 177 pages, \$15

Sales No. E.93.XVII.10

This publication offers an overview of basic housing indicators with methodological notes on time periods

## *Yearbooks and compendiums (continued)*

available and sources of data for further references. Indicators covered refer to the type of housing unit or living quarters, type of tenure, type of bathing, cooking, heating and toilet facilities in housing units and the source of water supply. The publication covers 136 countries or areas.

### **Industrial Commodity Statistics Yearbook, 2005 Vol. I and Vol. II**

Series P, No. 45, 1314 pages, \$135

Sales No. E/F.07.XVII.10

The Industrial Commodity Statistics Yearbook, 2005 is the thirty-ninth in a series of annual compilations of statistics on world industry designed to meet both the general demand for information of this kind and the special requirements of the United Nations and related international bodies. This edition of the Yearbook contains annual data on production of about 600 industrial commodities in terms of physical quantity and monetary value. This is the first edition that includes data in monetary value and the Yearbook is presented in two volumes: Volume I: Physical Quantity Data and Volume II: Monetary Value Data. The statistics refer to the ten-year period 1996-2005 for about 200 countries and areas.

### **International Recommendations for Distributive Trade Statistics, 2008**

Series M, No. 89, 164 pages, \$35

Sales No. E.08.XVII.26

The International Recommendations for Distributive Trade Statistics 2008 (IRDTS 2008) provides the comprehensive methodological framework for collection and compilation of distributive trade statistics in all countries, irrespective of level of development of their statistical systems. The recommendations refer to the concepts, definitions, classifications, data sources, data compilation methods, approaches to data quality assessment, metadata and dissemination policies applicable in distributive trade statistics. Some specific topics identified as requiring additional guidance such as the treatment of informal sector units, compilation of indices of distributive trade, seasonal adjustment, etc. are also covered. IRDTS 2008 is consistent with recommendation issued in other fields of economic statistics such as industrial statistics, construction statistics and other related domains of structural and short-term statistics, compilations of index numbers and performance indicators and moreover, has been harmonized with the System of National Accounts 2008 (2008 SNA). The primary audience of this publication is the staff of national statistical offices involved in compilation of these statistics. IRDTS 2008 may also be of relevance to data users interested in better understanding the nature of distributive trade data.

### **International Trade Statistics Yearbook, 2006 Vol. I and Vol. II**

Series G, No. 55, 2021 pages, \$160

Sales No. E/F.08.XVII.24

The publication provides information relevant to the external trade performance of more than 170 countries or areas and highlights world trade of selected commodities (at the three-digit level of the SITC Rev.3). The publication is issued in two volumes. Volume I provides information on the external trade of individual countries

in terms of values, and if available, quantities showing important commodities traded by an individual country for the latest four years as well as the country's trade with its major trading partners and regions for the latest five years. In addition, imports by Broad Economic Categories and the percentage share of countries' trade with the regions as defined for the Millennium Development Goals (MDG), in relation to their total trade are also shown. Volume II contains tables showing total world trade of selected commodities (at the three-digit level of the SITC Rev.3) analyzed by MDG regions and by major trading countries. It also includes special tables showing analytical data on total trade, exchange rate conversion factors, trade indices and on trade flows.

### **Monthly Bulletin of Statistics and MBS Online**

Series Q, Volume LXI, 2007 (E/F). Annual subscription: \$735 (for North America; price varies by region); \$70 per copy

This monthly compilation presents current economic and social statistics on over 50 subjects for more than 200 countries and territories of the world. Monthly and/or annual and quarterly data on various topics illustrate important economic trends and developments in fields such as population, prices, employment and earnings, energy, manufacturing, transport, construction, international merchandise trade and finance.

### **National Accounts Statistics: Analysis of Main Aggregates, 2007**

Series X, No. 41, 260 pages, \$80

Sales No. E.09.XVII.9

The publication contains a complete and consistent set of time series of the main national accounts aggregates for 221 countries and areas of the world for the years 1970 to 2007. The national data for each country and area are presented in separate chapters using uniform table headings and classifications recommended in the United Nations System of National Accounts 1993 (SNA 1993). The main aggregates include gross domestic product (GDP) by type of expenditure and value added by kind of economic activity, both at current and at constant market prices. The publication also contains analytical indicators and ratios that reflect the economic structure and trends of countries and areas such as annual per capita GDP, annual growth rates of GDP, annual shares in total GDP of its main expenditure and value added components, and price trends as defined by the implicit price deflators of GDP.

