New statistical regulations of Paraguay

Law 6670/20

"Which establishes the modernization of the National Statistical System (SISEN) and creates the National Institute of Statistics (INE)."

A new statistical law and the emergency of SISEN

Generates the guidelines of...

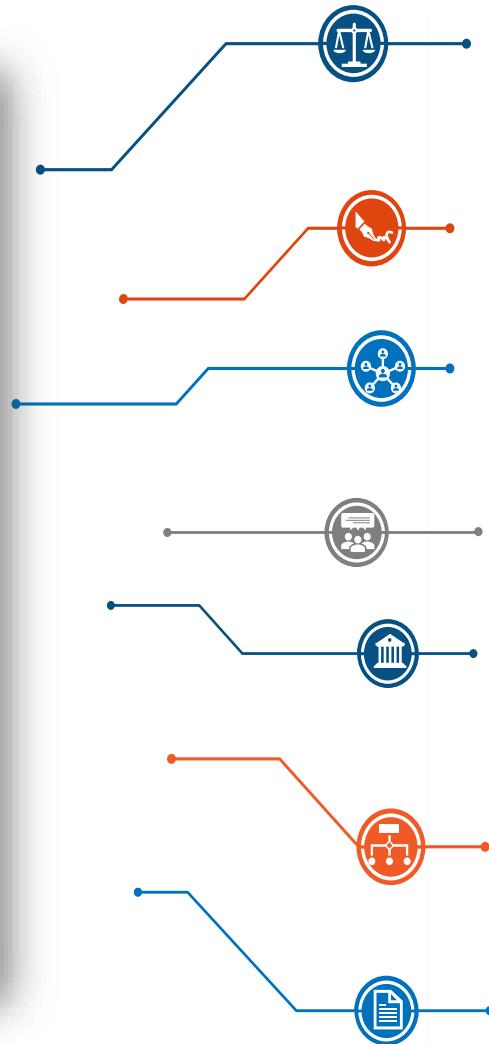

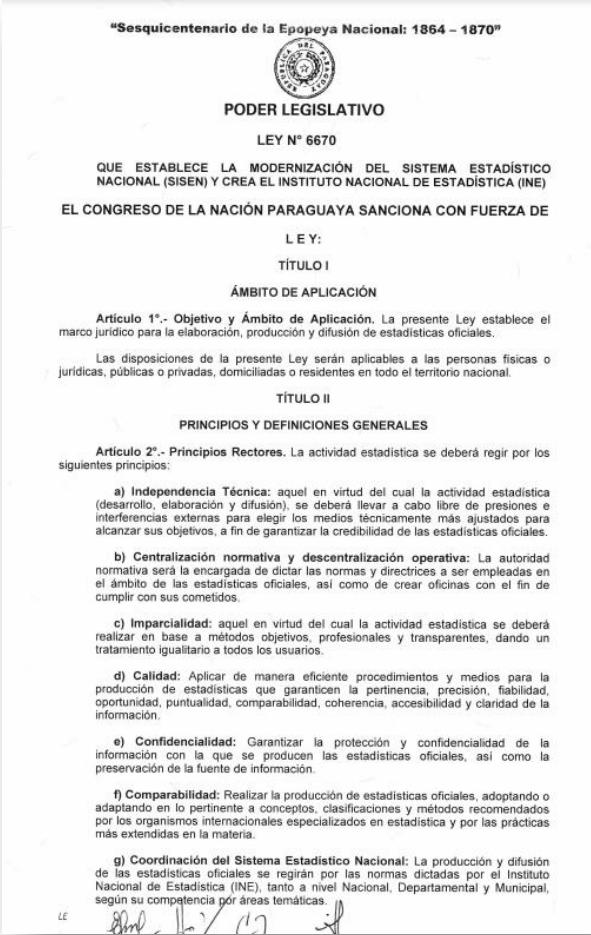

- Technical,
- Methodological, and
- Technological order,

As well as the standards to be applied throughout the National Statistical System (SISEN) for **the generation of official statistical information**, with a view to...

- Its integration,
- harmonization,
- analysis,
- dissemination and
- the interoperability of the statistical information sub-systems.

