

Public/private/government sectors delineation

Following detailed discussions on the above recommendations and a broad level of support, the AEG decided that there are still a number of questions requiring further clarification before final decisions can be made. Therefore, the AEG chair requested members to send detailed comments to Lucie Laliberté and to Jean-Pierre Dupuis by the end of August. The authors should take into account these comments in conjunction with the comments made during the meeting to produce a revised version of the paper for e-discussion with the aim of finalising this question at the next AEG meeting.