### **National Accounts Statistics: Main Aggregates and Detailed Tables, 2006, Part I, Part II and Part III**

Series X, No. 39, 3389 pages, \$250

Sales No. E.08.XVII.3; also available in PDF format, \$200

This three-volume publication contains detailed national accounts statistics in national currencies for 186 countries or areas for the years 1995 to 2006. The aggregates such as gross domestic product, national income, saving, household and government consumption expenditure (including detailed consumption classes), gross capital formation, exports and imports and value added by economic activities are presented as well as the relations among aggregates from GDP to net lending. The publication also contains detailed accounts (production, generation of income, allocation of primary

## *Yearbooks and compendiums (continued)*

income, secondary distribution of income, use of disposable income, capital and financial) for institutional sectors including the rest of the world—if compiled by countries—metadata on national accounts compilation and a summary of the SNA conceptual framework, classifications and definitions.

### **Population and Vital Statistics Report**

Series A, Nos. 248-249, Vol. LXI, No. 1, \$35

Data available as of 1 January 2009

This issue of the *Population and Vital Statistics Report* presents data for countries or areas on population size (total, male, and female) from the latest available census, estimated total population size for 2006 or 2007 (the later available year), and the number and rate of vital events (live births, deaths, and infant deaths) for the latest available year within the past 15 years (1993-2007). These data are presented as reported by national statistical authorities to the *Demographic Yearbook* of the Statistics Division of the United Nations Department of Economic and Social Affairs. This issue also presents data for the world and its major areas and regions on estimated population size for both 2005 and 2006. These estimates were prepared by the Population Division of the United Nations Department of Economic and Social Affairs.

### **Selected Statistical Indicators on Youth 1985**

Series Y, No. 1, Add.1, poster, \$2.50

Sales No. 85.XVII.12 A (E, F, S)

### **Statistical Chart on Children: Early Child Development and Learning Achievement 1990**

Series Y, No. 5, \$5.95

Sales No. E.90.XVII.14

This poster was produced in collaboration with UNICEF, UNESCO and the World Health Organization with nine indicators for 160 countries. It demonstrates how child, family and community factors such as infant mortality rates, malnutrition, female illiteracy and access to health service have a powerful influence on school enrolment rates and educational progress.

### **Statistical Chart on World Families (poster)**

Series Y, No. 7 (E, C, F, R, S)

This poster focuses on the special responsibilities and living conditions of families and households, using the most recent data from more than 160 countries. It was prepared in collaboration with the Secretariat of the International Year of the Family in observance of the International Year of the Family 1994. The chart shows the size and formation of families and households through the average size of households, the proportion of women-headed households and the mean age of marriage of men and women. It emphasizes the special responsibilities of families and households in the proportions of children, elderly and disabled and displays living conditions of households and families.

### **Statistical Charts and Indicators on the Situation of Youth 1980-1995**

Series Y, No. 9, 57 pages, \$10.95

Sales No. E.98.XVII.15

Youth are at the forefront of global, social, economic and political developments. *Statistical Charts and Indicators on the Situation of Youth* is a statistical and analytical sourcebook that uses charts and graphs to highlight main aspects and trends in the social and economic situation of youth from 1980-1995 in 202 countries. The format and statistics are as simple as possible so that they can readily be understood and used by non-specialists. The five chapters cover population, education and training, economic activity, health and child-bearing, and households and marital status. The charts and tables are accompanied by statements of how the indicators are defined, where the data are from and how they can be interpreted. The book was prepared by the Statistics Division, Department of Economic and Social Affairs of the United Nations Secretariat to promote the development of statistics and indicators to contribute to improved awareness and policies on youth. It updates previous issues from 1992 and 1985.

### **Statistical Yearbook, Fifty-first issue**

Series S, No. 27, 832 pages, \$150

Sales No.: E/F.07.XVII.1; also available in PDF format, \$120

The United Nations *Statistical Yearbook* is an annual compilation of a wide range of international economic, social and environmental statistics for over 200 countries and areas of the world, compiled from sources including UN agencies and other international, national and specialized organizations. The 51st issue contains data available to the Statistics Division as of March 2007 and presents them in 69 tables on topics such as: agriculture; balance of payments; communication; development assistance; education; energy; environment; finance; industrial production; international merchandise trade; international tourism; labour force; manufacturing; national accounts; nutrition; population; prices; research and development; transport; and wages. The number of years of data shown in the tables varies from one to ten, with the ten-year tables covering 1995 to 2004 or 1996 to 2005. Accompanying the tables are technical notes providing brief descriptions of major statistical concepts, definitions and classifications.