And its adaptation to scientific-technological advances and to the changes generated in all areas of society, economics, environmental and other relevant areas, establishing coordination, control, evaluation and feedback mechanisms.

Relevant aspects of the Regulatory Framework- Law 6670/2020

Art. 1. Establishes the legal framework for the elaboration, production and dissemination of official statistics.

Art. 2. Establishes “*Governing Principles*”.

Art. 4. Modernizes and integrates the “*National Statistical System*”. Establishes its competence and functions.

Art. 8. Creates the “*National Counseling of Statistics*”. Establishes its functions.

Art. 12. Creates the “*National Institute of statistics*” (INE) as the Governing Authority of the system and its functions.

Art. 22. Establishes structure, organization and resources.

Art. 31. Creates the “*National Statistical Plan*”.

Article 2º.- Governing Principles.

Statistical activity shall be governed by the following principles:

a Technical Independence

No external pressure and interference to ensure the credibility of the statistics.

b Regulatory centralization and operational decentralization

In charge of issuing standards in the field of official statistics.

c Impartiality

Statistics based on objective, professional and transparent methods; equal treatment of all users.

d Quality

To ensure the relevance, accuracy, reliability, timeliness, punctuality, comparability, coherence, accessibility and clarity of the information.

e Confidentiality

Ensure the protection and confidentiality of information; preserve the source of information.

f Comparability

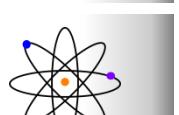

Use of concepts, classifications and methods recommended by international organizations specialized in statistics and by the most widespread practices in the field.

g National Statistical System Coordination

Governed by regulations issued by INE, at the national, departmental and municipal levels, according to its competence by subject area.

Structure and coordination of SISEN

	01	Agriculture, Livestock, Fisheries and Forestry Production		02	Water and Sanitation		03	Training and Statistical Research		04	Science and Technology		05	Communication		06	Economy		07	Employment		08	Energy		09	Environmental Statistics		10	Vital Statistics		11	Statistical and Geospatial Information Integration		12	Justice and Human Rights		13	Population		14	Poverty		15	Social Security		16	Administrative Records for Statistical Purposes		17	Health

INE and its commitment to the quality of statistical information

It is governed by the guiding principles established in Law 6670/2020, as well as international methodological recommendations for statistical production.

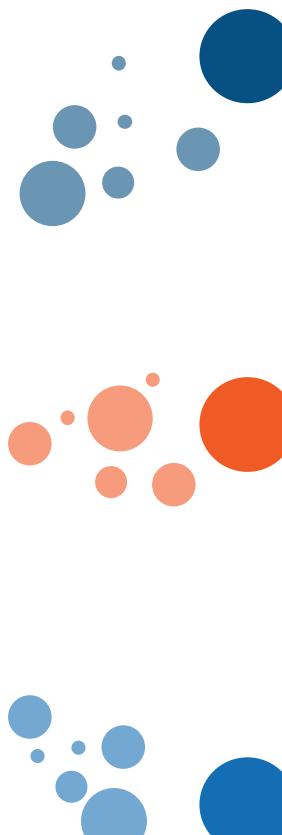

Technical assistance service for the development of methodological materials in the production process of statistical operations (censuses, surveys and administrative records).

1. Preparation of the methodological material "**Technical Standards for the Official Statistical Production of Paraguay**", following other reference models of the LA region, as well as incorporating information from other bibliographies of interest to INE-PY.
2. Elaboration of the methodological material "**Standard Process for the Statistical Use of Administrative Records in Paraguay**", according to the Generic Model of the GSBPM statistical process.
3. Revision and adjustment of the material "**Code of Good Practices for Statistics in Paraguay**", available in preliminary version.
4. Review and adjustment of the material "**Guide for the documentation of Metadata and Microdata of SISEN Statistical Operations**", available in preliminary version.

Gradual adoption of international good practices and recommendations in the production, development, and dissemination of official statistics.

Promote the standardization of statistical operations produced by SISEN.

Application of the Continuous Survey of the Primary Quality Assessment of the RRAA for statistical purposes directed to the State Agencies and Entities (OEE).

It is intended to support the dataset manager in ensuring the publication of relevant and quality DA sets through a publicly accessible portal.

