

**9th Meeting of the Advisory Expert Group on National Accounts,  
8-10 September 2014, Washington DC**

**Agenda item: 1.1**

**Implementation of the 2008 SNA**

Introduction

The global initiative for the implementation of the 2008 SNA, endorsed by the UNSC, is based on an integrated statistics approach. With the adoption of this approach, the programme on the implementation of the SNA has broadened its scope beyond the production of macroeconomic accounts to the whole statistical production process of basic statistics and aspects of the institutional environment to facilitate the regular and sustained compilation of the accounts. The ISWGNA reports annually to the Statistical Commission on the activities of the ISWGNA and the AEG to facilitate the implementation of the SNA and addressing issues on the SNA research agenda.