### **Statistics and Indicators on Women in Africa, 1986**

Series K, No. 7, 225 pages, \$23.50

Sales No. E/F.89.XVII.11

This is an extract of statistics from the *Compendium of Statistics and Indicators on the Situation of Women 1986*. It brings together the available statistics and indicators for 52 countries or areas in Africa in 31 tables, covering the same fields as the global Compendium. It also includes a new table on population statistics programmes and national household surveys undertaken in co-operation with the United Nations National Household Survey Capability Programme, to assist in locating more comprehensive and up-to-date data in specific countries.

## *Yearbooks and compendiums (continued)*

### **The 1983 World Programme of Industrial Statistics: Principal Indicators and Related Data**

Series P, No. 27, 986 pages, paperbound \$80  
Sales No. E.90.XVII.7

This publication contains the statistical results of the United Nations 1983 World Programme of Industrial Statistics, providing detailed and internationally comparable information on the industrial structure of 65 countries, which together account for more than 70 per cent of world value added originating in industry. Included are tables on principal indicators of industrial activity, value of output and its composition, value of inputs and value added, value of stocks, gross fixed capital formation, quantity of fuels and electricity consumed, capacity of installed power equipment.

### **The Situation of Women 1990: Selected Indicators**

Series K, No. 8, Add.1/Rev.1, wall poster, \$7.50  
Sales No. 90.XVII.3 (A, E, F, S)

This three-colour poster presents 16 key indicators on the situation of women in 178 countries or areas around the world in the late 1980s. The indicators cover population, education, economic activity, marital status, fertility and contraception, health and political life. Technical notes and sources for the statistics are included.

### **Trends in International Distribution of Gross World Product, National Accounts Statistics — Special Issue**

Series X, No. 18, 336 pages, \$50  
Sales No. E.92.XVII.7

This publication analyses trends in international distribution of gross world product (i.e. the world total of gross domestic product (GDP) for all countries or areas) from 1970-1989. It focuses on how trends differ when applying conversion rates other than exchange rates. It addresses questions such as which countries or areas and which regions improved their economic performance relatively the most and the least and whether inequality in GDP distribution among countries and regions increased or decreased between 1970 and 1989. The extent of correlation between per capita GDP data of countries and the per capita gross regional product data of the region where they are located is also studied. Detailed country tables are included to support further analysis.

### **World Comparisons of Purchasing Power and Real Product for 1980 — Phase IV of the International Comparison Project**

Series F, No. 42:

#### **Part One: Summary Results for 60 Countries**

9 pages, \$6, Sales No. E.86.XVII.9

#### **Part Two: Detailed Results for 60 Countries**

41 pages, \$7.50, Sales No. E.86.XVII.10

This publication contains two parts of the report on phase IV of the International Comparison Project (ICP) for 1980. Part one summarizes the data on 60 countries and provides gross domestic product (GDP) in national currency, resident population, per capita GDP in international dollars, purchasing power parities, exchange rate and price level for each country. Part two describes the organization and methodology underlying phase IV and includes more detailed tables.

These include the results of phase IV for GDP, for its three major components (consumption, government and capital formation) and for 58 condensed categories. Available in English (French version published by EUROSTAT (Luxembourg)).

### **World Comparisons of Real Gross Domestic Product and Purchasing Power, 1985 — Phase V of the International Comparison Programme**

Series F, No. 64, 97 pages, \$19.95  
Sales No. 94.XVII.7 (E, F)

This publication reports the global results of phase V of the International Comparison Programme (ICP) for the benchmark year 1985. Section I of the report summarizes the 1985 results; section II provides concise notes on ICP methodology; section III provides brief references to each of the regional studies on which the global exercise was based; and section IV presents the detailed results of the global comparison and describes the global framework of ICP, its organisational procedures, linking of regional results and uses and limitations of the ICP results. Comparable data on real GDP, purchasing power parities, relative price and volume indices for 53 expenditure categories are available for 56 participating countries.

### **World Statistics Pocketbook, 2008**

Series V, No. 33, 253 pages, \$17  
Sales No. E.09.XVII.3

The United Nations *World Statistics Pocketbook, 2008* is an authoritative and comprehensive compilation of 55 key statistical indicators in convenient country profile format. This edition presents available data for 216 countries and areas, from over 20 international statistical sources, generally for the years 2000, 2005 and 2007. The topics covered include: balance of payments, communication, education and culture, environment, health, industrial production, international trade, labour force, largest urban agglomeration, national accounts, population, refugees, surface area, United Nations membership, etc. The notes on the sources and definitions of the indicators are provided to help users perform further research on the statistics.