Siguientes pasos

Generación del “Sistema Integrado de Información en base a Registros Administrativos de Población”

- Censo Nacional de Población y Viviendas
- Registro de Nacimientos y Defunciones
- Registro de Identificación de las Personas
- Registros de Movimiento Migratorio
- Registro de Empleo
- Registro de Educación
- Registro de Ingresos y Tributación
- Vehículos de Propiedad Privada
- Registro de Salud
- Registro de Beneficiarios de Programas Sociales

Registro de Población

Registro de Actividades

Registro Inmobiliario

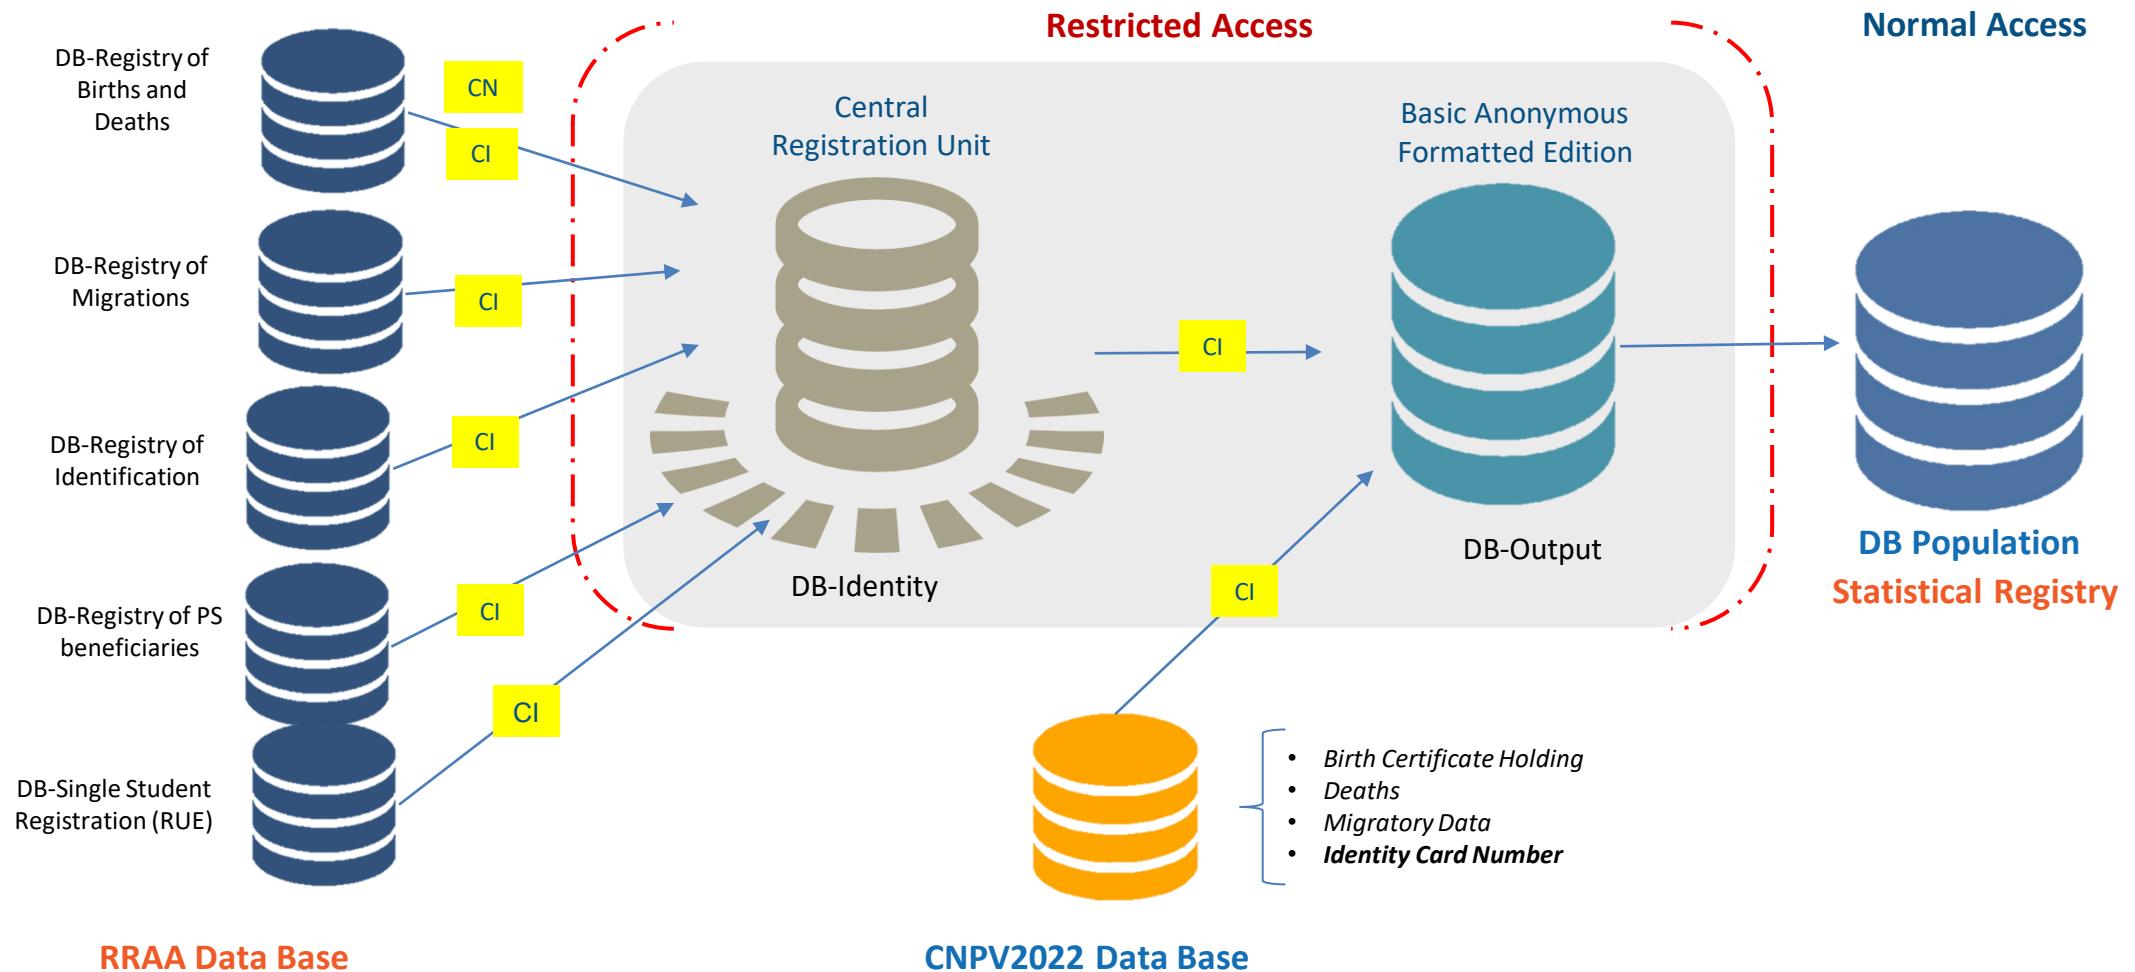

Registro Empresarial

- Base de Datos Geográficos, SIG
- Registros Inmobiliarios
- Registro sobre Edificaciones
- Registro sobre Viviendas
- Catastro

- Registro de Estados y Resultados
- Registro de Salarios y personal, sector priv.
- Registro de Salario y Personal, sector público
- Registro Ocupacional
- Mediciones de Desempleo
- Registro de Seguridad Social
- Registro de Estudiantes, Educación Oblig.
- Registro de Estudiantes, Nivel superior
- Registro de Estudiantes Universitarios
- Personal Escolar
- Personal Universitario

- Registro del Impuesto al Valor Agregado
- Registro de Comercio Exterior
- Registro de Patentes
- Registro de Vehículos, propiedad de una empresa
- Registro Agropecuario
- Registro Escolar
- Datos de Cuentas Estandarizadas
- Declaraciones de Ingresos
- Sumas Salariales Mensuales

Data Interoperability - Statistical Population Register
