Progress with Developing Compilation Guidance on Crypto Assets

Twenty-Sixth Meeting of the Advisory Expert
Group on National Accounts

July 9-10, 2024

Outline

- **Draft Compilation Guidance: Proposed Structure**
- **Compilation Guidance: Progress**
- **Next Steps**

Compilation Guidance: Proposed Structure

- I. Overview of crypto assets ecosystem
- II. Methodological framework for the recording of crypto assets
- III. Data sources and compilation methods
- IV. Use cases and country experiences

Annexes

- A1.** Data reporting templates and survey instructions
- A2.** The concept of money and liquidity in MFS

Compilation Guidance: Progress

Initial draft for the following chapters/sections—to be available tentatively by August/September 2024

I. Overview of crypto assets ecosystem

II. Methodological framework for the recording of crypto assets

III. Data sources and compilation methods

- Mining: possible data sources and related survey template/instructions
- Alternate data sources

IV. Use cases and country experiences

- Project Atlas of BIS
- Country cases

- Workshop for the national accounts/external sector statistics compilers from AEG/BOPCOM member countries—May 2024
- Issue Note on crypto lending, staking, cloud and pooled mining

Compilation Guidance: Next Steps

- Work on the remaining sections of Chapters 3 and 4, and Annexes
 - Crypto exchanges and custodians
 - Stablecoin issuers—Pyxtrial project of BIS
 - Assessment of administrative data sources and existing surveys
 - Nonfungible tokens
 - Additional country cases
- Draft chapters to be posted for global consultation as they become available.
- AEG/BOPCOM written consultation
- Combined draft compilation guide covering all the chapters and annexes—by mid - 2025
