Joint TT on Communication: Background

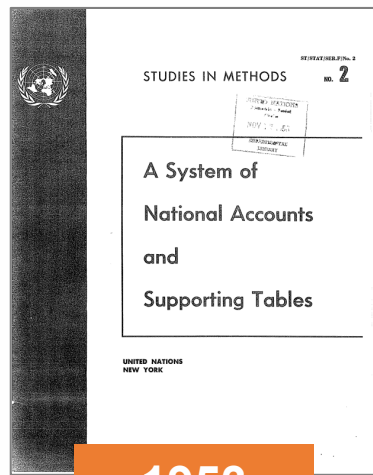

- **Terminology and Presentation** have a significant impact on data interpretation and use by governments, researchers, students, businesses, media, citizens and other statistical producers.
- **The way we communicate the SNA concepts** should maximize analytical usefulness, quality, scope, comparability (time and countries), and policy applications of macroeconomic statistics.
- **Coordination** across statistical domains is needed to maintain consistency and coherency between macroeconomic accounting frameworks.

Communication added as a fourth priority for the SNA research agenda.

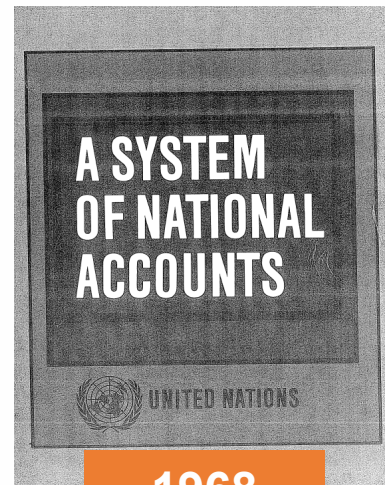

Joint TT on Communication: Objective

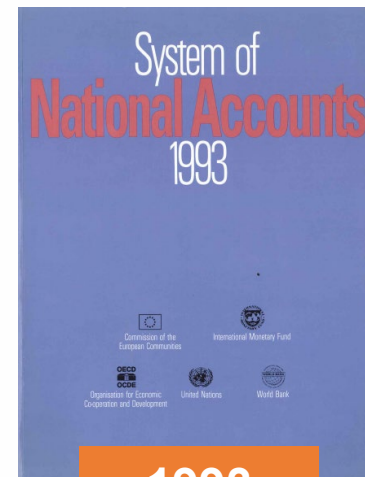

- **Objective:** oversee the development of recommendations and tools aimed to improve the way macroeconomic statistics and accounts are communicated and presented to a diverse set of users.
- **Joint TT:** approved by the 51st UN Statistical Commission (2020).
- **The Joint TT includes representatives of:** ISWGNA, AEG, BOPCOM, GFSAC, etc.
