

Session 5.2: Group discussion on quality assurance for statistics compiled from different data sources

Organization

- Three groups as follows:

Group 1	Group 2	Group 3
Albania	Armenia	Azerbaijan
Belarus	Ukraine	Georgia
Kazakhstan	Kyrgyzstan	Montenegro
North Macedonia	Russian Federation	Turkey
Bosnia-Herzegovina	Uzbekistan	Serbia
Norway		

- Each group needs to determine
 - 1 note taker/facilitator
 - 1 presenter
- Time
 - 45 minutes for discussion and preparation
 - 10 minutes for presentation

Session 5.2: Group discussion on quality assurance for statistics compiled from different data sources

Questions

- 1. Do you have (your NSO/NSS) concrete plans for increasingly using “new” / administrative and other data sources in the production of official statistics (please list examples by country)?**
- 2. How will you assure the quality of statistics derived from “new” / administrative and other data sources? – Do you have a strategy?**
- 3. Example: You want to use scanner data from all major supermarkets for calculating parts of the Consumer Price Index – what are / could be the major quality challenges (by Principle, see Manual, para. 7.15)**
