

Meeting on Scaling up the coordination and resources for the implementation of the SNA, 28-29 May 2013, Luxembourg

Agenda item: III
Selected issues on SNA implementation

Introduction

The implementation of the SNA recommendations proves to be difficult for some countries, which strive to improve the scope, detail and quality of their national accounts, particularly those with less developed statistical systems. This session aims to provide an opportunity for participants to discuss practical issues on the compilation of relevant topics and also the topics to be discussed by the AEG.
