7th Meeting of the Advisory Expert Group on National Accounts, 23-25 April 2012, New York

Agenda item : II

: Pension Liabilities

Introduction

Regarding the measurement of pension liabilities, an ECB/Eurostat Task Force (including representatives from the IMF and the OECD) has met six times to look at measurement issues related to assets and liabilities of pension schemes in general finalised government. Their final report, in 2008, can be found http://www.cmfb.org/pdf/TF%20on%20Pensions%20-%20Final%20report.pdf. The issue of measuring pension liabilities was also raised at the workshop on the implementation of the 2008 SNA (Paris, 25-27 October 2011, organised by the OECD).

Guidance on documentation provided

Eurostat to present verbal information reflecting the on-going discussions in Europe and future plans to address this issue.

Main issues to be discussed
